

1. Preparation of construction tools (select and use according to actual construction needs)

Toolbar			
serial number	name	picture	Remark
1	Mixer		On-site mixing of adhesives and epoxy Resin, cement, etc.
2	Green spikes		After applying the adhesive, on the adhesive layer Panel usage
3	Flatness measuring ruler		Ground flatness inspection
4	Electric grooving machine		Use of gaps in boards

5	Electric concrete cutter + vacuum cleaner		ground cracks, cuts Grooving for compartment seams												
6	A5 scraper metal scraper		Use of floor adhesive												
7	Stainless steel tape measure	 <table><tr><td colspan="4">双制动 (10m * 25mm)</td></tr><tr><td>类型</td><td>测量长度</td><td>尺带宽度</td><td>编码</td></tr><tr><td>双制动</td><td>10m</td><td>25mm</td><td>30179401001</td></tr></table>	双制动 (10m * 25mm)				类型	测量长度	尺带宽度	编码	双制动	10m	25mm	30179401001	Measurement Use
双制动 (10m * 25mm)															
类型	测量长度	尺带宽度	编码												
双制动	10m	25mm	30179401001												
8	Fish-shaped safety hook		Cutting												
9	Cork push plate		Edge exhaust use												
10	Self-priming grinder		floor grinding												

11	handheld angle grinder	(FF10-100款) 1020W 侧置开关 标配 <table><tr><td>额定电压</td><td>空载转速</td><td>内径</td><td>最大外径</td><td>重量</td></tr><tr><td>220V-50hz</td><td>13000r/min</td><td>16mm</td><td>100mm</td><td>2.1kg</td></tr></table> *可调速 大功率 *可拆卸手柄  彩盒 尾置调速开关 出厂标配 扳手 侧手柄 内外法兰 防护罩 碳刷	额定电压	空载转速	内径	最大外径	重量	220V-50hz	13000r/min	16mm	100mm	2.1kg	Grinding of ground edges or joints use
额定电压	空载转速	内径	最大外径	重量									
220V-50hz	13000r/min	16mm	100mm	2.1kg									
12	Vacuum cleaner		Cleaning floors										
13	50kg pressure roller		Floor ventilation and compaction										
14	spray gun		Use of roll material edge softening										
15	Other tools	Such as brooms, glue guns, rags, screwdrivers, pliers, three-prong electrical boxes, sockets, etc.											

Note: All tools should be placed in a unified manner on site. After each construction project is completed, they must be placed in a fixed location with a warning sign.
