### NET FREE VENTILATION AREA

|                |               |
|----------------|---------------|
| 1/4" Wire Mesh | 72.00 sq. in. |
| 1/8" Wire Mesh | 64.80 sq. in. |

Figures based on independent evaluation reports.

### FEATURES

- 26 Gauge G90 Galvanized Steel
- 20 Year Warranty
- 1/4" Noncombustible, Corrosion-Resistant Wire Mesh
- 4" Flange Subflashing

### METAL UPGRADE OPTIONS

- .032" Aluminum, 50 Year Warranty
- 16 oz. Copper, 50 Year Warranty

### METAL UPGRADE OPTIONS

### CLIMATE-RESISTANT UPGRADE OPTIONS

Stainless Steel or 1/8" Noncombustible, Corrosion-Resistant Wire Mesh

Patented Stainless Steel Fine/Flexible Wire Filament

High Wind Diverter (Standard in Florida)

Z-Baffles (Snow Load)

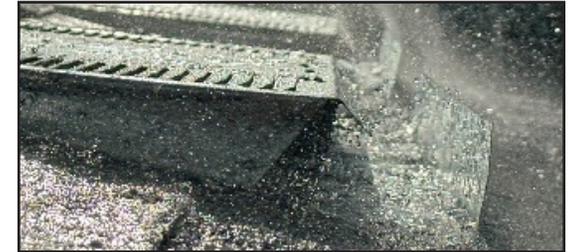

Recommended in areas where Ice Barriers are required (IRC 905.1.2).

O'HAGIN VENTS  
EXCEED INDUSTRY  
PERFORMANCE  
STANDARDS

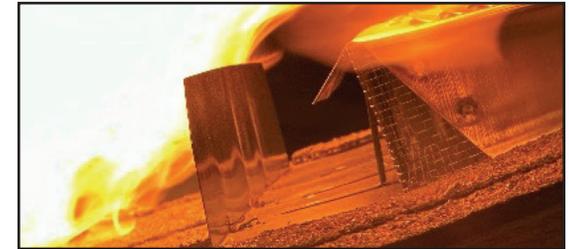

## CLIMATE-RESISTANT ATTIC VENTS

FLAME • EMBER • SNOW • RAIN

**TESTED** to 140 mph wind-driven rain (category 4 hurricane).  
**PASSED:** Wind-driven rain tested for 75 feet—five plus stories.

**TESTED** to meet the specific requirements of Chapter 7A of the California Building Code for flame and ember exposure.  
**PASSED:** NO cotton ignition.

**FIRE & ICE WEATHER & MASTER**

Brands and Trademarks may vary by region.

### LOCAL AND NATIONAL APPROVALS

O'Hagin is a recognized leader in attic ventilation testing and design.

## BENEFITS OF ATTIC VENTILATION

### INSTALLING A CODE-REQUIRED BALANCED VENTILATION SYSTEM CREATES SUPERIOR AIR MOVEMENT

#### Benefits:

1. Extends the life of your roof by lowering temps in warmer months and removing moisture in cooler months.
2. Enhances curb appeal with shingle-over installation.
3. Secures maximum efficiency through a balanced design. (50% High/Exhaust and 50% Low/Intake)
4. Patented design installs below solar panels.
5. Shingle manufacturers warranties require compliance with attic ventilation codes such as the IRC & IBC.
6. Promotes a healthy home, reduces moisture and trapped gases to improve indoor air quality.
7. Conserves energy by naturally introducing ambient air into the attic while exhausting stagnant air.

## CUSTOMER FEEDBACK

“There is never time to do it right, but there's always time to do it over. Once we switched to O'Hagin, our callback rate fell through the floor. Installing the best product on the market really made a difference.”

– ROOFING CONTRACTOR

“Less is more except when it comes to \$\$\$ (money). We primarily install O'Hagin because it is easier, more efficient, produces fewer hassles and is ultimately much more profitable.”

– CONTRACTOR

“The right answers pay. Literally. We dramatically increased our sales by incorporating an O'Hagin Attic Ventilation Analysis with every proposal.”

LOCATION:

CODE APPLIED: International Residential Code, (2021); Chapter 8 Roof Ceiling Construction; 806.6 Roof Ventilation (Page 8-45) & International Wildland Urban Interface Code (2024); Chapter 5 Special Building Construction Regulations, Section 504 & 505 Ignition-Resistant Construction (Page 30-32)

#### KEY RESOURCES:

Head the attic vent layout and calculations you requested!  
We've created an easy to follow attic ventilation plan.  
Some guidelines to keep in mind:

- Our work is only as good as the information provided – check with your local code official before starting any work – and use an industry professional to install all products.
- Use only O'Hagin Attic Ventilation Products for your project's attic ventilation requirements – O'Hagin Attic Vents are designed for use as both INTAKE and EXHAUST vents – using other types of attic ventilation products may result in an "unbalanced" ventilation system and the potential for a reduction in results.
- For specific information regarding high-fire danger or Wildland Urban Interface (WUI) zone, visit [www.ventonline.org](http://www.ventonline.org).
- For specific installation requirements, complete installation instructions, warranty information and more, visit our website at [www.ohagin.com](http://www.ohagin.com).

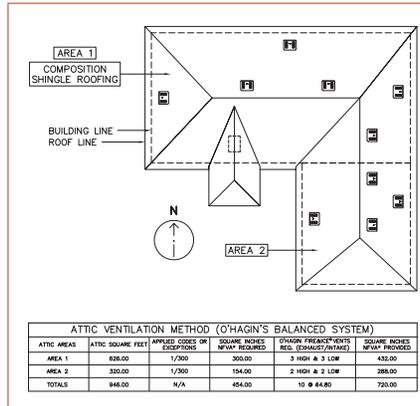

We value our thought partnership and take pride in being part of your project.

Thank you!
