## 4K PERGOLA SYSTEMS

### 4K Aluminum Pergola Systems offers the following:

- Sleek, modern, versatile design, smooth finish, and no wood grain finish
- Aluminum "LEGOS" versatile design-cantilever, trellis, fencing, gates, architectural features
- Enhance the ability to create a personalized outdoor living space tailored to individual preferences and needs
- Posts, beams, and lattices are extruded 6061-T6 aircraft alloy aluminum, NOT roll-formed, with no steel inserts
- Powder coating to AAMA 2604 standard, manufacturers 20-year powder coat warranty
- Hardware fabricated from 304 Stainless Steel, powder-coated galvanized steel brackets, no plastic end caps
- 2-post attached/cantilever options or 4-post freestanding installations
- Twin Wall Roofing is all extruded aluminum, Class-A fire-rated, watertight, and provides 100% solid shade

## 4K CANTILEVER SYSTEMS

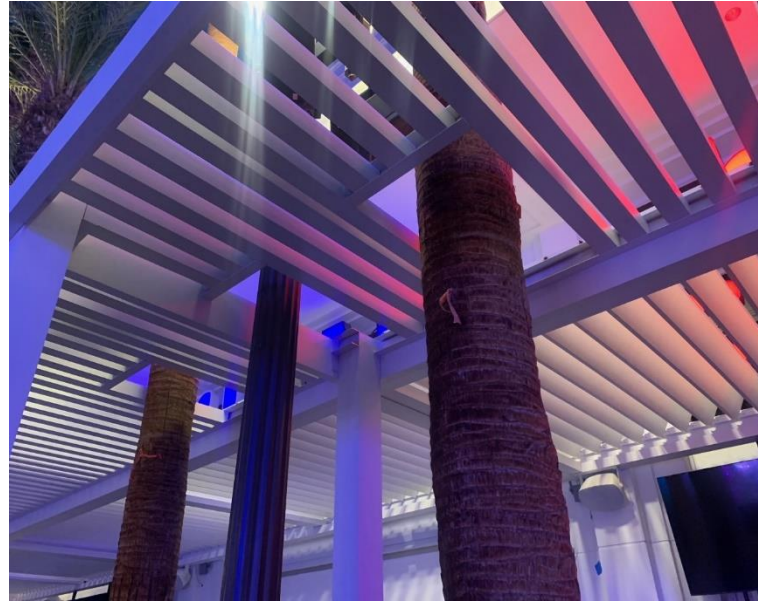

### Benefits of Cantilever Pergolas by 4K Aluminum:

- A 4K Aluminum cantilever is a structural element where an aluminum beam is anchored at one end and protrudes out without any additional support at the other end.
- 4K Cantilever can cantilever be any width, with a maximum projection of 20ft.
- Integrated solid roofing panels or lattice options; several choices depending on the level of shade, rain coverage, and aesthetic appeal you desire
- Twin Wall Roofing is all extruded aluminum, Class-A fire-rated, watertight, and provides 100% solid shade
- Engineered to adapt to high winds and snow loads
- Crafted from superior powder-coated aluminum, it provides exceptional durability and longevity
- With custom sizes and shapes, 4K Cantilever Pergolas are also available in a variety of standard sizes to suit different outdoor spaces

## 4K ATLAS AND TITAN LOUVER SYSTEMS

### Benefits of 4K Louvered Pergola Systems:

- 4K Aluminum Motorized Louver System is versatile enough to be utilized in both commercial or residential settings
- Use of 6" x 6" or 8" x 8" posts and 2" X 8" beams or larger for constructing sturdy and visually appealing outdoor structures
- Large gutter systems with downspouts into 4K Motorized Louvers is a smart design feature that enhances the functionality and efficiency of the system, especially during heavy rain events
- 4K Motorized Louvers available in 10' or 12' louvered width custom-designed structures
- Option to incorporate 4K Lattice or 4K Pergo-Soleil panels into the design
- 4K Motorized Louvers can be operated by remote control, wall key-pad, smart-phone or tablet app
- 4K Motorized Louvers allow for various adjustments to cater to different lighting, shading, ventilation, and weather protection needs
- 4K Motorized Louvers bring year-round livability to outdoor spaces while adding value to any property
- High-quality materials that will stand up to weather and resist corrosion

