ENSYSTEX

Product Guide

Insecticides

Bithor SC

Active Ingredient:	5.0% Imidacloprid 4.0% Bifenthrin
Case Size:	4 x 1 qt 4 x 1 gal, 30 gal drum
Formulation Type:	Suspension Concentrate
Application Sites:	Indoor, perimeter, outdoor, lawn, ornamental
Comparable Product:	Bayer Temprid®, FMC Transport®, FMC Triple Crown™, and Control Solutions Fuse®

The perfect choice for the toughest indoor and outdoor jobs. No odor, high performance, and long-term residual action. With its wide range of use sites and powerful combination of active ingredients, it makes sense to make BITHOR SC your go-to product for use in all situations and against all pests. In fact, BITHOR controls over 100 different pests!

Maxxthor SC

Active Ingredient:	7.9% Bifenthrin
Case Size:	4 x 1 qt, 16 x 1 qt 4 x 3/4 gal 4 x 1 gal, 30 gal, 55 gal
Formulation Type:	Suspension Concentrate
Application Sites:	Indoor, perimeter, outdoor, lawn, ornamental
Comparable Product:	FMC Talstar® Pro, Control Solutions Bifen I/T

Effective against over 75 pests including: Termites, ants, fleas, ticks, spiders, mosquitoes, roaches, beetles, crickets and many more. MAXXTHOR SC is labeled for extremely broad usage. Combine this with its outstanding stability and a long-lived residual on almost any type of surface and you have a one-two punch against any kind of pest at any site.

Maxxthor EC

Active Ingredient:	23.4% Bifenthrin
Case Size:	4 x 1 qt 4 x 1 gal
Formulation Type:	Emulsifiable Concentrate
Application Sites:	Indoor, perimeter, outdoor, lawn, ornamental
Comparable Product:	FMC Onyx® EC, Control Solutions Bifen XTS

MAXXTHOR EC is a bifenthrin emulsifiable concentrate with the same high level of effectiveness as all other Maxxthor products. When used as directed, MAXXTHOR EC is a powerful insect control product that in particular is highly effective against a wide range of turf and ornamental pests. MAXXTHOR EC is Thor's most concentrated form of bifenthrin.

Maxxthor SG

Active Ingredient:	0.2% Bifenthrin
Case Size:	4 x 12.5 lb 25 lb
Formulation Type:	Sand Granule
Application Sites:	Perimeter, outdoor, lawn, ornamental
Comparable Product:	FMC Talstar® PL, Control Solutions Bifen L/P

The MAXXTHOR SG sand granule formulation allows easy application of this superior active ingredient onto lawns, ornamental plants and around structure perimeters for the control of a wide range of pests.

Borathor Max PT

Active Ingredient:	40% Disodium Octaborate Tetrahydrate (D.O.T.)
Case Size:	4 x 1 gal, 30 gal drum
Formulation Type:	Glycol Suspension
Application Sites:	Interior & exterior wood
Comparable Product:	Nisus Bora-Care® Termiticide, Insecticide and Fungicide Concentrate

BORATHOR MAX PT contains 40% disodium octaborate tetrahydrate in a glycol solution. New homes under construction can be protected with BORATHOR MAX PT against a wide range of wood destroying insects and fungi. BORATHOR MAX PT is registered with the EPA for primary protection of structures under construction against subterranean termites.

Borathor

Active Ingredient:	98% Disodium Octaborate Tetrahydrate (D.O.T.)
Case Size:	8 x 1.5 lb
	25 lb
Formulation Type:	Powder
Application Sites:	Interior & exterior wood
Comparable Product:	Nisus TIM-BOR® Professional Insecticidal Dust

The active ingredient in BORATHOR, D.O.T. is an inorganic compound. This means that it will not degrade over time. As long as treated surfaces are protected from moving moisture such as running water, the borates in the BORATHOR line will remain in place on and inside the treated wood indefinitely, continuing to protect it from insect and fungi attack.

Borathor Dust

Active Ingredient:	98% Disodium Octaborate Tetrahydrate (D.O.T.)
Case Size:	12 x 1 lb
Formulation Type:	Dust
Application Sites:	Indoor, outdoor, crack, crevice
Comparable Product:	Nisus NIBOR-D® Insecticide

When applied into cracks, crevices and void spaces BORATHOR Dust is highly effective in controlling wood destroying insects. It is approved for use both inside and outside as well as for use in food handling establishments.

