## PROTECTION SERVICES

Protecting Properties & Communities From Wildfires

**BE PROACTIVE – BE PREPARED – BE IN CONTROL**

## SCHEDULE A CONSULTATION WITH A WILDFIRE SPECIALIST

### ABOUT YOUR CONSULTATION

During our meeting, our expert team will introduce you to our patented autonomous wildfire defense system (U.S. Patent #11247087) that has successfully protected properties during active fires, including homes in Malibu and Pacific Palisades during both the Franklin and Palisades fires.

### WHAT WE'LL COVER

- A comprehensive assessment of your property's specific wildfire risks
- Demonstration of our smart technology
- **EPS Portal system featuring:**
- 24/7 real-time wildfire monitoring
- Early warning detection with automated alerts
- Autonomous activation requiring no human intervention
- Dual defense system (structure and perimeter protection)
- Customized protection strategy for your property
- Review of our proven success cases
- Detailed explanation of our backup power systems and constant pressure technology
