**LOW ENVIRONMENTAL IMPACT**  
Sustainable manufacturing & use of raw material

## LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

When you choose Eva-Last, you're choosing the best solution for both you and the environment. Eva-Last products are the low-maintenance, reliable alternative to wood that consistently outperform timber and other composite materials. They're also the environmentally friendly material choice that is gentler on the Earth.

### BAMBOO WASTES LESS & PROVIDES MORE

Eva-Last uses bamboo in its composite production. Bamboo can grow up to 30 times faster than timber and releases 35 percent more oxygen into our air than most hardwood trees. It can be made into composite with only 2 percent wastage (compared to over 80 percent wastage with timber) and is naturally antibacterial.

### USE OF RECYCLED PLASTIC

By using recycled waste plastics, in combination with easily replenishable bamboo fiber, we are able to produce a highly durable composite product while saving millions of tons of plastic from entering landfills and oceans. Every year Eva-Last recycles over 26,000 tons of plastic. Recycling one ton of plastic results in carbon dioxide savings of approximately 0.73 tons – the same as traveling nearly 2,500 miles in a car.

### USE OF SOLAR POWER IN THE MANUFACTURING PROCESS

Traditional manufacturing is an energy-intensive endeavor. That's why Eva-Last took the decision to start moving towards manufacturing using solar energy. Since 2017, 32,858 solar panels, or 955,000 ft<sup>2</sup> of solar panels, have been installed. This leads to a saving of 2,000 tons of CO<sub>2</sub> every single day.

Eva-Last has been at the forefront of the green building industry since its inception in 2007. We are dedicated to consistently improving how we serve the environment and our clients. From the recycled and renewable raw ingredients we use to create our products, to the solar power we harness to manufacture, we are proud to offer holistically sustainable building products.

# TECHNOLOGIES

Eva-Last has developed a resilient collection of bamboo composite technologies, each with its own unique characteristics and set of benefits. These versatile materials can be used in a variety of applications such as decking, cladding, screening, fencing, and architectural beams.

## Pioneer

### RARE WOOD REPLICATED IN REINFORCED BAMBOO-PVC COMPOSITE

Pioneer offers photorealistic print technology for a remarkable natural look and a glass fiber-reinforced core for increased strength.

## Apex<sup>PLUS</sup>

### REINFORCED, CAPPED BAMBOO FOAMED-PVC COMPOSITE

Apex PLUS offers you a resilient and natural looking composite with a glass fiber-reinforced core, that allows for increased strength and span capability.

## Apex

### LIGHTWEIGHT, CAPPED BAMBOO-PVC COMPOSITE

Apex products are lightweight thanks to their foamed bamboo-PVC composite core that is protected from the elements by resilient acrylic polymer capping.

## Infinity

### CAPPED BAMBOO COMPOSITE

Infinity composite adds value and good looks to your outdoor space and to your lifestyle by giving you steadfast composite that lasts for decades.

## Eva-tech

### BAMBOO COMPOSITE

Eva-tech is a cost-effective bamboo composite. It offers reliable slip resistance, and is a low-maintenance alternative to timber.

The logo for EWA-LAST, featuring the brand name in a bold, white, sans-serif font. The letters are composed of horizontal bars, giving it a modern, architectural feel. A registered trademark symbol (®) is located to the upper right of the 'T'.

# Pioneer

## RARE WOOD REPLICATED IN REINFORCED BAMBOO- PVC COMPOSITE

The Pioneer range is advancing composite aesthetics with high-resolution digital replications of endangered hardwoods and rare timbers, playing a vital role in preventing the future felling and possible extinction of these wood species. A bamboo foamed-PVC and glass fiber-reinforced core provides increased strength and span capability and reduces expansion and contraction of the PVC. Its advanced wear layer and composition protect against fading, scratches, moisture, and stains.

**GFR** / GLASS FIBER  
REINFORCED

## PRODUCT COMPOSITION

Pioneer offers a GFR reinforced core and a photorealistic print surface finish with a clear outer wear layer that provides extra protection for the color and resiliency of the board.