## 4K GATES AND FENCING

### Benefits of Gates and Fencing by 4K Aluminum:

- 4K Aluminum Fencing offers several advantages, such as being lightweight, corrosion-resistant, and requiring minimal maintenance compared to other materials like wrought iron, steel, or wood fencing.
- Products will not rust, making it an excellent choice for outdoor applications. Unlike wood, which can warp, rot, or fade over time due to weather exposure, aluminum maintains its appearance and structural integrity for years
- 4K Aluminum Powder coat™ finish has a 20-year guarantee.
- Complete line of beautiful, durable, and low-maintenance fencing for various applications, including residential, commercial, pool fencing, and privacy fences

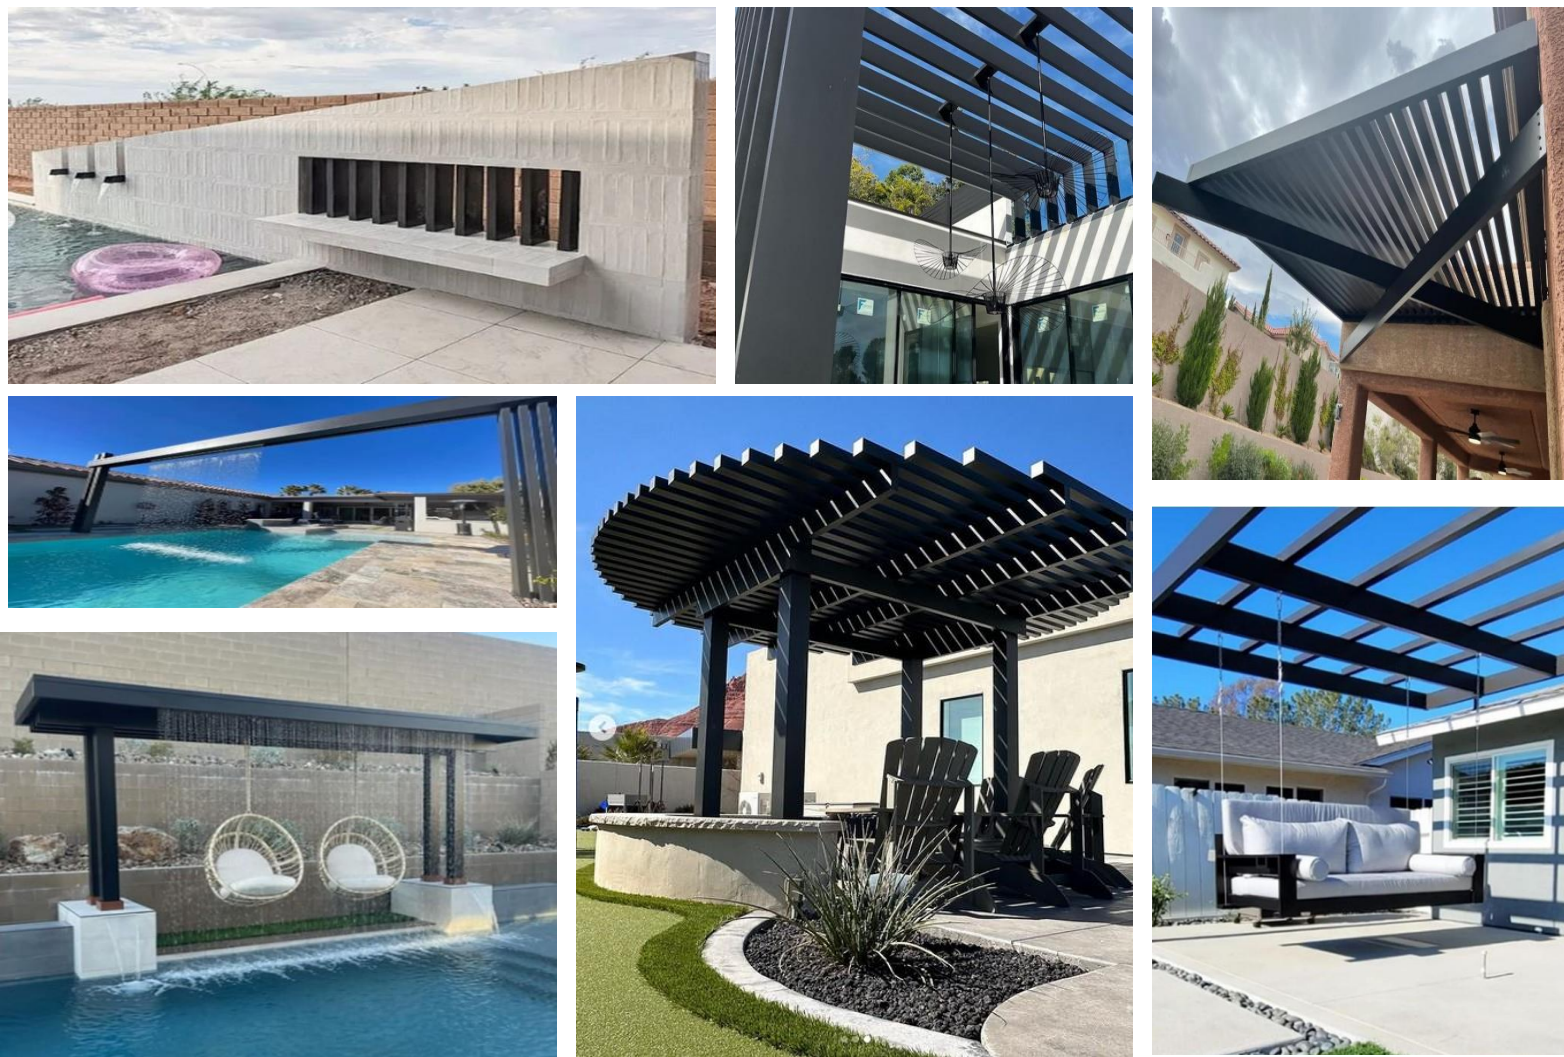

# 4K ARCHITECTURAL DESIGNS

Benefits of an Architectural Feature using 4K Aluminum:

4K Aluminum Architectural features can offer a distinct aesthetic that sets them apart from traditional building materials like brick, wood, and even steel. Overall, the strength, lightweight nature, recyclability, and versatility make 4K Aluminum an excellent choice for architectural features.

