LOW ENVIRONMENTAL IMPACT

Sustainable manufacturing & use of raw material

TECHNOLOGIES

Innovative Eva-Last building systems bring you convenience and longevity in low-maintenance bamboo composite. Explore and enjoy an inspiring and naturally beautiful range of decay resistant outdoor fencing systems. Eva-Last has developed two resilient fence systems, each with its own unique characteristics and set of benefits.

EVOLVER
THE EVOLUTION OF FENCING

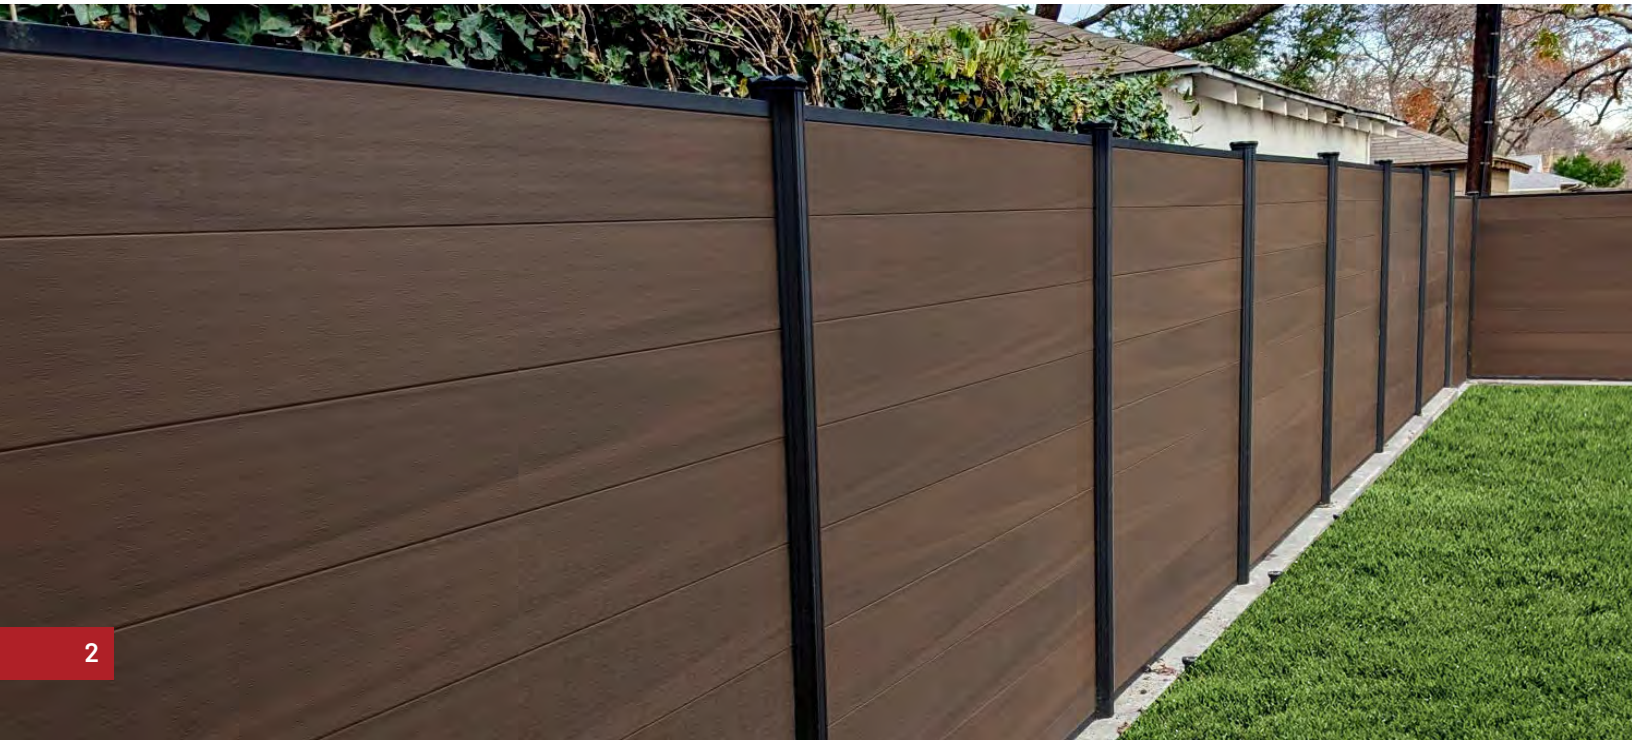
ALUMINUM FRAMED BAMBOO COMPOSITE FENCING

The Evolver fence system allows for complete customization by pairing lightweight optimized aluminum posts and framing with environmentally friendly bamboo composite boards for a low-maintenance, modern-looking, and long-lasting corrosion resistant fence.