Prothor SC 2

Active Ingredient:	21.4% Imidacloprid
Case Size:	4 x 27.5 fl oz
	4 x 1.08 gal, 30.08 gal
Formulation Type:	Suspension Concentrate
Application Sites:	Perimeter, outdoor, lawn, ornamental
Comparable Product:	Bayer Premise® 2 , Control Solutions Dominion

PROTHOR SC 2 contains the active ingredient imidacloprid. Imidacloprid's high degree of popularity is directly related to its high level of activity against important turf and ornamental pests and its ability to translocate in a treated plant to the point of pest attack against the plant. In particular, imidacloprid is highly effective against pests that attack below ground.

Prothor WSP

Active Ingredient:	75% Imidacloprid
Case Size:	4 x 2.25 oz packet
Formulation Type:	Water Soluble Packet
Application Sites:	Perimeter, outdoor, lawn, ornamental
Comparable Product:	Bayer Premise® WSB, Control Solutions Imidaclo prid 75 WSB

PROTHOR WSP contains the active ingredient imidacloprid at 75% in convenient, easy to use, water soluble packets. Each container includes four 2.25 oz packets which mixes 100 gallons at the low label rate and 50 at the highest rate.

Adjuvant

Adjuthor Spreader Sticker

• Greater application longevity & uniformity.
• Reduces chemical use, while increasing performance.
• Improves wash off resistance to your application and provides UV protection.
• Can be used on exterior structures, ornamentals, trees, foliage, and lawn.
• Compatible with all THOR liquid products as well as most competitors'.
• Takes THOR's manufacturer direct savings to another level.

Insect Baits

Abathor Granular Ant Bait

Active Ingredient:	0.011% Abamectin
Case Size:	4 x 2 lb, 12 x 8 oz
Formulation Type:	Granular Bait

Application Sites: In and around Homes, Residential Areas, Commercial and Other Structures, Non Food/Feed Areas of Commercial Buildings, Warehouses, Hotels, Food Storage Areas, Inedible Product Areas of Meat Packing Plants, Motels, Schools, Supermarkets, and Non-Occupied Patient Areas of Hospitals and Nursing Homes, Golf Courses, Parks, Lawns and Turf

ABATHOR Ant Baits are an irresistible combination of attractants, proteins and carbohydrates that appeal to even the hardest to control ants. Finicky eaters other baits can't control are controlled with ABATHOR Ant Baits. ABATHOR Ant Bait is formulated to be highly attractive to a wide selection of ants including Argentine, Odorous House, Crazy, Little Black and Pavement Ants.

Abathor Fire Ant Bait

Active Ingredient:	0.011% Abamectin
Case Size:	4 x 2 lb, 25 lb
Formulation Type:	Granular Bait

Application Sites: Turf, Lawns, and Other Non-Crop Areas such as Parks and Golf Courses and Indoors In Homes and the Non-Food/Feed Areas of Commercial Buildings, Warehouses, Hotels, Food Storage Areas, Inedible Product Areas of Meat Packing Plants, Motels, Schools, Supermarkets and the Non-Patient Areas of Hospitals and Nursing Homes

Abamectin is a relatively slow acting insecticide that can begin affecting ant populations within 24 hours. This means that foraging ants that find ABATHOR Ant Baits have enough time to take the bait back to the colony where it can be distributed among the colony members. If enough of the members of the colony consume the bait, the result can be ant colony elimination.

Abathor Gel Bait

Active Ingredient:	0.05% Abamectin
Case Size:	20 x 30 g tubes
Formulation Type:	Gel Bait

Application Sites: In and around Commercial, Industrial and Residential Buildings including Apartments, Garages, Food Storage Areas, Homes, Hospitals and Nursing Homes, Hotels, Meat Packing and Food Processing Plants, Motels, Restaurants, Schools, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains and Planes) and Warehouses.

ABATHOR Gel Bait contains the active ingredient abamectin in an attractive, effective bait matrix. The bait is labeled to control a variety of cockroaches and ant species, including odorous house, crazy, and ghost. ABATHOR's two-pest punch eliminates the need to carry multiple baits, saving you money and shelf space.

