Our innovative louvered roof systems elevate the outdoor experience for your home or business.

Outdoor Elements luxury pergola systems transform your outdoor space into a comfortable and stylish environment in every season and in all types of weather. With a custom designed louvered roof system, you can expand the interior of your home or business, establishing a seamless connection to your natural surroundings.

We've carefully designed our custom engineered louvered roof systems for a variety of purposes: Our classic Signature Louvered Roof with customizable zones, the Solace Louvered Pergola with elegant tongue and groove louvers, and the dramatic Skypeak Pergola all instantly adjust to sun, rain, and wind with a state-of-the-art smart control system. The Skyview and Serenity Pergola systems offer partial to full shade with the same innovative concept and the simplicity of no motors. Each design can be combined to create zones that are perfectly attuned to your outdoor space.

At home, imagine the allure of an inviting retreat for barbecues, pool parties, quiet meditation, meetings, or just for some relaxing "you time." For your business, visualize how you can maximize your investment, increase your profits, and build client loyalty. Our luxury louvered roof systems take your outdoor space to a whole new level!

Solace Louvered Roofs Offer Superior Performance in Any Climate

Outdoor Elements Solace Louvered Roofs are our premier louvered product line. Our exclusive custom design is engineered to provide high performance and resiliency in a multitude of climates from snow and high heat to humidity and wind. The Solace is manufactured with our patent-pending louver, designed with the ability to extend up to15’6” in width, making it one of the largest and most durable louvered pergolas on the market.

When planning for a large outdoor living area with multiple zones like a pool, outdoor kitchen, or entertaining area, Solace Louvered Roofs are an ideal option due to their expanded span capacity.

These roofs enhance your outdoor living experience in any season and climate. In hot and humid weather, the dual wall system acts as a thermal barrier, absorbing heat to keep your surroundings cooler. For cold evenings or snowy climates, the dual wall system acts as an insulator to retain heat.

45’x18’ 3-Zone Solace System

Benefits

- **Elegant and modern design:** The flat bottom design echoes the look of a tongue and groove ceiling, offering a sophisticated, aesthetically pleasing appearance.
- **Expanded coverage:** With our upgraded louver, covers up to 346 sq. ft. in a single zone and streamline your investment with a cleaner, more refined look. The Solace is our largest single zone system.
- **Dual wall construction:** 10-inch louvers combine an upper wall with a small radius for moisture to run off and a lower flat-wall surface with a separation of 2”, creating an air barrier as an insulation barrier.
- **Engineered to withstand up to 70 lb. snow load & 160 Mile Per Hour Winds:** The Solace is built for strength, durable for extreme snow and wind conditions.
- **Smart control options:** Can be controlled using any smart device with our state-of-the-art app, or with our proprietary handheld remote control.

Signature Louvered Roofs Transform Your Outdoor Space

Imagine relaxing and entertaining in your own backyard or welcoming new clients into your space in any weather, with a louvered roof designed with the highest levels of style and engineering. An Outdoor Elements Signature Louvered Roof will change the way you experience your home or commercial space.

Our classic Signature louvered roofs are crafted with 8-inch louvers that open and close as desired to protect your patio or deck from rain, wind, and sunlight. The louvers can be easily rotated, making them simple to adjust to keep your outdoor area safe, cool or warm, and dry in any weather.

Benefits

- **Versatile Coverage:** Single louvered patio covers are available up to a 12’ width by a 22’2” length a total of 264 Sq. Ft.. Multiple louvered patio covers can be linked together for larger spaces or to meet unique design needs.
- **Customizable Design:** Custom modules are available for virtually any size or shape, allowing you to personalize your louvered roof design with corbels, post wraps, and cantilever upgrade options.
- **Integrated Lighting:** Patented integrated LED lighting is available in various colors, including LED post lights and recessed LED lights, for a beautifully illuminated outdoor space.
- S**mart Control Options:** Can be controlled using any smart device with our state-of-the-art app or our proprietary handheld remote control for convenience.

Skyview Pergolas Let the Sun Shine In

Outdoor Elements Skyview Pergolas make a design statement in your outdoor living space, bringing a sense of modern style to your outdoor relaxation and entertainment. Imagine your backyard as an inviting retreat to lounge by the pool, practice yoga outside, or invite friends and family for cocktails under the stars. A Skyview Pergola expands the indoor/outdoor living possibilities for your home or business, making your space feel open, rejuvenating, and connected to nature.