OASIS
CAREFREE COMPOSITE FENCING

BAMBOO COMPOSITE FENCING

Oasis composite fencing is made from bamboo fibers and recycled plastic for greater insect, moisture, fade, and decay resistance. This low-maintenance fencing option installs easily and is eco-friendly.



EVA-LAST®

HIGH PERFORMANCE BAMBOO COMPOSITE FENCING

EVOLVER
THE EVOLUTION OF FENCING

ALUMINUM FRAMED COMPOSITE FENCE

Evolver aluminum framed composite fencing combines the best of both aluminum and composite fencing into one cool, contemporary solution. Enjoy the rich warmth of composite, coupled with the sleek durability of aluminum. This highly customizable fence stands out while standing up to UV, fading, mold, insects, wind and weather.

ALUMINUM FRAMED COMPOSITE FENCING

The Evolver fence system allows for complete customization by pairing lightweight optimized aluminum posts and framing with environmentally friendly bamboo composite boards for a low-maintenance, modern-looking, and long-lasting corrosion resistant fence.

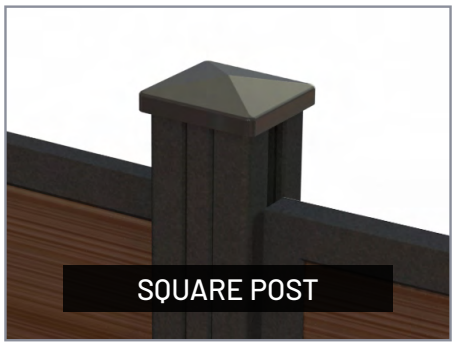
TAKE HOME THE BENEFITS

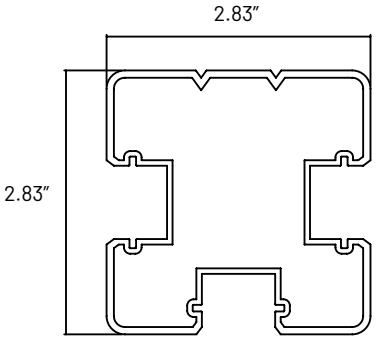
- CUSTOMIZABLE
- LOW MAINTENANCE
- NATURAL AESTHETIC
- DIRECTIONAL FLEXIBILITY
- LOW MAINTENANCE
- LOW MAINTENANCE
- INSECT RESISTANT
- ECO-FRIENDLY

CHOOSE YOUR ANGLE

SQUARE POSTS

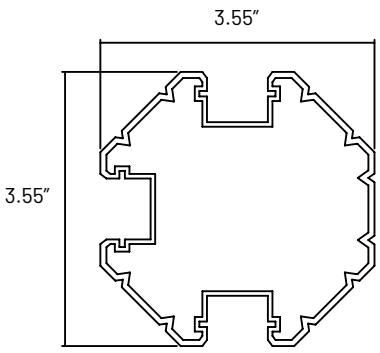
Evolver offers both a square and octagonal post, which accommodates the most simple to the most complex angled yards and spaces.





OCTAGONAL POSTS

Unlike traditional posts the octagonal Evolver post allows for easy 45° transition, facilitating seamless transitions between odd angled yards and spaces.



DIRECTIONAL FLEXIBILITY

FRAMEWORK COLORS AND FINISH

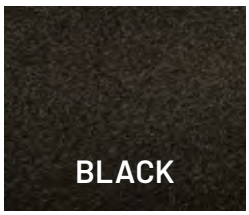
The Tri-coating is designed to prolong the life of the aluminum structural framework, making it the perfect accompaniment to the weather resistant composite boards.

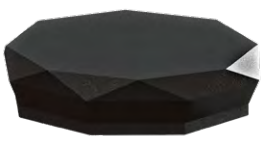
TRI-COATED ALUMINUM FRAME BENEFITS

- Corrosion resistant
- Weather resistant
- UV resistant
- Fade resistant
- Mold resistant
- Insect resistant
- Lightweight

COLORS AND FINISH

Aluminum framework & accessories come in a handsome black finish.





EVOLVER
THE EVOLUTION OF FENCING

EVOLVER FENCING IN INFINITY TECHNOLOGY

Evolver fence utilizes the same Infinity technology as our celebrated decking product. This is a capped, hardy bamboo composite profile with unique variegated color technology ensures no board is the same.

INFINITY TECHNOLOGY BENEFITS

NATURAL LOOK
Specialized streaked colour technology

LOW-MAINTENANCE
Only basic care required for optimal longevity

DECAY RESISTANT
Resists insects, moisture, & weather

PROTECTIVE CAP
Fade, scratch, & stain resistant capping technology

STAIN RESISTANT
Prevents irrigation stains for long-lasting beauty

FENCE BOARD COLOR OPTIONS

Infinity

INFINITY STREAKED COLOR TECHNOLOGY

The proprietary manufacturing process used in the creation of Eva-Last Infinity achieves an infinitely variable and authentic color finish, comparable only to natural timber. This advanced and innovative technology allows for incredible color blending and an authentic natural and durable finish for composite fencing.