Borathor Scatter Bait

Active Ingredient:	5.0% Boric Acid
Case Size:	12 x 1 lb (fine)
	4 x 4 lb, 40 lb (coarse)
Formulation Type:	Granular Bait

Application Sites: In and around commercial, industrial, and residential structures including food handling establishments. For use on turf including lawns, parks, golf courses and playing fields.

BORATHOR Granular Scatter Bait is formulated for superior acceptance by a wide range of pests. This product is formulated on a durable carrier for long life. It is approved for use outside and inside, from structure perimeters to turf. It can even be used in food areas of food handling establishments. Take care of a wide range of pest problems with this one easy to use bait.

Termite Baiting

Isopthor Original
The Largest Station
Independent research has consistently proven that termites prefer a larger food source. THOR Termite Baiting System leads the industry with the largest In-ground Stations by far. This ensures that the termites foraging near a structure are intercepted sooner.

Unique, Patented, No Disturbance Station Design
Only THOR's In-ground Stations have a patented hollow center cavity so that the stations can be inspected and bait added without disturbing the termites in the station. This ensures that the transition from the intercepting wood to the bait occurs as easily as possible.

Case of 27

Height - 8½"
Width - 4½"

Isopthor EZE
• EZ install, open, inspect, bait
• Flexible
• Compact
• Field proven
• ISOPTHOR EZE station is 1/3 the size of the original ISOPTHOR station allowing for greater versatility during installation

Case of 20

Height - 6½"
Width - 2¾"

Above Ground Station
Above ground stations are installed in areas of known termite activity.

Highly Palatable Bait
THOR TERMITE BAIT is available in three bait matricies: paper towel matrix, compressed tablet matrix, and alpha-cellulose matrix. The paper towel bait is very convenient to use. Just open the station and stuff it full of bait. ISOPTHOR Tablet Bait is enclosed in an edible burlap enclosure that allows for unrestricted termite access with maximum operator convenience. The alpha-cellulose powdered bait is a very palatable matrix that can be loaded into stations in large volumes (up to 400 grams per station). When the bait is wetted before use, the combination of alpha-cellulose and water forms an irresistible combination that no termite can resist.

Alpha-cellulose

Paper matrix

Compressed Tablet

Focus Termite Attractant

FOCUS is a natural, non-toxic, food-based additive that is used in conjunction with in-ground termite bait stations. Once in contact with the soil, FOCUS works with micro-organisms to slowly release a small, precisely determined amount of carbon dioxide (CO_2) into the soil. University research has shown that termites are attracted to the low levels of CO_2 that are naturally released by both rotting wood and termite nests. By mimicking this action, FOCUS enhances the effectiveness of any in-ground termite bait station.

EXTERRA

If component baiting is not your thing and you'd always like to be prepared for any size infestation sign up for Ensystex's EXTERRA baiting program. With EXTERRA, PCO's are charged by the site they are servicing and are provided with the same quality baiting components as a PCO using ISOPTHOR. As an EXTERRA operator, you are provided with unlimited bait and supplies ensuring that every termite infestation will be eradicated without affecting your bottom line.

Fumigation

Zythor Gas Fumigant

ZYTHOR Gas Fumigant (sulfuryl fluoride) is registered for use exclusively by licensed fumigators who participate in the Ensystex ZYTHOR Gas Fumigant Stewardship program. The active ingredient in ZYTHOR is sulfuryl fluoride, commonly referred to as "S.F". ZYTHOR is a non-flammable, odorless, colorless gas that rapidly penetrates and distributes quickly. It's also non-corrosive, making it the smarter fumigant solution for sensitive areas with modern equipment and electronic devices present.

Rodent Control

Rodenthor Soft Bait

Active Ingredient:	0.005% Bromadiolone
Case Size:	18 lb
Formulation Type:	Soft Bait
Application Sites:	Tamper-resistant bait station

RODENTHOR Soft Bait is the next big step forward in rodenticide technology. It takes rodent bait palatability and acceptance to a new level. The soft bait is formulated based on expanded knowedge of rodents' biological senses resulting in a more palatable bait. RODENTHOR Soft Bait also contains the bittering agent BITREX.

