DECK MOUNTED SOLAR VENTING SKYLIGHT

FAKRO FVS solar-powered deck-mounted skylights are autonomous units that do not require connection to the building's electrical power supply, as energy generated by the integrated photovoltaic panel is stored in a built-in battery. The skylight features radio-controlled remote operation, ventilation, and integrated rain sensors.

FAKRO skylights are designed and manufactured to comply with applicable IBC, IRC, and IECC requirements. Where applicable, products are tested and certified to NFRC and CSA standards. Certification may vary by skylight type and model; contact us for specific product details.
FAKRO glazing units feature highly selective solar glass and meet NFRC, IGCC (Insulating Glass Certification Council), and IGMA (Insulating Glass Manufacturers Alliance) requirements, including initial and post-gas-fill weathering certification.

The FAKRO FWU 24/46 egress roof window has been tested in accordance with IRC Sections R310.1.1 and R310.1.2 and is certified as a Fire Exit (Egress) roof window.

Certificates are available at www.fakrousa.com
