# 100% Silicone

Red Devil® 100% Silicone Sealant is a superior quality, multi-purpose solution formulated to deliver a durable, weather-resistant seal on various surfaces, making it suitable for both interior and exterior applications. It ensures excellent adhesion, flexibility, and longevity, without cracking, shrinking, or peeling over time.

## WINDOW & DOOR APPLICATION

100% Silicone is ideal for sealing small gaps and cracks around windows, doors, trim, and siding, preventing air drafts and moisture infiltration. It is used to seal joints between different types of siding materials, such as wood, glass, metal, and brick while remaining flexible to accommodate joint movement without cracking or peeling.

## KITCHEN & BATH APPLICATION

This waterproof and mold-resistant sealant is great for sealing gaps around sinks, bathtubs, showers, countertops, and backsplashes. 100% Silicone forms a watertight seal preventing leakage into walls and floors in high-moisture areas.

## INDUSTRIAL APPLICATIONS

100% Silicone can prevent air leaks and protect against unwanted moisture, dirt, and debris in various industrial settings including construction, HVAC systems, and electrical components. This acetoxysilicone sealant withstands high temperatures and moderate joint movement to ensure a dependable, long-lasting seal in high-vibration environments.