Rodenthor Block Bait

Active Ingredient:	0.005% Bromadiolone
Case Size:	20 lb
Formulation Type:	Wax Block Bait
Application Sites:	Tamper-resistant bait station

RODENTHOR Block Bait comes in a traditional wax block form that is both highly palatable and weatherable. Its resistance to molding makes it perfect for wet environments. RODENTHOR Block Bait also contains the bittering agent BITREX, the most bitter substance ever discovered.

Rodenthor Rat Bait Station

Value leading rodent (rat) station
Designed for use with RODENTHOR Rodent Baits (Block and Soft)
Rugged child-resistant design
Removable bait trays (optional)
Vertical and horizontal bait retention posts
Advanced easy-to-open locking mechanism
Two piece design eliminates "live hinge" breakage.

Rodenthor Snap Traps

Mouse Trap - Box of 10
Rat Trap - Box of 5

Vectothor Falcon LED

Area coverage:	538 ft^2
Light source:	15 W ASTRON ECO-LED UV-A™ LAMP
Weight:	approx. 4.5 lb with light tubes fitted
Material:	HDPE chassis with full metal front panel
Degree of protection:	IP 20
Mounting position:	Wall mounted
Dimensions (LxWxD):	19.5" x 5.75" x 6.5"

Vectothor Osprey LED

|	
Area coverage:	1076 ft^2
Light source:	2 x 15 W ASTRON ECO-LED UV-A™ LAMPS
Weight:	approx. 9 lb with light tubes fitted
Material:	Coated steel casing, cover/grid ABS plastic
Degree of protection:	IP 20
Mounting position:	Wall mounted
Dimensions (LxWxD):	18.5" x 14" x 4"

Vectothor Peregrine 3 LED

|	
Area coverage:	1614 ft^2
Light source:	3 x 15 W ASTRON ECO-LED UV-A™ LAMPS
Weight:	approx. 13 lb with light tubes fitted
Material:	Coated steel casing, cover/grid ABS plastic
Degree of protection:	IP 20
Mounting position:	Wall mounted
Dimensions (LxWxD):	20.5" x 14.5" x 6"

Vectothor Buzzard LED

Area coverage:	861 ft^2
Light source:	2 x 15 W ASTRON ECO-LED UV-A™ LAMPS
Weight:	approx. 10 lb with light tubes fitted
Material:	Coated steel casing, cover/grid ABS plastic
Degree of protection:	IP 20 (drip proof)
Mounting position:	Wall or ceiling mounted
Dimensions (LxWxD):	21.25" x 12.25" x 4"

Vectothor Sea Eagle

Area coverage:	1614 ft^2
Light source:	2 x PHILIPS 18 W RoHS certified shatterproof Long-life UV-A lamps
Weight:	approx. 18 lb with light tubes fitted
Material:	Metal housing
Degree of protection:	IP 68 hose-proof, gas & dust explosion proof
Mounting position:	Wall or ceiling mounted
Dimensions (LxWxD):	37" x 23.6" x 5.5"

Vectothor Kite

Area coverage:	376 ft^2
Light source:	1 x 18 W RoHS certified shatterproof UV-A lamp
Weight:	approx. 6.5 lb with light tubes fitted
Material:	Plastic housing with Aluminium front
Degree of protection:	IP 21 drip-proof
Mounting position:	Wall mounted
Dimensions (LxWxD):	16.5" x 5.35" x 5.35"

Vectothor Falcon

Area coverage:	376 ft^2
Light source:	1 x 18 W RoHS certified UV-A PL lamp
Weight:	approx. 6.5 lb with light tubes fitted
Material:	Powder coated metal
Degree of protection:	IP 21 drip-proof
Mounting position:	Wall mounted
Dimensions (LxWxD):	17.25" x 7.5" x 8"

Vectothor Osprey

Area coverage:	861 ft^2
Light source:	2x Philips Long Life 15 W RoHS certified shatter proof UV-A lamps
Weight:	approx. 8.75 lb with light tubes fitted
Material:	Coated steel casing, cover/grid ABS plastic
Degree of protection:	IP 20 dust-proof
Mounting position:	Wall mounted
Dimensions (LxWxD):	18.5" x 12.75" x 4"