Benefits

- **Luxury and Quality:** Enjoy all the luxury, quality, and durability of our Signature line with the added benefit of natural simplicity.
- **Enhanced Shade and Cooling:** The Skyview can be adapted with a series of different sized beams or with our 3x3 fixed lattices to allow a consistent amount of shade and light in while significantly reducing heat and making your outdoor space more comfortable.
- **No Motor:** Simple and maintenance-free design with no motor or automated adjustments needed.

Serenity Pergolas Offer Full Cover Cooling Shade

When you want the freedom to relax and entertain outdoors in full shade, Serenity Pergolas by Outdoor Elements is the ideal roof structure. Designed and engineered with the same exceptional quality as our Signature line, Serenity Pergolas are constructed with 3’-6’ insulated roof panels that stay in place for a solid covering.

Serenity Pergolas by Outdoor Elements are a beautiful and practical element in your outdoor living space. Make your outdoor space an inviting oasis with a Serenity Pergola custom-designed to your unique specifications.

Benefits

- **Full Shade Coverage:** Solid covering offers complete shade, allowing you to enjoy your outdoor space comfortably.
- **No Motor:** Simple and maintenance-free design with no motor or automated adjustments needed.
- **Versatile Installation:** Particularly popular when installed in conjunction with other pergolas that have adjustable louvers, giving your outdoor space the ultimate adaptability.
- **Insulated Roof Panels:** Our featured Insulated Roof Panels are manufactured by AV Composites in France. These state-of-the-art panels outperform other manufactures by using closed-cell technology to maximize water resistance, a built-in gutter, and an exterior skin almost 50% thicker than standard, leading to long-term durability.

Skypeak Roof Pergola Reaches New Height

The soaring pitch of an Outdoor Elements Skypeak Pergola makes a dramatic design statement in your outdoor living space. Meticulously engineered for a perfectly even center pitch, our exclusive custom design is a significant upgrade from other manufacturers that piece and patch together two separate systems to achieve a pitch.

The Skypeak Pergola is the ideal choice if you appreciate exceptional design and engineering that is built to last. While the design works beautifully in any setting, it is particularly well-suited for more traditional or classic applications.

Benefits

- **Versatile Functionality:** Functional and appealing as a backyard focal point, or for a pavilion, carport, or commercial wine room.
- **Impressive Pitch:** Achieving a 4’x12’ pitch (with more pitches coming soon), the Skypeak Pergola can be used as a stand-alone or in unison with our other louvered roof systems.
- **Flexible Design:** Designed to perform free-standing or attached, the Skypeak Pergola can be integrated into any large outdoor living area with multiple zones like a pool, outdoor kitchen, and entertaining area, or in commercial zones.

Innovative Pergola Lighting Systems

Our patented integrated pergola lighting systems combine cutting-edge innovation with industry-leading quality to bring any Outdoor Elements pergola to life. Customizable, energy-efficient, and built to last, our lighting systems elevate the design of your custom patio.

Q-Tran Covered Patio Lighting: USA-Made Quality

Outdoor Elements is proud to partner with Q-Tran, one of the leading lighting manufacturers in the United States. With 30 years in the industry, Q-Tran has built a near incomparable reputation through quality products and an unwavering commitment to sustainability. They manufacture lights specifically for Outdoor Elements products with exceptional quality and durability.

Fully Controllable, With RGB Options Available

All Outdoor Elements lighting options are fully controllable through the Outdoor Elements App. Dim, brighten, or put your space in “party mode” with vibrant colors for a truly immersive ambiance. You can also schedule your lighting to turn off and on at certain times for a hands-free, convenient experience.

Beyond our standard white LED options, we also offer RGB LEDs, which have the ability to change to virtually any color you can imagine. Use the Outdoor Elements App to adjust your outdoor patio cover lighting color in seconds on an intuitive, easy-to-use color wheel.

The lighting on your backyard patio should make a positive statement by matching the current space and atmosphere. Together with sleek lighting innovations from Q-Tran, we intelligently design our covered patios with integrated lighting for seamless visuals at every angle.

Illuminate your outdoor space with innovative, energy-efficient lighting solutions from Outdoor Elements. Experience the perfect blend of style, functionality, and sustainability.

