Why Customers Love CVGRailings!

Got the railings installed, my wife is thrilled! I cannot emphasize to you how happy we are with this product.

The glass itself as well as the installation turned out to be a great experience. In fact we have ClearView Glass Railings included as part of the plans we have started on our future lake house.

Our neighbors down the street are wrapping up their project and it looks amazing—cant wait to see the finished product there.

We love our ClearView Glass Railings! They are the best part of our entire renovation. Installation was fairly straight forward and they've been through several strong windstorms without a single issue.

I cannot recommend ClearView Glass Railings nearly enough. We've received tons of compliments. More importantly, we can lie in bed, open the shades and see nothing but lake. Or sit on our deck and enjoy the ENTIRE view unobstructed by railings.

We installed the glass railings and it looks amazing! Friends and family have commented how nice it looks without having the glass in a frame and how clear it is.

I just want you to know that I still believe you manufacture a most incredible product. All of my neighbors, and all of my friends when they come to visit me, are amazed at how beautiful the glass railings are. In addition, no one can believe that I don't have to clean them, they're self cleaning - just marvelous.

If your product had been around before I retired from contracting, I am absolutely certain that I would have installed your glass railings throughout Florida.

Why Customers Love CVGRailings!

We absolutely LOVE the glass railings. Easy to install and adjust and we are blown away by how great our view is now.

I purchased some of your CVGR Hercules Glass Panels from Home Depot for indoor use at my home. They are beautiful and sturdy!

We got the glass rail and everything was really well packaged and arrived in perfect condition! We installed about 11 panels, and I love the leveling mechanism built into the spigots, so between my husband and I, it went perfectly.

Awesome! That sums it up! CVGR Hercules Glass Panels are simply awesome! 100% view from our deck with nothing to block our view. Clean, crisp, maintenance free. Absolutely love them!

We placed the replacement order and appreciate you handling it the way you have offered. We love the glass panels and they look great! Thanks!

We just built a beautiful new home on the St. Croix River with CVGR Hercules Glass Panels on all of our decks. When friends come to visit they walk right out to the deck and go "Wow! There is no disruption of your over view!" The CVGR Hercules Glass Panels are many times the highlight of the home.

John, we did as you suggested and hired our own contractor to install the Glass Railings. They were easy to install and the contractor who has never worked with your product before arrived at nine and left at two. All the panels installed in just 5 hours. Two guys did the installation. The installers were very impressed with how well thought out the Spigot design is! Great job!

— Mark, Naples, FL

Why Customers Love CVGRailings!

Many thanks for the timely delivery of my order. The truck showed up right on time. Can't tell you how much I appreciate you doing what you said you would do. That said, I inspected the panels and spigot boxes and all are intact and accounted for.

— Bill W.

I was impressed by the spigot you designed. Very solid. Being able to level the base so the rails are perfectly level is a game changer.

— Brandon M.

I wanted to let you know that I have been extremely happy with the railing. It's a great product. Thank you very much for an excellent product!

— Phil

LOVE how well you know your competition! I asked a ViewRail Rep a specific question based on reaserch I had done and was told the information I was referencing was outdated. I asked for supporting documentation on a claim he had made and have yet to receive that.

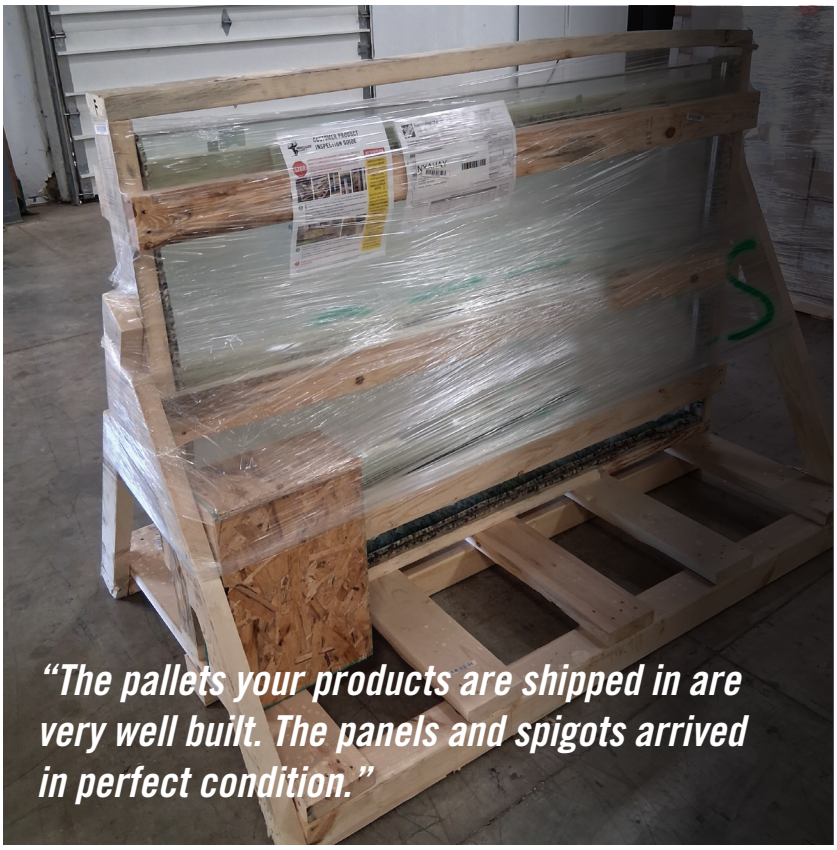
John, YOU have done a WONDERFUL job being kind AND knowledgeable. You have earned my business.

I look forward to giving a GLOWING testimonial of my experience with you and CVGR! Very well done and much appreciated!

— Courtney

Hey John, I will be getting my deck plans submitted to the county next week for approval, as soon as I get the engineers stamp of approval I will let you know so that we can move forward with this. Any other product than yours will do this deck and view an absolute injustice!

— Brandon M.



"The pallets your products are shipped in are very well built. The panels and spigots arrived in perfect condition."

"You can't even see the Hercules Glass Railings!"

— Brett, Marco Island, FL

Why Customers Love CVGRailings!

I love the elegance and simplicity of your railings. I also love how easy they are to install as opposed to some of the others.

— Brandon M.

I just wanted to express to you how pleased we are with the seamless delivery of our glass railings. We appreciate the attention and detail that went into the packing of the glass panels and fittings. Your product will be overlooking the Pacific for a long time! Thanks again for your professional courtesy.

— Jacques F.

Thanks! Love the railings by the way! I don't know how people (with a view) can live without them.

Well, that is the best customer service I have ever experienced!

— Brian P.

We love the glass panels and they look great! Thanks:

— Ken C.

The pallets were very well built. Just a suggestion not to screw pallet wood beams screw too deep into the wood as it made it a bit difficult to remove. I was impressed by the spigot you designed. Very solid.

— Earnest

What a great American company, John. Endless thanks!

— Gordon

INSTALLATION AT PRIVATE MOUNTAIN LODGE

We are very impressed with the product.

We hired out a general contractor to install and reinforce our half deck wall to ensure maximum safety due to high winds where it is located.

The contractor commented that the panels were fairly simple to install so that is a win!