### Capping material:

Print surface finish with protective wear layer

### Core material:

## TAKE HOME THE BENEFITS

### REALISTIC AESTHETIC

Advanced digital scan replication of rare wood for an exceptionally natural look

### ECO-FRIENDLY

Prevents deforestation by capturing the beauty of endangered timbers without felling

### AFFORDABLE LUXURY

Enjoy the look of expensive rare woods in long-lasting composite

### INCREASED SPAN

Reinforced for improved strength & span capability

### MORE STABLE

Less movement from expansion & contraction

### WEAR LAYER

Wear layer offers protection against stains, scratches and fading

### DECAY RESISTANT

Long-lasting & resists insects, moisture, & weather

### LOW-MAINTENANCE

Only basic care required for optimal longevity

# Pioneer

## PRODUCT RANGE

Pioneer can be used as stunning outdoor decking or as open joint cladding in vertical or wall applications. Grooved and starter board profiles come in two convenient widths, and fascia and riser boards complete the collection. All Pioneer boards work just like wood and can be cut using standard tools.

Cross section	Description	Dimensions	Lengths	Joist spacing	Fasteners
	Grooved board	<b>1 x 6</b> 0.83" x 5.70" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	Up to 24"	Chain collated clip
	Starter board	<b>1 x 6</b> 0.84" x 5.70" actual	<b>20'</b> (6 m)	Up to 24"	Chain collated clip & CDS
	Wide grooved board	<b>1 x 8</b> 0.83" x 7.48" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	Up to 24"	Chain collated clip
	Wide starter board	<b>1 x 8</b> 0.84" x 7.48" actual	<b>20'</b> (6 m)	Up to 24"	Chain collated clip & CDS
	<b>Riser board</b> Non-GFR	<b>1/2 x 8</b> 0.55" x 7.24" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws
	<b>Fascia board</b> Non-GFR	<b>1/2 x 10</b> 0.59" x 9.85" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws

\*The HULK Fasteners range includes Chain collated clip, color matching composite deck screws (CDS), and color matching trim screws.

## PIONEER COLOR GUIDE

The Pioneer color range celebrates the beauty of timber with exceptionally natural-looking composite. Pioneer offers state-of-the-art high resolution print technology to give each board an unrepeated realistic wood grain texture. This technology mirrors the hues and tones of specific timber types.

**BARREL OAK**

**NATURAL IPE**

**WEATHERED ASH**

Pioneer is produced with random color variations within the product to mimic that of natural timber. In all colors, you will get a variety of lighter and darker tones just as nature intended. This only adds to the aesthetic appeal of your composite decking.

Featured: **Pioneer, Natural IPE**  
Single sided grooved decking and fascia

# Apex PLUS

## BETTER PERFORMING, BETTER LOOKING COMPOSITE

Apex PLUS takes the benefits of Apex composite to the next level. It offers the natural look of Apex in cutting-edge composite technology. Its improved bamboo foamed-PVC and glass fiber-reinforced core creates a more durable and versatile board with increased span capabilities and greater stability. This eco-friendly and slip resistant composite is low maintenance and faces Mother Nature's toughest conditions with reliable long-term performance and timeless style.

8110-2314-0500

Approved for use in  
the Wildland Urban  
Interface areas

## REINFORCED, CAPPED BAMBOO-PVC COMPOSITE

Apex PLUS offers you a resilient and natural looking composite. Its bamboo foamed-PVC and glass fiber-reinforced core allows for increased span capability over Apex. Low-maintenance Apex PLUS is more stable with less expansion and contraction than its predecessor and requires only basic cleaning for optimal longevity. Its protective cap is made from a resilient acrylic polymer coating for long-term fade, scratch, and stain resistance. Apex PLUS also provides decay resistance against insects, moisture, and the elements. Apex PLUS is an eco-friendly alternative to timber that prevents deforestation and premature deck replacement and uses solar power within the manufacturing process.

# APEX PLUS DECKING PROFILE TYPES

Apex PLUS is available in two profile designs to let you build your dream outdoor space. Both profiles offer the renowned Apex color technology and composition with the state-of-the-art Apex PLUS reinforced core. Grooved boards and starter boards offer the complete solution for any outdoor decking project. Starter boards are specifically designed for creating perfect picture frames, and classy deck and stair edges. Create an uninterrupted installation with Chain collated decking clips and color matching composite decking screws by HULK fasteners.