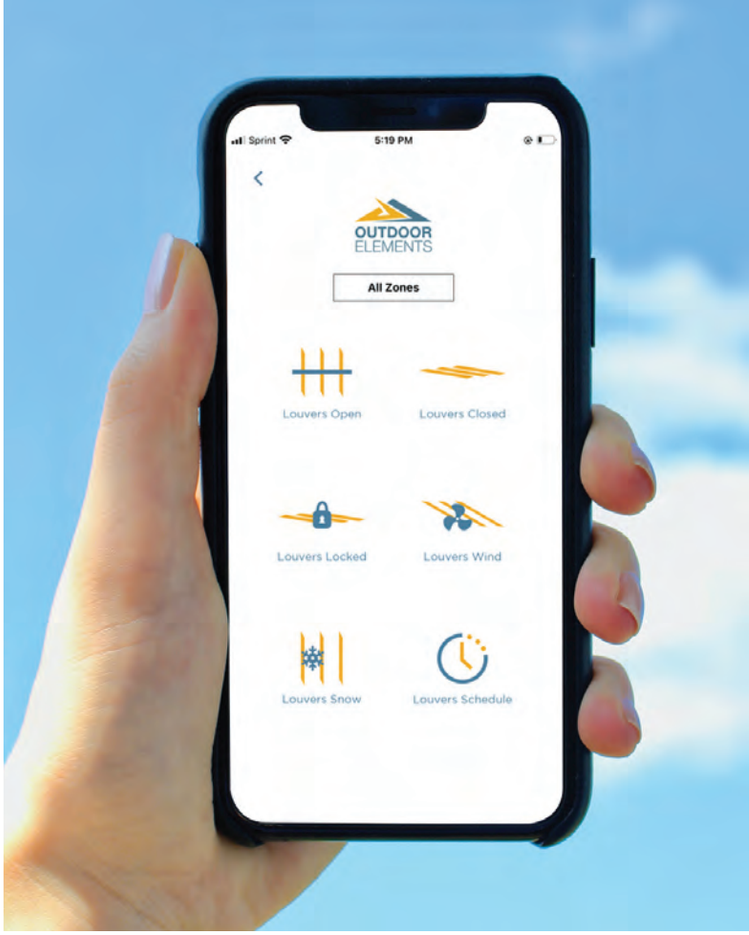
Transform your environment with our Smart System

Experience ultimate outdoor luxury and convenience with the Louvered Roof System App. Designed to complement your lifestyle, this app provides seamless integration and intuitive controls, making it easier than ever to manage your louvered roof. Control your environment from your phone or other mobile devices and enjoy the following features:

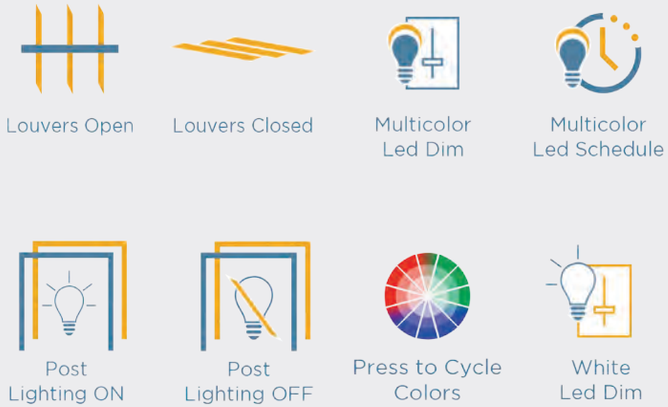
- **Effortless Control:** Whether you're adjusting the angle of the louvers for optimal sunlight or opening and closing them to create the perfect ambiance, our app puts control right at your fingertips.
- **Personalized Settings:** Customize your outdoor space to suit your mood and preferences. Save your favorite settings for separate occasions, whether it's creating a cozy atmosphere for a family barbecue or maximizing airflow during a summer gathering.
- **Energy Efficiency:** Optimize energy usage and reduce utility costs with smart scheduling features. Set timers to automatically adjust your louvered roof based on your daily routine, ensuring efficient use of energy without compromising comfort.
- **Seamless Integration:** Our app seamlessly integrates with other smart home devices, allowing you to create a truly connected outdoor oasis. Sync your louvered roof with your existing smart home ecosystem for enhanced convenience and control.

