

## **Innovative Automated Manufacturing Solution** for Light Gauge Steel / Cold Formed Steel Construction

- 1 Spare Part Kit, 1 Pack of Consumable Parts, 1 Pack of Adjustment Tools
- Commissioning and Training for the MF2500P Framer
- Training for Arkitech Design and Detailing Software
- Software and Framer Technical Support

#### **PROFILE SPECIFICATIONS**

#### Width 2,000mm (6' 7") 2,235mm (7' 4") Height Number of Web Sizes 8 (expandable on request) Appr. Weight 22,000 kg (48,500lb) Profile sections U, C 3 x 400V - 50 Hz. Maximum 65 kW Power 63mm - 300mm (2½" - 12.0") Web Size Range Connectivity WiFi, W-Lan Standard Web Sizes 63mm | 75mm | 90mm | 100mm | 140m | 150mm **DECOILER SPECIFICATIONS** 200mm | 250mm | 300mm 21/2" | 3.0" | 31/2" | 4.0" | 51/2" | 6.0" | 8.0" | 10.0" | 12.0" Decoiler Capacity 4.0 ton (8,800lb) Profile Thickness Range 0.75mm - 2.5mm (22ga - 12ga) 1,840mm (6' 1") Length 41mm - 75mm (1<sup>5</sup>/<sub>8</sub>" - 3.0") Flange Heights Width 1,597mm (5' 3") Profile Lip Up to - 20mm (Up to - 3/4") 2,455mm (8' 1") Height Steel Grade S220 - S550 Maximum Coil Width 600mm (1' 8") Maximum Coil Diameter 1,800mm (5' 11") Galvanization Z180 - Z450 14 (2 free bays for additional cassette stations) **Profile Operations** Appr. Weight 1,940kg (4,280lb) Lip -FRAMER COMMISSIONING, TRAINING, SUPPORT Thickness Framer Technical Support 24 months after commissioning Manufacturing speed is subjected to change due to the count of operations on the frame. Framer dimensions are subjected to change due to design configuration. Standalone Operations **Cassette Systems Operations** Software Controlled - Auto Adjustable Operations

# Best user-friendly Design Software for Light Gauge Steel / Cold Formed Steel Structures

# **Software Solutions**

## **Design Software**

Arkitech Design Software

 $(\downarrow)$ 

- LGS building design and detailing
- Import of DXF files
- Integration of Hot Steel and concrete elements
- Individual settings as default
- 2D and 3D assisting tools
- Libraries for profiles, frames and steel materials
- Feasibility check function
- Drafting of labelled assembly drawings
- Analysis tool for Eurocode 3 and AISI
- Export of S2K files for comprehensive static analysis
- Export of Bill of Material of XLS or PDF files
- Export of IFC files for BIM software
- Export of ARK files for production with Arkitech Framer

Software Support

12 months after software training

# Manufacturing Software Arkitech Framer Software

- Framer Software: Arkitech Framer Software
- Compatibility with Arkitech ARK and CSV Files
- Operation of Arkitech LGS Manufacturing System
- Various possibilities for production of profiles
- Automatic creation of manufacturing files
- Activation of complete manufacturing processes
- Option for manufacturing of individual profiles
- Remote Failure Analysis
- Real Time Production Report
- Report production output in real time
- All production figures for production planning
- Option for online remote access
- Option for online failure analysis

Software Support

12 months after software training