Cross section	Description	Dimensions	Lengths	Joist spacing	Fasteners
	Grooved board	<b>1 x 6</b> 0.88" x 5.51" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	<b>Up to 24"</b>	Chain collated clip
	Starter board	<b>1 x 6</b> 0.90" x 5.51" actual	<b>20'</b> (6 m)	<b>Up to 24"</b>	Chain collated clip & CDS
	Wide grooved board	<b>1 x 8</b> 0.88" x 7.48" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	<b>Up to 24"</b>	Chain collated clip
	Wide starter board	<b>1 x 8</b> 0.90" x 7.48" actual	<b>20'</b> (6 m)	<b>Up to 24"</b>	Chain collated clip & CDS
	Riser board Non-GFR	<b>1/2 x 8</b> 0.55" x 7.24" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws
	Fascia board Non-GFR	<b>1/2 x 12</b> 0.63" x 11.22" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws

\*The HULK Fasteners range includes Chain collated clip, color matching composite deck screws (CDS), and color matching trim screws.

Apex is produced with random color variations within the product to mimic that of natural timber. In all colors you will get a variety of lighter and darker tones just as nature intended. This only adds to the aesthetic appeal of your composite decking.

# *Infinity*

## ULTIMATE PEACE OF MIND

Infinity bamboo composite is the ultimate in durability and one of the toughest co-extruded composite decking ranges available. Its resilient protective cap made of an advanced polymer resists scratches, fade, mold, and mildew, and makes Infinity exceptionally low-maintenance, with only the most basic cleaning required for optimal longevity. Infinity offers decay and weather resistance with top protection from insects and harsh weather. Its streaked color variation provides a natural look that embodies the essence of timber. Enjoy the stain and slip resistance of this environmentally friendly alternative to timber, that is holistically sustainable from its manufacturing to its use of raw material.

## CAPPED BAMBOO COMPOSITE

Infinity composite adds value and good looks to your outdoor space and your lifestyle by giving you steadfast composite that lasts for decades. Find the peace of mind that comes with creating a deck that's built for the real outdoors, complete with family gatherings, lively get-togethers, and rejuvenating moments of relaxation.

## COLOR RANGE

Infinity composite offers exceptionally natural looking colors thanks to its advanced color technology that gives each board unique color variation to embody the essence of timber. This specialized color streaking technique also ensures that no two boards are identical and that all boards boast the beautiful appearance of wood. Choose from a range of hues and tones to complement your space and style.

OASIS PALM

CARIBBEAN CORAL

TIGER COVE

CONCRETE GREY

Infinity is produced with random color variations within the product to mimic that of natural timber. so in any color, you will get a variety of lighter and darker tones just as nature intended. This only adds to the aesthetic appeal of your composite decking.

# Eva-tech **IS**

## AFFORDABILITY MEETS TIMELESS QUALITY

Eva-tech IS invites you to let your imagination soar when it comes to your outdoor space by offering high quality bamboo composite in an optimized design that's more versatile and more cost-effective. Finally, your dream outdoor space can become a reality thanks to the innovative composition and lightweight shape of I-Series. Get started on transforming your long-awaited plans into an outstanding outdoor living space that gives you and those you love a place to unwind and reconnect.

## LIGHTWEIGHT BAMBOO COMPOSITE

Eva-tech IS combines all the benefits of Eva-tech bamboo composite with the advantages of I-Series to give you a cost-effective bamboo composite, offering slip resistance, low maintenance, reliable durability, and decay and weather resistance, as well as environmental benefits. The smart I-beam design creates a lightweight board that uses less material to save on transportation, substructure, and labor, yet maintains span capabilities and allows for more efficient installation.

# HULK FASTENERS.

FASTENED. FOR LIFE.

## DESIGNED FOR PROFESSIONALS. PERFECT FOR NOVICES.

Eva-Last has developed a range of fasteners that thoroughly complements our composite products to ensure the stability and longevity of your deck. HULK fasteners are specially designed to securely fasten the deck boards to a substructure, but can also be used in other wood or steel fixing applications. The coating employed for our HULK fasteners ensures the fixing system supports your deck throughout its lifespan.