Comprehensive Control Features:

- **Louvers:** Open or close for optimal sunlight and protection.
- **Scheduling:** Schedule louvers and lighting to match your routine.
- **Integrated LED Lighting Channel:** Control the intensity of lighting, from bright to dim.
- **RGB Color Spectrum:** Adjust the color of your lighting to fit any mood or occasion.
- **LED Post Lighting:** Add ambiance to your outdoor space.
- **Recessed LED Lighting:** Seamlessly integrated for a clean, modern look.



Control at your fingertips



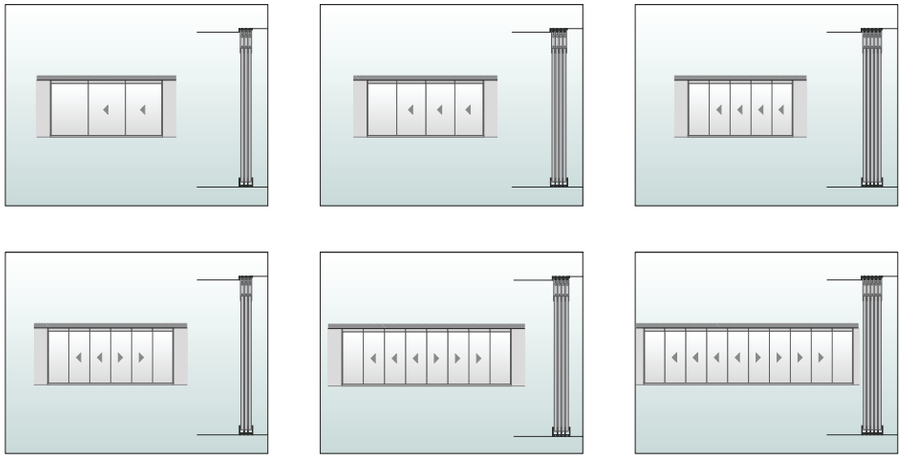
Glass enclosures balance comfort and innovation