4K Architectural Features consist of:

- Over-the-pool Water Features
- Yard Art
- Unique Structural Designs
- TV Walls
- 4K Architectural Features are made from extruded aircraft alloyed aluminum, crafted from superior powder-coated aluminum, offering lasting durability and a 20-year warranty

# 4K WOOD SUBLIMATION

4K Wood Sublimation consist of:

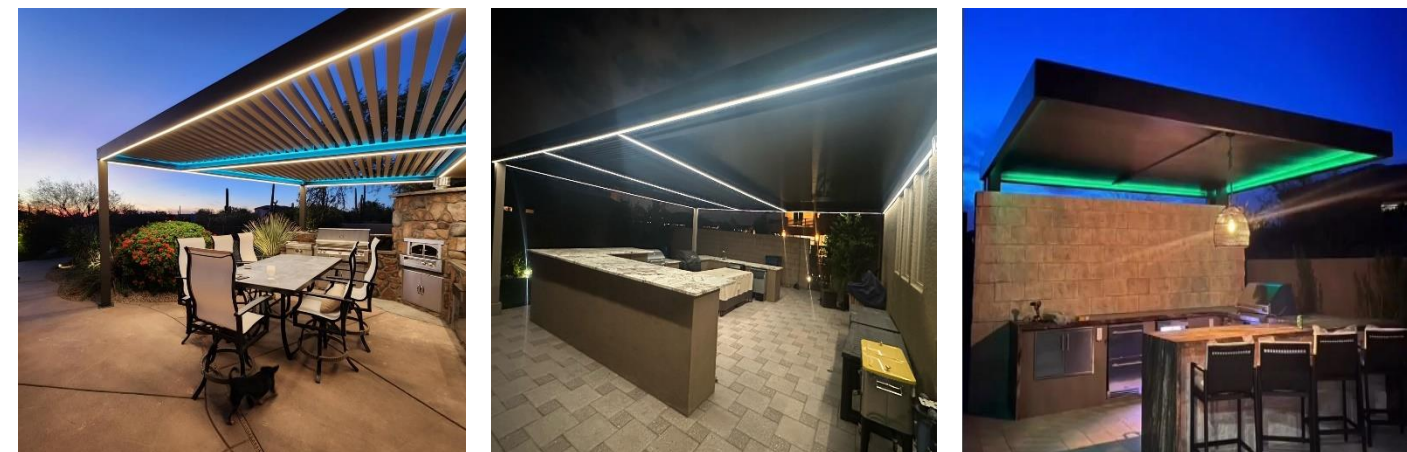

- 4K Wood Sublimation Colors: The wood sublimation product is available in two distinct colors: **Warm Oak** and **Sandalwood**. These color options provide customers with choices that complement various exterior design schemes.
- 4K Wood Sizes: The product comes in two sizes: 1" x 4" and 1" x 6". This offers flexibility in terms of installation and design preferences. The different sizes can be used for various applications, such as shade structures, privacy walls, or decorative trim work.
- 4K Wood Sublimation products are made from extruded aircraft alloyed aluminum crafted from superior powder-coated aluminum. They offer lasting durability and a 10-year warranty.

