# THE POWER OF CONNECTED DATA

## OUR IMPACT

Since 1999, Hyphen Solutions has been dedicated to innovation, empowering Home Builders and Suppliers with a unified platform. As a leading provider of cloud-based residential construction technology, 1 in 3 new homes in America is built using a Hyphen solution. Our full-cycle software suite is designed to support Builders and Suppliers at every stage of business, making us the ultimate hub for comprehensive residential construction software solutions.

Trusted by the industry's leading Builders and Suppliers, Hyphen Solutions delivers powerful cloud-based tools like BuildPro, SupplyPro, Hyphen Wallet, and more. These solutions optimize operational control, automate payments, and streamline workflows—fostering seamless collaboration across Home Builders, Suppliers, Manufacturers, and Trades to unify the construction supply chain. With immediate access to accurate, real-time data, our customers are equipped to make smarter business decisions, leading to stronger outcomes and a competitive edge in our evolving market.

HYPHEN SOLUTIONS

## Your Single Hub for Residential Construction Software Solutions

At Hyphen, we believe true efficiency comes from seamless connectivity. Designed for Home Builders, Suppliers, Manufacturers, and Trades, our full-cycle software suite empowers businesses at every stage. From pre-sales, through the build cycle, to final walkthrough and warranty— we have a Hyphen solution for that. As an industry pioneer, we challenge the status quo with innovative technology that streamlines operations and enhances collaboration across the entire supply chain. The Hyphen Hub has become the gold standard in comprehensive software solutions, offering its unmatched ability to connect systems, data and teams. It's not just the software you use, but the speed to accurate, real-time data that moves you forward.
