

# The Future of Construction Management Software is Here

Work faster. Build smarter. Stay ahead.

## Why Resso

Leave outdated legacy software behind and take your business to the next level with:

- ✓ **User-friendly design:** Experience fewer clicks and faster onboarding with our modern interface built for speed
- ✓ **Centralized communication:** Follow every team, client, and trade conversation organized in one intuitive platform
- ✓ **Faster project timelines:** Streamline project coordination with dynamic scheduling tools to keep your team and trades on track
- ✓ **Increased profitability:** Eliminate costly mistakes with better document control and monitor your budget in real-time
- ✓ **Interactive client experience:** Share jobsite photos and videos while collecting rapid decisions on custom selections and change orders
- ✓ **AI-powered innovation:** Leverage Resso AI to generate detailed project summaries for team leaders and clients
- ✓ **Seamless data migration:** Transfer in your data from old systems and pick up right where you left off, even on active jobs
- ✓ **Best-in-class service:** Awarded “Best Customer Support” in 2024 for the Home Builder category by Software Advice

## What Customers Are Saying

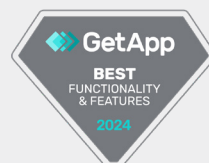

“Resso has already surpassed competitors in terms of their capabilities. Very easy to use, great mobile compatibility, amazing schedule and selection management.” - *Cullum Homes*

“The best thing about Resso, beyond the software, is their team. They really listen to their customers to ensure they’re solving real problems in the homebuilding industry” - *Turquant Business Services*