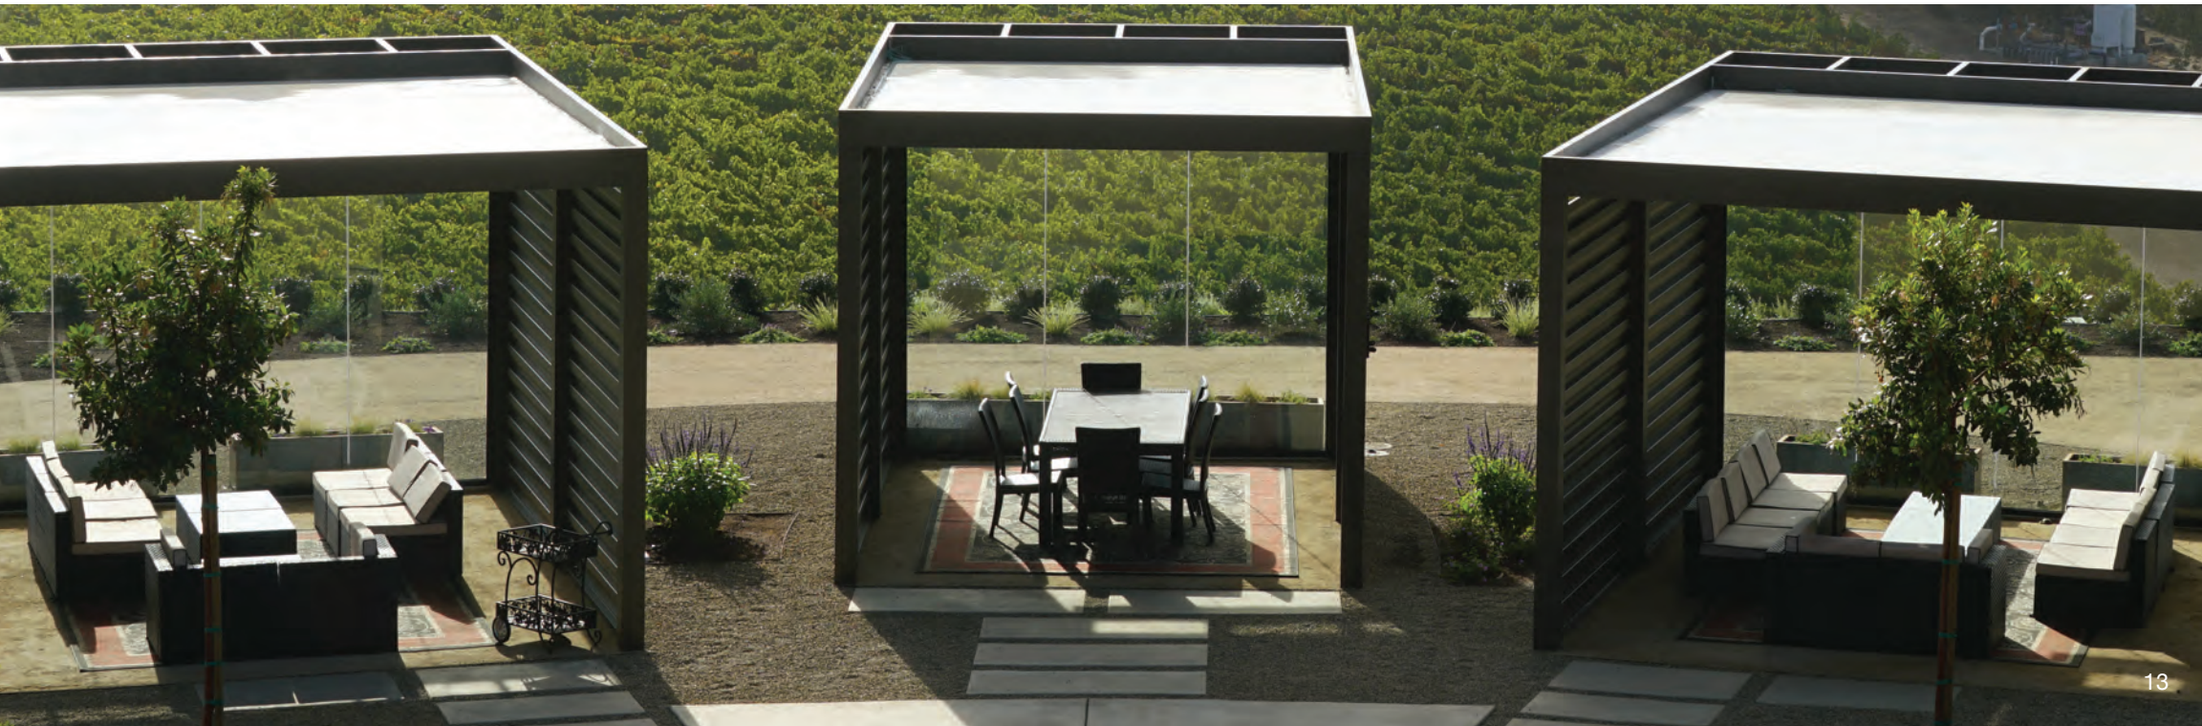
Ideal for both residential and commercial spaces, these meticulously engineered glass enclosures can be integrated with any Outdoor Elements pergola roof system. Designed for ease of use and adaptability, glass enclosures give you the option for a new level of comfort in your outdoor space, providing additional protection from the wind and rain.

Frameless Multi Slide Glass Walls

- Designed to give a frameless look, each panel overlaps using a weather-tight seal to minimize clear view distractions and maximize unobstructed views.
- Door systems are custom-designed and can be manufactured to accommodate openings ranging from 4’ to 40’ in length.
- Tempered Glass Panels available in sizes up to 2ft-4ft in width and up to 4ft-10ft in height, supporting a maximum panel weight of 220 lbs.
- Manufactured with multiple header and sill options to adapt to your specific installation.

Multiple Panel Configurations Available.





Screens and Roller Shades

Automated screens are the perfect solution to add privacy and protection to outdoor decks and patios. With the click of a button, you can transform the look and feel of your outside living space by releasing or retracting custom-fitted automated screens. Whether you have a pergola or louvered roof, automated screens are never mass-produced. Because they are designed and custom-fitted to your exact specifications, they provide a clean, seamless look that enhances the architectural style of your exterior space.

Benefits

- **Privacy and Protection:** Enjoy enhanced privacy and protection from the elements with automated screens that adapt to your needs.
- **Easy Operation:** Effortlessly control your screens with the click of a button, transforming your outdoor space instantly.
- **Custom-Fitted Design:** Each screen is designed and custom-fitted to your exact specifications, ensuring a perfect fit and a seamless appearance.
- **Architectural Enhancement:** Automated screens enhance the architectural style of your exterior space, adding both function and aesthetic appeal.

