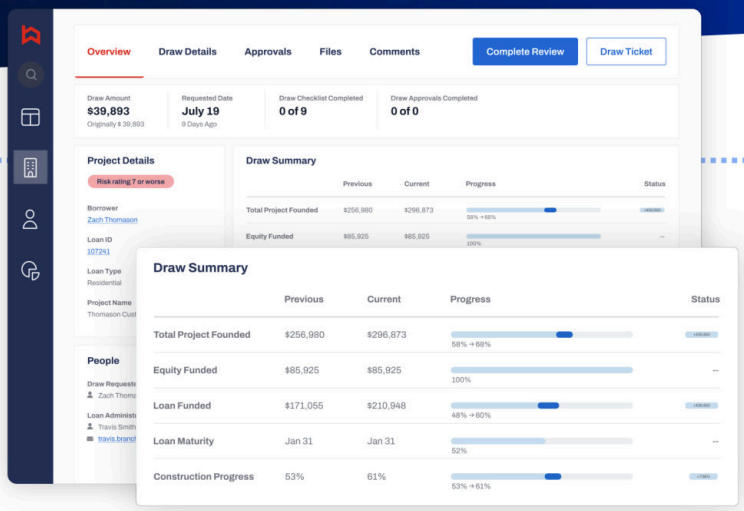
Real Estate Finance, Reimagined.

Built is the connected ecosystem for real estate finance.

We give Lenders, Owners, and Contractors the tools to control how capital and information moves and how information flows. You make decisions faster, operate with confidence, and drive better outcomes in one platform purpose-built for the full lifecycle of real estate.



One Connected Platform

Built connects workflows, people, and systems so you can move faster, make better decisions, and stay in control. As more stakeholders use Built, the value multiplies through better data, stronger collaboration, and smarter execution.