NOTE: Due to printing and/or screen variations, colors in the brochure may differ slightly from the actual products.

FENCE & FRAME COMPONENTS

PROFILE DESCRIPTION	PROFILE DIMENSIONS
Composite fence board	0.76" x 8.66" (19.4 x 220 mm)
Aluminum octagonal post	3.54" x 3.54" (90 x 90 mm)
Aluminum square post	2.83" x 2.83" (72 x 72 mm)
Aluminum top rail	0.77" x 1.82" (19.5 x 30 mm)
Aluminum intermediate rail	0.77" x 1.98" (19.5 x 50.4 mm)
Aluminum bottom rail	0.77" x 1.57" (19.5 x 40 mm)
Aluminum post cover	0.31" x 0.94" (7.7 x 24 mm)
Nylon octagonal post cap	1.05" x 4.22" x 4.22" (26.6 x 107.1 x 107.1 mm)
Nylon square post cap	0.82" x 3.26" x 3.26" (20.7 x 82.9 x 82.9 mm)

EVOLVER GATES

The Evolver fencing system would not be complete without the Evolver Gate Kit. Evolver now offers a 3′ wide gate with hinges, gate latch and a door stop included in the kit. This new kit allows for convenient and easy access to your fenced area. For wider applications, utilizing two (2) gate kits for a 6′ wide double gate.

Sizes: 6′ high gate with 3′ panel width

OASIS
CAREFREE COMPOSITE FENCING

LOW MAINTENANCE BAMBOO COMPOSITE FENCE

Oasis composite fencing is made from bamboo fibers and recycled plastic for greater insect, moisture, fade, and decay resistance. This low-maintenance fencing option installs easily and is eco-friendly.

HASSLE-FREE FENCES

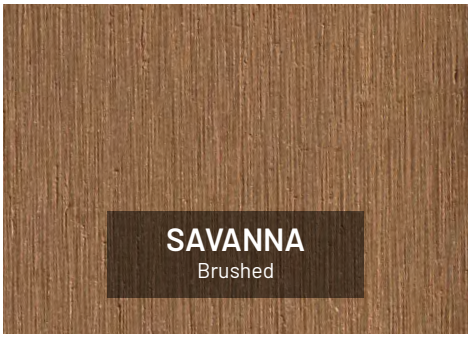
Oasis composite fencing brings privacy and peace of mind to your outdoor oasis. Choose from its natural color range and customizable style options to get the look you want. Enjoy the hassle-free lifestyle it offers thanks to its low-maintenance and weather resistant features.

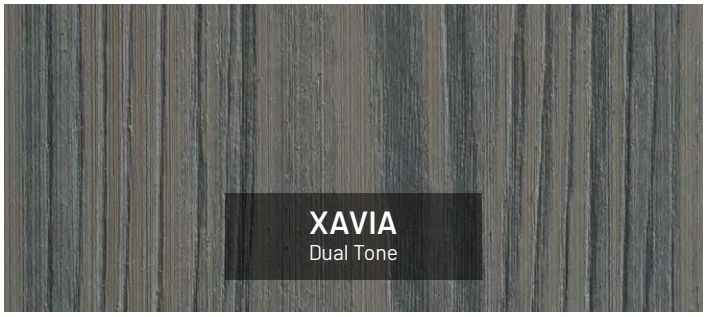
TAKE HOME THE BENEFITS

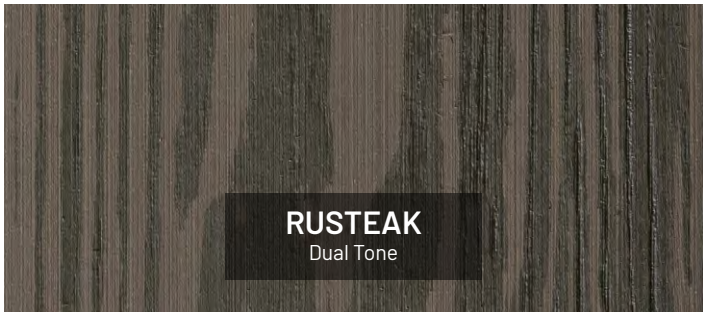
- INSECT RESISTANT
- LOW MAINTENANCE
- FADE RESISTANT
- SIMPLE INSTALLATION
- MOISTURE RESISTANT
- ECO-FRIENDLY

FENCE COLOR OPTIONS

Oasis fencing is available in a selection of natural looking color options that each give the essence of a particular type of timber. Choose from the classic brushed surface finish or the dual tone textured finish that includes an extra level of color and a timber grain look for a more rustic aesthetic.



