

Red Devil

LIFETIME *Ultra 230*

Red Devil® LIFETIME® Ultra 230 offers reliable performance and ease of use across a variety of sealing and caulking applications. It is designed to provide durable and flexible seals on various substrates, ensuring long-lasting results in diverse environments. With its paintability and low VOC formulation make them a preferred choice for both interior and exterior projects.

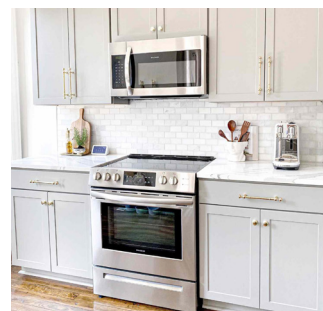

EXTERIOR APPLICATION

Ideal for sealing small gaps and cracks around windows, doors, trim, and siding, preventing air drafts and moisture infiltration. It is used to seal joints between different types of siding materials, such as wood, vinyl, and aluminum while remaining flexible to accommodate joint movement without cracking or peeling.

INTERIOR APPLICATION

Formulated with low levels of VOCs for safer indoor air quality, LIFETIME® Ultra 230 is paintable, making it ideal for filling gaps and seams where molding or baseboards meet the wall helping to achieve a smooth, finished look. It is also used for sealing in high-moisture areas like kitchen and bathrooms. Used around sinks, bathtubs, countertops, it is mold and mildew resistant once cured.

SPECIALTY APPLICATIONS

LIFETIME® Ultra 230 is highly versatile, making it suitable for a wide range of applications both inside and outside the home. They are commonly used in cabinetry to fill gaps and seams where wood meets wood when the finished product is painted. The sealant also remains flexible to accommodate joint movement without cracking or peeling, making it suitable for low-movement expansion joints in concrete or masonry, as well as for minor repairs around roof flashings to prevent water leaks.
