ALUMINUM RAILINGS

**Transform your project
with Century and bring
your vision to life!**

We are Century Aluminum Railings, a division of CenDek Railings Ltd. Our foundational framework began in the building industry over 40 years ago. Since our humble beginnings, we have developed into an industry recognized leader in manufacturing quality building products for our customers.

Century Aluminum Railings operates a sales, service and fulfillment facility in Springdale, Arkansas and an integrated head office and manufacturing plant in Summerland, BC, Canada, where environmentally friendly processes allow us to deliver a superior product – Always.

Our success stems from family rooted fundamentals that value people. That's why our products are value-engineered to meet our customers' railing needs for Safe, Distinctive, Durable, Long-Lasting Beauty. Our products endure rigorous product testing and specifications which ensure our product is installed correctly and used in its proper application. We take any questions seriously and we're ready to help when you need us.

Breathe in... breathe out... and get connected with one of our knowledgeable experts, skilled to help take stress out of the planning, design and installation process. We'll have you relaxed and taken care of in no time. Get ready to kick back, click on your favorite patio playlist, or simply listen to the sounds of nature.

Explore Our Easy to Install Product Lines:

- Pre-Welded Picket Panel Systems
- Picket Railings
- Glass Railings
- Scenic Railings
- Pipe Railings
- Privacy Panels (Glass and Aluminum)
- Aluminum Fence Systems

Installing Century Railings preserves the aesthetic value and striking views. We lead the way by providing the ultimate solution - a distinctive, durable railing system guaranteed to provide years of safety, good looks and value. Available throughout the USA and coast to coast in Canada.

THE CENTURY ADVANTAGE

YOU ARE NOT TIED TO ONE RAILING WITH CENTURY

Century Railings are customizable, with interchangeable components that work with glass, pickets, or both.

Always check with your local building inspection authority prior to purchasing or installing Century Aluminum Railings to ensure products are code compliant for the intended usage.

THE CENTURY DIFFERENCE

Century Aluminum Railings are simple to install, durable, and blend with any architectural style. Perfect for both new and existing homes, our custom railings offer the best of both worlds - uninterrupted views and natural ventilation combined with looks and versatility. Century Railings are designed to fit together so you can install multiple Century product lines on one deck.

We are committed to being recognized as the leader in providing quality railing solutions to the markets we serve, driven by a determined focus to your needs.

INSPIRED BY NATURE

At Century, we strive to be the responsible choice. To ensure our products meet your standards for quality and sustainability, we have a wide ranging corporate environmental program that guides every aspect of our product development and manufacturing operations.

DURABLE, STRONG & SECURE

Our Aluminum Railing Systems are as strong and durable as they are attractive and designed to be safe. Aluminum railings are up to 40 times stronger than many wood or vinyl railings.

COLORS THAT WORK

Our products come in three standard colors or a wide range of custom colors to complement your project. Fashioned from the highest quality extruded aluminum with long-lasting powder coated finishes, our handrail systems will hold their stylish appearance for decades.

Every effort has been made to reproduce the actual colors but variations may occur in the printing of this brochure. Please check with your local Century dealer.

**CONTRACTOR'S
FIRST CHOICE!**

6' & 8' PRE-WELDED PICKET PANEL SYSTEMS

Streamline your project with Century - efficient installation, elegant design, exceptional performance.

EXCLUSIVE FEATURES

Century Aluminum Railings Pre-Welded Panels are made with hidden welds and pre-welded pickets, reducing the number of components you manage.

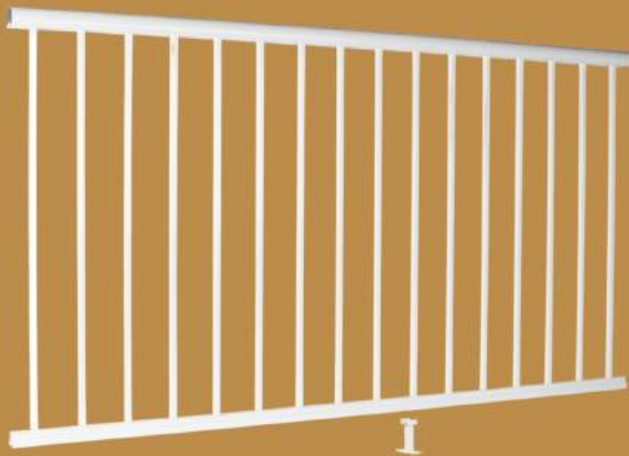

Post brackets are pre-welded, cutting down installation time and minimizing errors.

Fewer parts means fewer complications. Our system makes installation quick, efficient, and ultra easy, allowing you to get on to the next job site quicker.

PRODUCT DETAILS

- Quick, efficient, easy installation
- Pre-welded pickets and brackets
- Fully code compliant USA & Canada
- Includes support leg
- Available in 42" and 36" heights
- Made in North America
- All 3 Century colors (or custom colors)
- Multi-faceted use (guard railing, fencing, pet runs, daycares)
- Interior or Exterior use/Single family or Multifamily
- (posts and fasteners sold separately)

COMMERCIAL & MULTI-FAMILY PROJECTS

CONFIDENCE INSPIRING STRATEGIES

Century Aluminum offers a full line of powder coated aluminum railing for multifamily and commercial applications. Used from coast to coast, our glass railing, welded picket panels, and secondary ADA compliant pipe handrail are all manufactured at our plant to exacting standards.