Textilene Nano 95 Automated Screens: Advanced Solar Protection

Our automated screens feature Textilene Nano 95, a high-performance solar screen fabric crafted from antimicrobial, PVC-coated polyester. This lightweight fabric is designed to provide exceptional solar protection by reducing harmful UV rays, heat transfer, and glare. Blocking up to 95% of the sun's rays, Nano 95 is flame resistant, fade resistant, and serves as a durable replacement for traditional insect screens.

Benefits

- **Solar Protection:** Blocks up to 95% of harmful UV rays, reducing heat transfer and glare.
- **Antimicrobial:** Made from antimicrobial PVC-coated polyester for added durability and cleanliness.
- **Fade Resistant:** Maintains color and appearance over time, ensuring long-lasting performance.
- **Energy Efficient:** Helps save energy by reducing heat gain, enhancing indoor comfort and protecting furnishings from fading.
- **Daytime Privacy:** Provides privacy during the day while maintaining clear visibility from the outside.

Control Your Environment with Heating & Cooling

Enjoy your residential or commercial outdoor space year-round, in any weather, with Outdoor Elements heating and cooling features for custom patio covers. We offer a variety of heating and cooling solutions that can be adapted to your personal and climate needs.

Heaters for Cozy Comfort

In cooler weather, our professionally designed and installed heating systems ensure your space remains cozy and comfortable. We’ve partnered with industry leaders to offer superior quality heating solutions:

Bromic Heating USA

Bromic Heating offers powerful electric and gas heaters that are vented and recessed. Featuring patented Smart-Heat technology, Bromic heaters provide directional, radiant heating for maximum efficiency. Ideal for both residential and commercial spaces..

Infratech

For an energy-efficient alternative, consider Infratech patio heaters. Utilizing infrared technology, these heaters connect directly to your electrical system and boast up to 90% energy efficiency. Customizable and made in the USA, they provide reliable warmth without the need for natural gas or propane.

Designer Fans

Enhance your outdoor living experience with our designer fans, inspired by the golden age of aviation. Featuring sleek lines and metallic accents, these fans are meticulously constructed to flawlessly integrate with your patio cover, offering the ultimate in luxury and style.

Creative Colors and Finishes

Choose Your Style: Classic or Custom Designer Colors. Express your personality with Outdoor Elements' wide range of colors and finishes, designed to complement any outdoor space. Whether you prefer timeless classics or want to make a bold statement with custom designer colors, we offer a variety of options to suit your taste. Select from our thoughtfully created classic or designer colors, crafted to enhance the aesthetic appeal of your outdoor living area.

Our powder coated materials are sourced from IGP, one of the world's largest and most reliable manufacturers of powder coatings. All aluminum components are chemically prepped or sandblasted and cleaned. The powder coated material is then applied using an electrostatic process with multiple coats of a matte-textured Super Durable exterior grade material. Material is then baked in a large oven at 400 degrees for 40 minutes. This process ensures a durable and long-lasting finish.

Sea Coast Package to Protect Your Louvered Roof in Coastal or Damp Climates

Protect Your Investment with Outdoor Element's Sea Coast Package: Designed specifically to safeguard your louvered roof system in coastal or damp climates the Sea Coast Package is an extra step to ensure longevity and optimal performance. Prior to the final application of powder coating, we apply a special primer and bake it on. This method gives the aluminum a layer of protection and durability needed for harsher environments.

Features

- **Enhanced Corrosion Resistance:** Components are specially treated and coated to resist corrosion caused by salt air and moisture, common in coastal areas.
- **Durable Materials:** Utilizes high-quality, marine-grade materials that withstand harsh coastal conditions.
- **Sealed Components:** Seals and gaskets are enhanced to provide additional protection against moisture ingress.
- **Extended Warranty:** Includes an extended warranty to provide peace of mind in coastal environments.

Benefits

- **Longevity:** Extends the lifespan of your louvered roof system by protecting against corrosion and environmental wear.
- **Reliability:** Ensures consistent performance and operation even in humid and salty air conditions.
- **Maintenance Savings:** Reduces the frequency and costs associated with maintenance and repairs.

Retreat in Your Own Backyard with a Customized Outside Space

Imagine transforming your backyard into a serene shelter equipped with all the comforts of indoor living. Outdoor Elements offers a luxury louvered roof system that expands the possibilities for relaxation and entertainment outdoors, tailored to reflect your unique style and preferences.

