## J

#### Up-to-Date Code Requirements

Plug real-time city code data into your process and access everything you need in minutes, not hours.

# Why Choose Fordje?

#### Customizable & Downloadable Data

Select cities and key data points, then receive an organized table you can integrate directly into your workflow.

#### **5x Faster Research**

Minimize hours spent diving into 1000s of pages of codes and focus on informed footprint expansion.

#### **Built for Construction**

Fordje works directly with cities to ensure up-to-date data, verified by experts

### **How It Works**

- Select Cities & Data Points: Choose the information that matters most to your project.
- Download Data: Receive verified, digestible tables that fit your project management needs.
- Start Building: Eliminate delays and errors by having the right codes from the start.
- Informed Expansion: Research new cities' codes in minutes to determine where to build next.