# 4K LED LIGHTING SYSTEM

4K LED system:

- 4K LED small handheld RF remote control capable of working up to 40' away from the control box.
- The box includes a 6' grounded cord.
- The LED lights are 24-volt low voltage; no electrical permit is necessary.
- Integrated with four colors: white, red, green, and blue.

# 4K EYEBROWS AND AWNINGS

## Benefits of Eyebrows and Awnings using 4K Aluminum:

- An aluminum eyebrow or awning is a distinctive architectural element that adds character and elegance to any structure.
- Aluminum eyebrows and awnings offer a wide range of design possibilities.
- 4K Aluminum materials are known for their exceptional durability and resistance to harsh weather conditions. An eyebrow or awning can help protect against rain, snow, wind, and UV rays, ensuring long-lasting performance and reduced maintenance needs.
- 4K eyebrows and awnings are made from extruded aircraft alloyed aluminum, crafted from superior powder-coated aluminum, offering lasting durability and a 20-year warranty.

# 4K PERGO SOLEIL™ PANELS

## Shade and Yard or Wall Art Panels

Some panels are available in mill finish 3 x 5ft and can be powder-coated to your specific color. We are a Las Vegas family-owned company.  
Engineering by HH Consulting, Henderson, Nevada.

Panels are available in 4ft x 8ft and are available in the following colors:  
Espresso, Apollo Gray, Quartz White, Adobe Tan and Black.

# 4K ALUMINUM INFORMATION

## Creative Solutions For Outdoor Shade Structures

4K Aluminum provides decorative pergola systems that produce shade and natural lighting for your outdoor living areas in artistic patterns you never thought possible! The various designs of the Pergo- Soleil™ Panels filter natural light and allow you to create a unique retreat for friends and family. You can now enjoy decorator styling, which was previously available only in custom construction!

4K Pergola™ Systems, integrated with 4K Pergo-Soleil™ Panels, are engineered to provide the exceptional structural integrity necessary to withstand extreme conditions such as high winds and heavy snow while remaining maintenance-free for many years.

4K Aluminum available colors:  
Espresso, Apollo Gray, Quartz White, Adobe Tan and Black  
*(Colors may vary. Samples available.)*

# 4K ALUMINUM INFORMATION

## Creative Solutions For Outdoor Shade Structures

### ABOUT 4K ALUMINUM

4K Aluminum is not just a company; it's a family legacy. The "4 Ks" in our name are the first letters of our family members' names. Kim Jackson, the President and CEO of 4K Aluminum brings over 30 years of experience within the aluminum industry. As a family, we are deeply grateful for the support that has led to 4K Aluminum's success and for the trust of those considering the purchase of our superior material.

Kim's vision for 4K Aluminum began with her dissatisfaction with the options available in the patio cover market when she needed one for her backyard. This dissatisfaction inspired her to create a company offering superior-quality, modern patio covers and other aluminum products.

4 K Aluminum stands out in the extruded aluminum industry as a superior manufacturer of luxury patio covers using aircraft alloy. Our unique selling proposition lies in our focus on quality materials and precision engineering, ensuring that our products consistently meet industry-leading standards for strength and structure.

4K Aluminum has many products, including posts, beams, lattice tubes, motorized louver systems, and Pergo Soleil™ aluminum laser cut panels. 4Ks Soleil panels are designed to offer versatility and seamlessly integrate into any architectural style, whether for residential or commercial markets. The company's commitment to innovation and quality ensures that customers can create unique and visually stunning outdoor spaces. 4K Aluminum distributors and authorized installers are ready to deliver the industry's most versatile, highest quality, and best powder-coating pergola system.

### VISION AND MISSION:

4K Aluminum is dedicated to manufacturing world-class aluminum products that elevate commercial and residential outdoor entertaining spaces. Our vision is to bring the highest quality products to the market and enhance the functionality and aesthetics of outdoor spaces throughout America.
