

## ENERGY RECOVERY VENTILATOR ODD-ERV100EC

### CERTIFICATIONS

### DEFROST

Integrated dampers allow seamless defrosting to prevent the energy recovery core from freezing in cold weather in order to maintain high energy efficiency. Normal operation switches to defrost mode automatically based on outdoor conditions. The default defrost mode is recirculation.

**Optional:** Exhaust only defrost mode available when paired with ODD-ERV-EC control.

Recirculation Defrost		
Outside Temperature		Defrost Cycle min./ Operating min.
°C	°F	
Warmer Than -10	Warmer Than 13.8	No Defrost
-10 To -15	13.8 To 4.7	9/60
-15 To -20	4.7 To -4	9/35
-20 To -27	-4 To -17.1	9/27
-27 To -30	-17.1 To -22.6	9/20
-30 And Less	-22.6 And Less	9/4

T=60min

**5 YEAR WARRANTY**

### HIGHLIGHTS

#### Energy Recovery Ventilator boosting comfort & cutting energy costs for a healthier, more efficient space

- **Enhanced Indoor Air Quality:** This air exchange system improves indoor air quality by retaining existing heat and optimizing interior moisture levels.
- **Mirrored:** Mirrored unit available for identical but mirrored suites.
- **Built-in Humidity Control:** Includes a humidity sensor to automatically maintain optimal indoor moisture levels for comfort.
- **Adjustable Airflow:** Supply and exhaust airflow can be manually adjusted within a range of 40 to 100 CFM.
- **Advanced Energy Recovery Core:** Features a counterflow graphene core for superior energy transfer and thermal efficiency.
- **Efficient EC Motors:** Powered by two enclosed EC motors designed for quiet, continuous, and reliable operation.
- **Simplified Installation:** Hard-wired option available. Mounting brackets included for easy setup for ceiling or wall mounting.
- **Low-Temperature Protection:** Designed to maintain performance and prevent freezing in extreme conditions.
- **Filtration:** Utilizes MERV4 washable and replaceable filters with 20 PPI for improved air purity. MERV 8 & 13 optional.
- **Sound Level:** 1.5 sones @ 100 CFM\*
- **Safety Feature:** Equipped with a door switch that cuts power to the motors when the access door is opened.
- **Customizable Run Time:** Timer knob allows run time adjustments from 5 to 60 minutes per hour, providing flexibility to suit your needs.
- **Airflow Testing:** Features built-in test ports with plugs in each area for precise airflow and pressure measurement during startup and balancing.
- **Certified Performance:** Compliant with CSA Standard C439-18 for trusted energy recovery performance.

\*not tested under controlled environment

### SPECIFICATIONS

#### ODD-ERV100EC

Efficiency (SRE)	87% @ 48CFM
Airflow	98.8CFM @ 0.2"wg
Voltage	120V / 1 Ph / 60Hz
Wattage	61.8W
Amp	0.52A
Fans	EC motor
Duct Size	6"
Weight	42 lbs