Vectothor Peregrine 3

Area coverage:	1291 ft^2
Light source:	3 x Philips Long Life 15 W RoHS certified shatter proof UV-A lamps
Weight:	approx. 13 lb with light tubes fitted
Material:	Coated steel casing, cover/grid ABS plastic
Degree of protection:	IP 20 dust-proof
Mounting position:	Wall mounted
Dimensions (LxWxD):	18.5" x 12.75" x 4"

Vectothor Sparrowhawk

Area coverage:	161 ft^2
Light source:	1 x 8 W UV-A lamp
Weight:	approx. 2.25 lb with light tubes fitted
Material:	ABS plastic
Degree of protection:	IP 20 dust-proof
Mounting position:	Wall or table-top mounted
Dimensions (LxWxD):	11" x 5.5" x 5.5"

Nature-Cide®

Natural Pest Control Solutions

| ✓ Full indoor and outdoor solutions | ✓ Made in the USA from All-Natural ingredients | ✓ Proven effective by Pest Management Professionals | ✓ Pest Management X2 repellency lasts for up to 30 days |

Nature-Cide Pest Management X2

Active Ingredient:	50.6% Cedarwood Oil 25.4% Cinnamon Oil
Case Size:	2 x 1 gal
Formulation Type:	Water-based Concentrate
Application Sites:	Perimeter, outdoor, lawn, ornamental

Nature-Cide Pest Management X2 Concentrate is designed to control and repel insects. The Pest Management X2 formulation is made from 100% natural ingredients and leaves a light pleasant aroma. In addition to control, Pest Management X2 also repels snakes, rodents and many insects such as ants, bedbugs, cockroaches, fleas, mosquitoes, ticks, and many others.

Nature-Cide All Purpose Concentrate

Active Ingredient:	0.5% Clove Oil 0.5% Cottonseed Oil
Case Size:	2 x 1 gal
Formulation Type:	Water-based Concentrate
Application Sites:	Indoor, perimeter, outdoor, lawn, ornamental, food producing plants (inluding those used for human consumption)

Nature-Cide All Purpose Concentrate has been formulated to manage a variety of listed pests for both residential and commercial use. The 25(b) exempt label allows the PMP to treat sensitive areas such as: carpet, mattresses, bedding, furniture, food processing areas, nursing homes, day care centers, hospitals, and more.

Nature-Cide Insecticidal Dust

Active Ingredient:	0.5% Clove Oil 0.5% Cottonseed Oil
Case Size:	6 x 1 lb
Formulation Type:	Insecticidal Powder
Application Sites:	Indoor including carpets upholstery, and pet bedding, outdoor cracks and crevices

Nature-Cide Insecticidal Dust kills bed bugs, fire ants, fleas (egg, larval and adult stages), German cockroaches, house flies, Pharaoh ants and ticks (nymph and adult stages.) Repels all stages of fleas and ticks for up to 11 weeks. Nature-Cide Insecticidal Dust can be used indoors on carpet, upholstery, pet bedding and outdoors on exterior walls where listed pets enter.

Cane Toad Control

CANE CATCHER®
PATENT PENDING
The World's Only Touchless Cane Toad Trap

Introducing CANE CATCHER®, the world's only touchless cane toad trap. The patent-pending design was created specifically to attract cane toads and developed through years of prototype field study. A built-in touchless method of disposal feature allows you to easily empty. Cane toads, also known as bufo or marine toads, are a large invasive species that are poisonous to most animals including domestic pets.

Accuthor XL Spray Rigs

Our high-performance spray rigs are custom built to order and typically ship within seven business days. Rigs are available in sizes ranging from 25 to 200 gallon capacities in standard and low-profile configurations. Multiple engine and pump options are available including gas-powered and electric. Every unit comes standard with a dependable JD-9 style gun, quick connects, and 3/8" or 1/2" hoses. Call your local Ensystex Technical Representative to start building your rig today!