Personalize Your Louvered Roof

"We were in desperate need of shade in our backyard. We were fortunate to find Outdoor Elements and were impressed from the very start. We are so pleased with the final product and have received many compliments. The white and colored lights embedded in the pergola are not only stylish but useful, and we can easily open and close our louvers with a remote from indoors or outdoors. Without question, we will work with Outdoor Elements again in the future and will recommend them to anyone needing their services."

-Keith and Karina Cochran

"Working with Outdoor Elements was a fantastic experience from beginning to end. The finished product is absolutely the perfect final touch to our outdoor living space. Thanks to the entire Outdoor Elements team for making our backyard vision become reality and one that we will enjoy for years to come!"

-Matt and Raksha Matthias

"We love our Outdoor Elements louvered roof patio cover. We wanted a cover over our outside kitchen but didn't want to lose light next to our existing covered patio. The louvered patio cover was the perfect addition. We have the best of both worlds. We can have it closed when needed to protect our kitchen from the weather and can open it when we are entertaining and using the barbeque. The design and installation team were top notch!"

-Ray and Jessica Neder

"We had a complex space and Outdoor Elements spent the time to ensure the plans met our needs. We now love spending time outside under our new louvered roof and enjoying our yard."

-Renee and Mark Sherman

"We absolutely love our new Outdoor Elements patio cover! We wanted to add a patio cover that would provide comfort from the elements and something that would go with our new backyard design. Outdoor Elements was the perfect solution! We can entertain and cook for family and friends, while hanging out by the pool."

-Muath and Zeina Rashid

Protect your investment and maximize profitability with Outdoor Elements' commercial-grade louvered roof systems.

Increase Your Revenue Potential with our louvered roof systems. Guests are drawn to the vibrant and inviting atmosphere of outdoor dining, drinking, and socializing. Grow your commercial outdoor space into a profit powerhouse! Our pergola systems extend the use of your space and establish a year-round destination. Increase customer loyalty and build higher earnings in every season.

Lighting | Heaters | Fans | Screens

Tailor your Outdoor Elements louvered roof system to meet the specific needs and style of your business. From lighting and heating to roller shades, glass doors and more, we have a customizable solution that makes sense for your specific business.

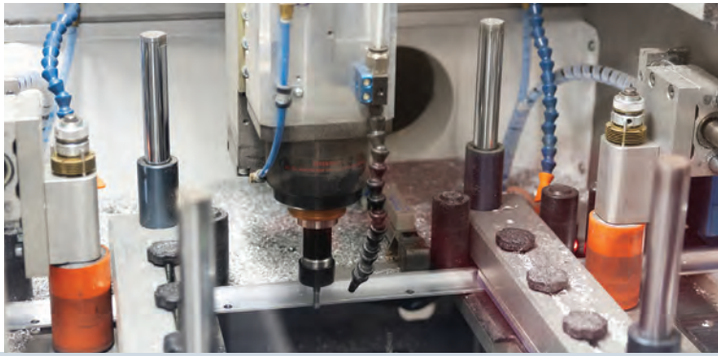
Manufactured in the USA: Superior Quality and Craftsmanship

At Outdoor Elements, we take pride in manufacturing innovative louvered roof systems right here in the United States. Our commitment to American craftsmanship ensures that every product meets the highest standards of design, engineering, and durability.

American-Made Excellence

- **Vision and Tradition:** Founded with a vision to innovate and uphold the American tradition of ingenuity and craftsmanship.
- **Local Sourcing:** We prioritize sourcing materials from American companies, including extruded aluminum, motors, electronics, machine fittings, and powder coating materials.
- **Superior Materials:** Our louvered roof systems are crafted from high-grade extruded aluminum, known for its strength and precision, unlike the rolled materials used by other manufacturers.

