The heat you deserve

Built with Thermory's premium thermally modified wood and proudly designed and constructed in the USA, the Thermory Mod Pod powered by Superior Sauna & Steam, represents a harmonious blend of form and function.

Thermally Modified

At the heart of every Mod Pod is Thermory's thermally modified wood, chosen for its remarkable durability, resistance to rot and decay, and natural beauty.

Superior Options

Your sauna should reflect your personal style and meet your unique needs. That's why the Mod Pod Sauna is available in two distinct models: Traditional or Modern. Whether you like a classic or contemporary look, our bench options are a host of possibilities. The Social style is perfect for hosting, while the Athletic style folds up for the ultimate hot yoga session.

Specially Crafted

Sheep's wool insulation makes this sauna both sustainable and non-toxic, providing an R-value four times higher than any other sauna on the market. Designed with pre-fab panels, the Mod Pod is a DIYer's dream—even beginners can have it set up in a day.
