KOLBE
WINDOWS & DOORS

VistaLuxe® Collection
AL LINE

For over 80 years, Kolbe has been known for innovative products that push the boundaries and defy the limits of function, performance and style. Exceptional design, quality craftsmanship, endless options and custom solutions allow Kolbe to personalize your design experience with distinctive windows and doors. With multiple product lines designed to meet specific architectural and aesthetic goals, each offers distinct advantages, while remaining vastly customizable.

VistaLuxe® Collection

Ideal for contemporary designs that utilize clean lines and large expanses of glass.

The VistaLuxe Collection AL LINE provides:

- Contemporary European design with all-aluminum interior and exterior profiles
- Maximum sizes to allow for larger expanses of glass
- Thermally broken products for energy performance
- Impact performance options to meet climate demands
- Low-E, performance, & specialty glass
- A variety of products with distinct options and configurations
- Automation options for ease of operation

Designed in Europe, Fabricated in America

Kolbe's VistaLuxe® AL LINE of windows and doors is manufactured using Reynaers Aluminium extrusions and system profiles. This all-aluminum product offering features European styling and functionality, with a sleek, minimal aesthetic that allows for unobstructed views. The SlimLine 38, MasterLine 8, MasterPatio and curtain wall are among the window and door configurations available to create vast openings – plus custom capabilities to achieve unique architectural design goals.

High Performance

Kolbe's all-aluminum window and door products are tested to meet North American air, water and structural certification requirements. For products in mulled assemblies or beyond typical sizes, engineering modifications can be made to meet performance requirements based on location, wind speed, window type or configuration to ensure the products meet the standards necessary for the project. Select products are available with hurricane impact performance options.

Energy Efficiency

The VistaLuxe AL LINE's thermally broken, all aluminum windows and doors enhance energy performance, supported by National Fenestration Rating Council (NFRC) labeling to meet the demands of any climate or region. Wide polymide thermal breaks paired with dual or triple pane insulated glass and Low-E coatings help create these energy-efficient products.

See kolbewindows.com/solutions/energy-efficiency for energy performance data and climate zone maps

Products Available

Windows

	MODELS AVAILABLE:
• Push-out Casements	(CS77, SL38, ML8)
• Inswing Casements	(SL38, ML8)
• Awnings	(SL38, ML8, CS77 – Automated)
• Tilt-Turn & Turn-Tilt	(SL38, ML8)
• Hoppers	(SL38, ML8)
• Direct sets	(SL38, CS77, ML8)
• Corner direct sets	(SL38, CS77, ML8)

Doors

• Multi-Slide	(SP68)
• Hi-Finity® Multi-Slide	
• Lift & Slide	(CP155, MP)
• Folding	(CF77)
• Inswing	(ML8)
• Outswing	(ML8)
• Pivot	(CS77, ML8, ML8-XL)

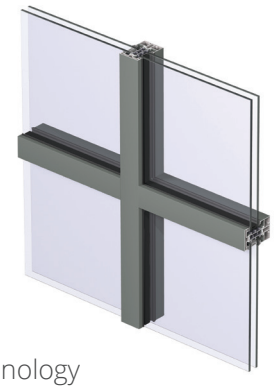
Façades

• Curtain Wall	(CW50)

Style & Design Options

Glass

- Double pane; Insulated glass
- Triple pane; Insulated glass
- Various Low-E coatings
- Specialty & privacy glass



Divided Lites

- Performance divided lites
  (square profiles in 1-1/4" widths)

Insect Screens

- BetterVue® mesh with WaterShed™ Technology
- Centor® retractable screens & shades

Coastal Impact Performance*

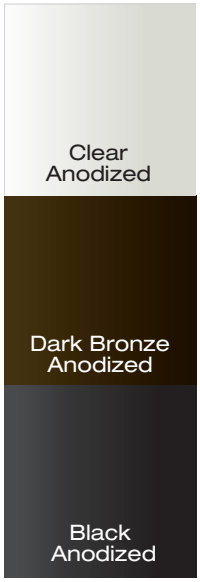
Kolbe's impact-certified products are specially designed with great strength and durability to withstand hurricane force winds and flying debris, and are tested extensively to meet or exceed the strict building codes of the coastal regions.

Universal Design & Automation

For ease of use, Kolbe offers flush sills and no sill options for smooth passage across thresholds, lever style handles, plus automation options for select products to allow fingertip control with fobs, keypads or standard switches.

Interior & Exterior Finishes

The VistaLuxe Collection AL LINE offers sophisticated finishes that enhance the lifelong beauty of your windows and doors. Four powder-coated and three anodized surface treatments are available, for protection of the aluminum as well as for design aesthetic.



Printed images of interior and exterior finishes will vary from actual colors.
Selections should be made based on color samples available from your Kolbe dealer.

There is a "color range" with anodized colors. That is, there is an acceptable "light" to "dark" color range that can be experienced on any job. According to AAMA 611-98 specifications, Section 8.3, the range may be up to 5 Delta E's. We can provide from our anodized vendor color samples of this color range if requested. The color range is due to numerous variables which include (but are not limited to) the shape of the parts, alloy variations and time in the anodizing process. This could mean that a sash part may appear slightly different in color than a frame part. This is/will be acceptable. Even the samples that may be provided may vary from the final product due to the variables. You must be aware of this as this will be considered acceptable.

* Ask your Kolbe dealer for more information about available impact-certified VistaLuxe AL LINE products.

Hardware Options

Dallas Handles

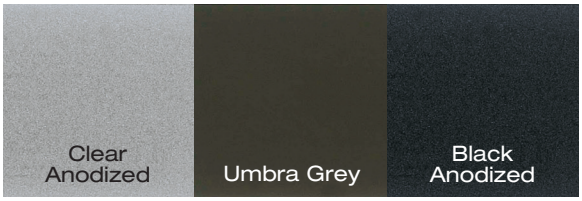
These lever style handle sets include multi-point locking hardware with weather-resistant, stainless steel operator parts. Available in the style and finishes shown.

Doors *(Swinging)*

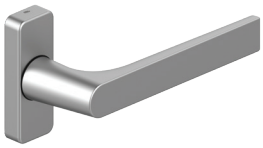
Windows *(Tilt-turns, Hoppers, Push-out Casements & Awnings)*

Touch Handles

These elegant handles, combined with a hardware channel, feature an integrated spring system that enables them to return to their original position. Available in the select styles shown below.



Doors *(Swinging, Pivoting, Folding)*



Standard with Deadbolt Lock

Extended with Deadbolt Lock

Windows

(Tilt-turns, Hoppers, Push-out Casements & Awnings)

Roseless

(Tilt-turns, Hoppers)

Roseless II

Lift & Slide Doors

Finger Pull

Narrow Flush Pull

Concealed

Standard

Printed images of hardware finishes will vary from actual colors. Not all hardware colors are available on all hardware options. Selections should be made based on color samples available from your Kolbe dealer.