HULK hidden fasteners (Chain collated clips) are designed to be used between boards with grooved edges. Color matching composite decking and trim screws are used for top fixing non-grooved and fascia/trim profiles to metal or timber frames, providing a neat, invisible finish.

- 1** Hidden fasteners (Chain collated clip & screw)
- 2** Composite Decking Screw (CDS) for timber frames or Metal Decking Screw (MDS) for metal frames
- 3** Composite Trim Screw for timber frames or Metal Trim Screw for metal frames

HULK deck and trim screws are specifically designed for fastening composite securely to the deck frame (timber and metal frames). Screw heads are colored to match your deck to leave a neat surface finish. Use the table below to help select the best color match.

# chain

## Collated decking clip

A PRODUCT BY **HULK FASTENERS.**

## GET THE JOB DONE FASTER.

Chain collated clips save you time and money by streamlining installation with pre-loaded screws that offer cutting-edge performance for the entire lifespan of your deck. Enjoy a simpler installation and a more secure long-term fastener that complements the overall look of your deck.

### MORE EFFICIENT INSTALLATION

Collated system comes pre-loaded with screws for quicker installation

### DURABLE

Stainless steel clip with a protective polymer coating for extended outdoor longevity

### INNOVATIVE ENGINEERING

Cost-effective use of materials without affecting grip strength or overall clip performance

### UNIVERSAL APPLICATION

Works with timber & composite boards of variable thickness & groove depths

## CHAIN COLLATED CLIPS

Chain collated clips offer a smarter solution for creating an outdoor oasis. By pre-loading high quality and durable screws into equally reliable clips, Chain collated clips make installation more efficient, and are suitable for use by professionals or novices. Like all Eva-Last products, Chain collated clips are built on the principle of longevity.

VERSION	QUANTITY	APPROXIMATE COVERAGE
150 SERIES PACK	10 strips of 15 clips with pre-loaded screws	20 to 30 ft <sup>2</sup> *

\*Coverage is dependent on the joist span and board width of the application.

Collation with screws for timber frames

Collation with screws for metal frames

VERSION	QUANTITY	APPROXIMATE COVERAGE
900 SERIES PACK	60 strips of 15 clips with pre-loaded screws	120 to 180 ft <sup>2</sup> *

\*Coverage is dependent on the joist span and board width of the application.

## CHAIN HAND TOOL

**chain**  
COLLATED CLIP HAND TOOL

The Chain hand tool adds value to the Chain collated clip system by making installations quicker and more efficient thanks to its pre-inserted screws, adjustable joist locating pin and depth-stopping bit, ambidextrous design, and compatibility with a wide range of deck boards and joist widths.

# ADVANCED BAMBOO COMPOSITE BUILDING SYSTEMS

Featured: VistaClad, Oasis Palm (Infinity)  
Capped bamboo composite cladding

## DISCOVER EVA-LAST MATCHING BUILDING SYSTEMS

Innovative Eva-Last building systems offer the convenience and longevity of low-maintenance bamboo composite in advanced cladding, screening, fencing, and architectural beams. Explore and enjoy an inspiring and naturally beautiful range of decay resistant outdoor building product solutions.

### ADVANCED BAMBOO COMPOSITE CLADDING

VistaClad bamboo composite cladding breathes vibrancy into your home or outdoor space and enhances your walls with the attractive look of hardwoods.

### HYBRID ALUMINUM BAMBOO COMPOSITE BEAM

Ultraspan hybrid aluminum composite beams give you the creative freedom to build more memorable outdoor architectural designs.

### ALUMINUM FRAMED HORIZONTAL COMPOSITE FENCING

The Evolver system allows for complete customization by pairing optimized aluminum posts and framing with environmentally friendly bamboo composite for a durable, low-maintenance, modern-looking, and corrosion resistant fence.

### BAMBOO COMPOSITE FENCING

Unlike traditional wood fencing, Oasis requires virtually no maintenance to continue to look as beautiful as it did the first day it was installed. This means no staining, painting, or replacing boards.

## LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

# CHOOSE SUSTAINABLE BUILDING MATERIALS

## RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically eco-conscious.

Every Eva-Last range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognized for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
