# SIMPLIFY YOUR OPERATIONS WITH ONE CONNECTED CLOUD

Design and update plans 100x faster, sell online with real-time 3D, auto-generate estimates, and produce CDs without drafting on the only connected platform for production homebuilders

100X Faster Plan Design and Drafting

Automatic 3D Sales Tools + Estimates

100% Accurate Photorealistic Visualizations

Customizable and Automated Master Plans + Lot Specific CDs

When your plans change, everything else updates—automatically

Design and change products 100X faster

Accelerate design and drafting with automation and centralized options. Deploy changes across every plan automatically.

Centralize your community launches

Manage lots, change options for new communities, and generate CDs—zero drafting required.

Get real-time estimates from your plans

Eliminate manual tracing and get data-driven material quantities and costs instantly.

Inspire buyers and sell with confidence

Offer home configuration online, generate lot specific sales materials, and produce 100% accurate photorealistic renders.

> "One of the most powerful things about Higharc is that it creates a single source of truth for typically siloed construction processes."