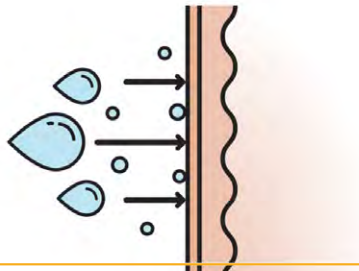




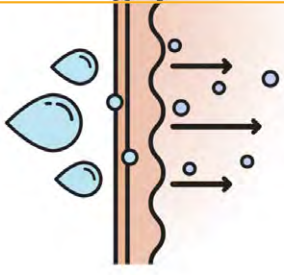
Actual colors may vary depending on printing or screen variations. We recommend looking at a physical sample for the most accurate color representation.

CREATE YOUR OWN SANCTUARY

Unlike wood fences, Oasis fencing is designed to keep moisture-related issues at bay. Its unique bamboo and LDPE polymer composition significantly reduces moisture absorption to create a longer lasting, low-maintenance fence that is less prone to decay, rot, and other hassles even without the need for regular upkeep or treatments.



BAMBOO COMPOSITE

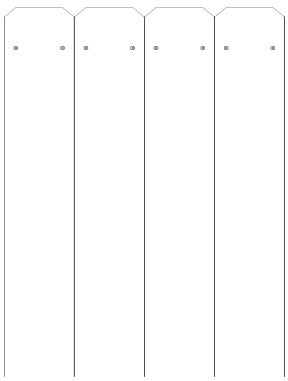


WOOD

OASIS CONFIGURATIONS

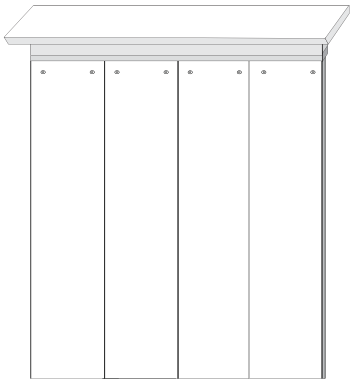
Customize the look of your Oasis fencing by showcasing the square or dog ear pickets of each board and by assembling your fence with or without trim or top caps.

Dog Ear, side x side



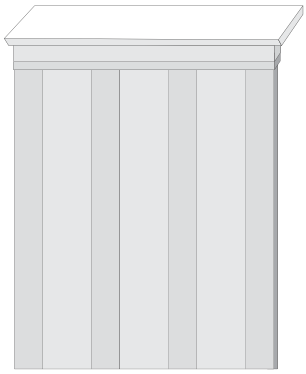
Standard 5.35" & 8" wide pickets available, (Dog ear 6' lengths only)

Square Board, side x side with Top Cap



Standard 5.35" & 8" wide pickets available, (Square board 6' & 8' lengths available)

Board on Board with Top Cap and Front Trim



Standard 5.35" & 8" wide pickets available, mix and match for a custom appeal

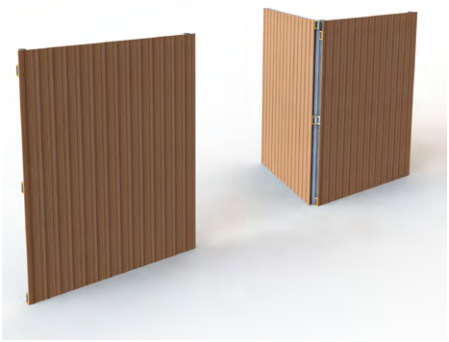
OASIS FENCE PROFILES

Cross-section	Profile Description	Actual Size	Lengths Available
	Standard Picket (Brushed)	0.43" x 5.35"	6' and 8'
	Standard Picket (Dual Tone)	0.43" x 5.35"	6' and 8'
	Wide 8" Picket (Brushed)	0.43" x 7.95"	6' and 8'
	Wide 8" Picket (Dual Tone)	0.43" x 7.95"	6' and 8'
	Top Cap (Brushed finish only)	0.94" x 5.71"	8'
	Steel Composite Support Rail	1.50" x 3.00"	8'

Brushed and Dual Tone pickets available in Square and Dog Ear design. Note: Dog Ear not available in 8' lengths.

OASIS GATES

The Oasis fencing system would not be complete without the Oasis gate. Oasis is now available with two hinged gate options for convenient and easy access to your area. Use only one panel for a small entry way, or two panels for a wider entry way. Also available in two different width options. 3′ wide gate or a 4′ wide gate (in heights of 6′ or 8′).



RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically eco-conscious.

Every Eva-Last range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- *Made from recycled materials*
- *No trees felled*
- *No treatment or toxic chemicals required for maintenance*
- *Solar power used in the manufacturing process*
- *Reduced impact on landfills*
- *Reduced carbon footprint*
