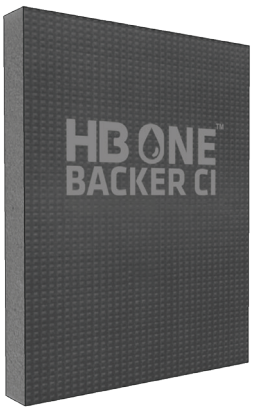
HYDROBLOK™

The Simplified **High-Performance** Wall

4 PRINCIPLES OF A HIGH-PERFORMANCE WALL

Installation Efficiency

Fewer Layers. Faster Installs.

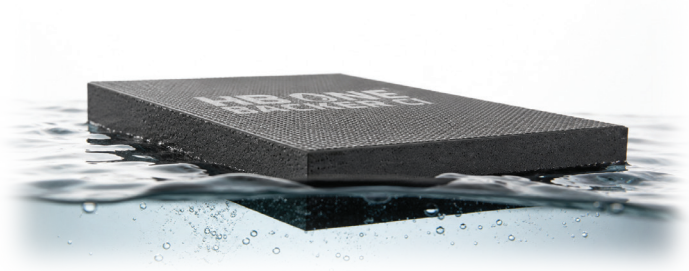


5 IN ONE SYSTEM

- Sheathing (Non-Shear)
- 2nd WRB
- Insulation
- Lath
- Scratch

Moisture Management

Keep Water Out. Keep Problems Away.



Water Resistant | Mold/Mildew Resistant

Continuous Insulation

Simplify Energy Code Compliance.

>25%
More R-Value than EIFS

Easiest Pathway to Energy Code Compliance

- Full Continuous Insulation (CI)
- Reduce Thermal Bridging
- Eliminate Moisture-Prone Sheathing

Superior Stucco Performance

Simpler Stucco. Superior Finishes.

35% FEWER INSTALL STEPS | **53%** FEWER DAYS

- FLATTER WALLS
- LESS CRACKING
- BETTER-LOOKING FINISHES
- FEWER CALLBACKS

One Wall System, Four High-Performance Advantages

The system designed to transform complex wall assemblies into a simplified integrated wall system.
