CAMO® Fasteners Brings New Technology to 2013 NAHB International Builders' Show®

GRAND RAPIDS, Mich. – National Nail Corp. will be exhibiting CAMO Fasteners at the 2013 NAHB International Builders' Show (IBS), Jan. 22-24, hosted in Las Vegas at the Las Vegas Convention Center. CAMO will be featured in [Booth C7132](#).

“We are looking forward to this year’s IBS as we continue to expand the CAMO product line,” said W. Scott Baker, President and CEO of National Nail Corp. “We will debut cool new technology, the CAMO Marksman Pro®-X1, that delivers a narrow gap for installing wood decks; and we will show our full line of exterior and deck fastening solutions that, together, make CAMO a single brand solution for dealers and contractors alike.”

The CAMO booth will have demonstrations of the recently released Marksman Pro-X1, a contractor-grade tool designed to create a beautiful, fastener-free surface for treated wood decks. Because treated lumber expands and contracts as moisture is introduced and natural drying occurs, the Marksman Pro-X1 delivers the slightest 1/16” automatic spacing for installed gapping.

Like the Marksman Pro and the Marksman Pro-NB, the Marksman Pro-X1 clamps securely to the deckboard and has dual screw guides to fasten both sides of the board with single tool placement. The Pro-X1 fits boards measuring 5-1/4" to 5-3/4".

The CAMO booth will also feature CAMO Exterior Screws designed for installing all aspects of a deck from substructure to trim, as well as other exterior projects. These color-matched face fasteners complement the colors of leading manufacturers’ deckboards and treated lumber to blend in with board surfaces. All CAMO Exterior Screws are ACQ-compatible, and include buglehead and trimhead Premium Deck Screws, Ledger and Multi-Purpose Structural Screws, Composite Screws (for capstock, composite and PVC boards), and buglehead, trimhead, and composite 316 Stainless Screws (recommended for marine environments).

Stop by Booth C7132 to learn more and see all of CAMO Fasteners’ cool products. Also, CAMO will be holding a drawing twice per day for a Marksman Pro-X1 and a 350ct of 1-7/8” ProTech coated CAMO Hidden Fasteners. For more information, please visit www.camofasteners.com or call 1-800-968-6245 ext. 2134. Be sure to “Like” CAMO Fasteners on Facebook and keep up with CAMO news, stories, photos and events by signing up for the [CAMO Connection](#).