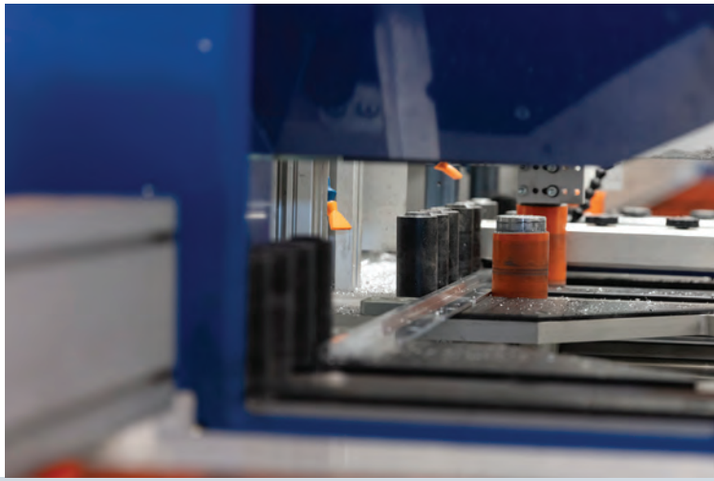


Unparalleled Engineering and Materials

- **Extruded Aluminum:** Our components are formed from large pieces of aluminum billet, a single piece of aluminum melted to over 1400 degrees Fahrenheit. The material is run through a press where a die extrudes our custom-shaped material. The different shapes and thicknesses ensure precise extrusions and superior strength.
- **Powder Coating:** All Aluminum components are powder coated using a Super Durable, Matt Textured Finish exterior grade coating, offering exceptional resistance to corrosion and deterioration.
- **Stainless Steel Fasteners:** Ensures longevity and structural integrity even in challenging outdoor environments

Benefits of Our Louvered Roof Systems:

- **Durability:** Built to withstand the elements with minimal maintenance, ensuring long-lasting performance.
- **Aesthetic Appeal:** Sleek design and customizable finishes enhance the beauty of any outdoor space.
- **Environmental Responsibility:** Energy-efficient materials and processes contribute to sustainable outdoor living solutions.



State-of-the-Art Electronic Components

Outdoor Elements superiority in engineering louvered roof systems with state-of-the-art electronic components, ensuring durability, reliability, and seamless integration into any residential or commercial space.

Enhanced Strength and Span

- **Enhanced Thickness:** Outdoor Elements uses only virgin aluminum, never recycled. We lead the industry for our structural components by using 6005-T6 aluminum alloy, combined with greater wall thicknesses for our structural components. This carefully engineered combination gives Outdoor Elements materials some of the highest strengths on the market, allowing for greater spans while maintaining impressive strength and structural integrity.
- **Sleek Design:** Meticulously designed to conceal bulky exterior elements, our louvered roofs feature integrated corner features with hidden fasteners, offering a clean and sophisticated look.

Engineering Excellence

- **Top Suppliers:** Electronic components are engineered by leading suppliers known for their innovation and quality.
- **Control Systems:** Sourced from some of the largest and most reputable companies in America, our control systems ensure optimal performance, durability, and ease of operation.

Guaranteed Quality

At Outdoor Elements, we are committed to delivering excellence in every aspect of our products. Our manufacturing process upholds the highest standards of quality, ensuring meticulous attention to detail and durability that you can rely on. We stand behind our craftsmanship with our comprehensive **15-15-5 Premium Client Care Warranty:**

- **15 Years on all Structural Components:** Our louvered roof systems are built to last, with structural components covered for 15 years to guarantee enduring strength and reliability.
- **15 Years on Powder Coating from Chipping or Peeling:** Enjoy peace of mind knowing that our superior powder coating is protected against chipping or peeling for 15 years, maintaining the aesthetic appeal of your outdoor space.
- **5 Years on all Electronic Components:** Our state-of-the-art electronic components are covered for 5 years, ensuring continued performance and reliability.

OUTDOOR ELEMENTS

15-15-5 YEAR
PREMIUM CLIENT CARE WARRANTY

Certified Installer Network

At Outdoor Elements, we prioritize your satisfaction from concept through installation. We understand that proper installation is crucial for maximizing the benefits of your luxury louvered roof system. That's why we offer a trusted network of certified installers across most large metropolitan areas, ensuring your project is handled by experienced professionals who uphold our standards of quality and craftsmanship.

Expertise and Quality Assurance

- **Comprehensive Support:** From initial consultation to final installation, we partner with you to ensure a seamless experience.
- **Trained Technicians:** Our national dealer network consists of highly trained technicians who are experts in installing Outdoor Elements products.

Why Choose Outdoor Elements?

- **Commitment to Excellence:** From design to manufacturing, we prioritize quality and customer satisfaction.
- **Comprehensive Warranty:** Our warranty reflects our confidence in the durability and reliability of our products.
- **Certified Dealers:** Contact one of our certified dealers to learn more about our warranty and how it applies to your specific needs.