TECHNICAL SPECIFICATIONS

Tank Sizes:	25, 50, 100, 200 gal
Spray Gun Type:	JD-9 Style Gun
Hose:	3/8" & 1/2" - Custom Lengths
Tank Agitation:	Standard
Pump:	Multiple options
Engine:	Honda GX160 OHV & more
Hose Reel:	Hannay 1516, 1520, 1526 manual

Equipment

ACCUTHOR Sprayer

Pressure relief valve: no chemical spraying across top of tank!
4-way crack and crevice tip with holster on tank
Stainless steel tank with no side seam
Stainless steel pump barrel
Stainless steel wand extension
O-ring piston for smoother action and reduced friction
Neoprene strainer with greater surface area (more durable and easier to clean)
Sprayer includes complete soft parts repair kit
Available with 9", 18", or 24" extension

ACCUTHOR Gel Bait Gun

The ACCUTHOR Gel Bait Gun pulls the gel out of your gel tubes, ensuring a more accurate distribution and NO dripping. The ACCUTHOR Gel Bait Gun's dosage is fully adjustable and comes complete with a range of tips to give you total control over droplet sizes. The ACCUTHOR Gel Bait Gun comes complete with a belt carry pouch to hold the gun, its fittings and two additional gel tubes.

CARTA

CARTA delivers a state of the art, real time mapping and measuring system – displayed directly on your smartphone. Simply wheel along the edges of an area using CARTA to digitally capture the shape and dimensions. CARTA effortlessly measures ANY curved or freeform shape – then instantly derives square footage, cubic yards/feet, perimeter data, etc.

Share projects with co-workers, clients, friends with these file formats: JPG, DXF, CSV, PDF and Plott File.

Vectothor Mobile UV Tester

This device allows you to measure the amount of UV-A light emitted by your UV-A lamps. The VECTOTHOR UV Tester simply plugs into the headphone socket on your smartphone to provide the data you need to ensure your lamps are working to keep your premises free of flying insects.

Vectothor Handheld UV-A Meter

This VECTOTHOR Handheld UV-A Meter allows you to precisely measure the amount of UV-A light emitted by your UV-A lamps.

Flashlights

Dual II Powerlight

Light Source:	5 W CREEXPG2 S3 + 5 W UV-A LED
Battery:	18650 Li-Ion rechargeable battery
Specs:	Rated for 20,000 hours (5 years)
Brightness:	500 lumens
Working time:	5 - 6 hours
Weight:	6.5 oz
IP Rating:	IP67 Waterproof
Body:	AL T6061, Premium Type III hard-anodized anti abrasive finish
Dimensions:	5.9" x 1.6" (L x D)

Designed by professionals for professionals, the second generation DUAL II Powerlight offers both white light and ultraviolet (UV-A) light. The UV-A light can be used to detect scorpions, rodent urine, and bed bug eggs. The rugged, scratch resistant flashlight withstands water immersion to 3 ft., drops from 5 ft., and temperatures up to 212°F.

Power Torch

Light Source:	Xenon dual power
Battery:	20w lithium
Brightness:	3500 - 4500 lumens
Working time:	110 - 140 minutes
Weight:	43 oz
IP Rating:	IP67
Body:	Aluminium alloy
Length:	15"

Compact Torch

Light Source:	Cree T6 LED
Battery:	2 x 18650 lithium
Brightness:	1200 lumens
Working time:	100 minutes
Weight:	16 oz
IP Rating:	IP67
Body:	Aluminium alloy
Length:	9.3"

Micro Torch

Light Source:	Cree T6 LED
Battery:	2 x 18650 lithium
Brightness:	700 lumens
Working time:	120 minutes
Weight:	4 oz
IP Rating:	IP67
Body:	Aluminium alloy
Length:	5.1"

ENSYSTEX is a privately-owned, American chemical manufacturer, based in Fayetteville, NC. At Ensystex our top priority is customer service, this is why we work directly with the pest management professional from the time an order is placed until it arrives at your location. We believe having a part in the total customer experience ensures the best customer results. Ensystex sets itself apart from other manufacturers and distributors by continuing to be a manufacturer direct to PMP business, which ensures an unparalleled working relationship between us and our customers. Our US technical sales team is made up of 14 technical representatives with decades of first-hand experience specific to the areas they serve. In addition, we export our products to over 30 countries worldwide creating partnerships and relationships that extend across the globe. The Ensystex product line includes fumigation, termite control (baiting, perimeter, spot, and wood-treatment), UV fly control, insecticides, rodenticides, as well a robust offering of pest control equipment.

The ENSYSTEX Team

Ensystex is supported by 12 direct field representatives located throughout the United States. These individuals are ready to help you gain the most out of doing business with Thor. One is near you and is ready to answer your questions. If you call now, you could be talking to one of our representatives in just a few minutes.
