

FLAT ROOF ACCESS SKYLIGHT

The DRF insulated flat roof access skylight provides safe, convenient roof access. Its specialized hinges and opening system allow the sash to open up to 80° (60° for 36x48 and 48x48 sizes), while gas springs hold it securely open and help prevent accidental closing. Anti-slip profile covers provide added safety.

Features:

- multi-chamber PVC profiles filled with insulation and finished with a flat glazing unit
- DU6 triple-glazed unit with a whole window U-factor of 0.23 BTU/h ft² F
- windows can also be mounted on an additional XRD/W base with a height of 5 ⅞"
- Internal and external accessories are compatible and available for purchase
- suitable for roof pitches between 2°-15°

Note: The red support bar is not found in the smallest unit of DRF DU6 30/30.

FAKRO skylights are designed and manufactured to comply with applicable IBC, IRC, and IECC requirements. Where applicable, products are tested and certified to NFRC and CSA standards. Certification may vary by skylight type and model; contact us for specific product details.
FAKRO glazing units feature highly selective solar glass and meet NFRC, IGCC (Insulating Glass Certification Council), and IGMA (Insulating Glass Manufacturers Alliance) requirements, including initial and post-gas-fill weathering certification.

The FAKRO FWU 24/46 egress roof window has been tested in accordance with IRC Sections R310.1.1 and R310.1.2 and is certified as a Fire Exit (Egress) roof window.

Certificates are available at www.fakrousa.com
