#### **Aesthetic Design Mushroom Head**

The aesthetic head design is shaped to compliment a clean finish in cabinetry, furniture, and more. The head is bold to show its architectural shape and decorates visible surfaces.

#### **Graduated Shoulder**

The bigger head increases holding power on the wood, while the graduated shoulder from head to shank ensures maximum strength for the fastener head.

#### **Fast Start Tip**

With sharp threads all the way to the tip, the fastener has an immediate grip for a fast start. The inset thread cut drastically reduces the splitting effect and minimizes the driving torque needed to engage the wood.

#### **Excellent For Joinery Tools**

Size #8 head has been designed to fit perfectly with most pocket joinery tools on the market. Excellent for cabinetry and more! Kreg Jig® compatible.

The advanced Cabinetry (& more!) Wood Screw with ZYTEC™ GX corrosion protection coating for exterior environments. Great for any size job or project.

# THE ULTIMATE FASTENERS

## EXTERIOR

## CABINETS & MORE

The AURA™ screw features an aesthetic design of the mushroom head shaped to fit in cabinetry, furniture and more. The large diameter head of the fastener ensures increased holding power. The Self-Tapping Thread cuts effectively through materials such as wood, plastic and sheet metal. The head size on the #8 version has been designed to fit most pocket joinery tools on the market. Our extra sharp Fast Start Tip allows the screw to grip quickly into the wood providing easy installation.

**Sizes Available: #8 x 1" to #10 x 3"**
