Introducing our stainless steel self-closing hinges. The ideal solution for pool applications and beyond. These hinges features a durable, corrosion-resistant stainless steel construction, perfect for enduring harsh environments. With a 90-degree opening angle, they provide smooth access while the adjustable closing speed feature ensures secure and precise closure. Optimize your gates and doors with these versatile hinges for reliability, safety and unmatched functionality.

Floor Lock

Holds the Glass Gate
Flawless Mechanism
Seamless Look

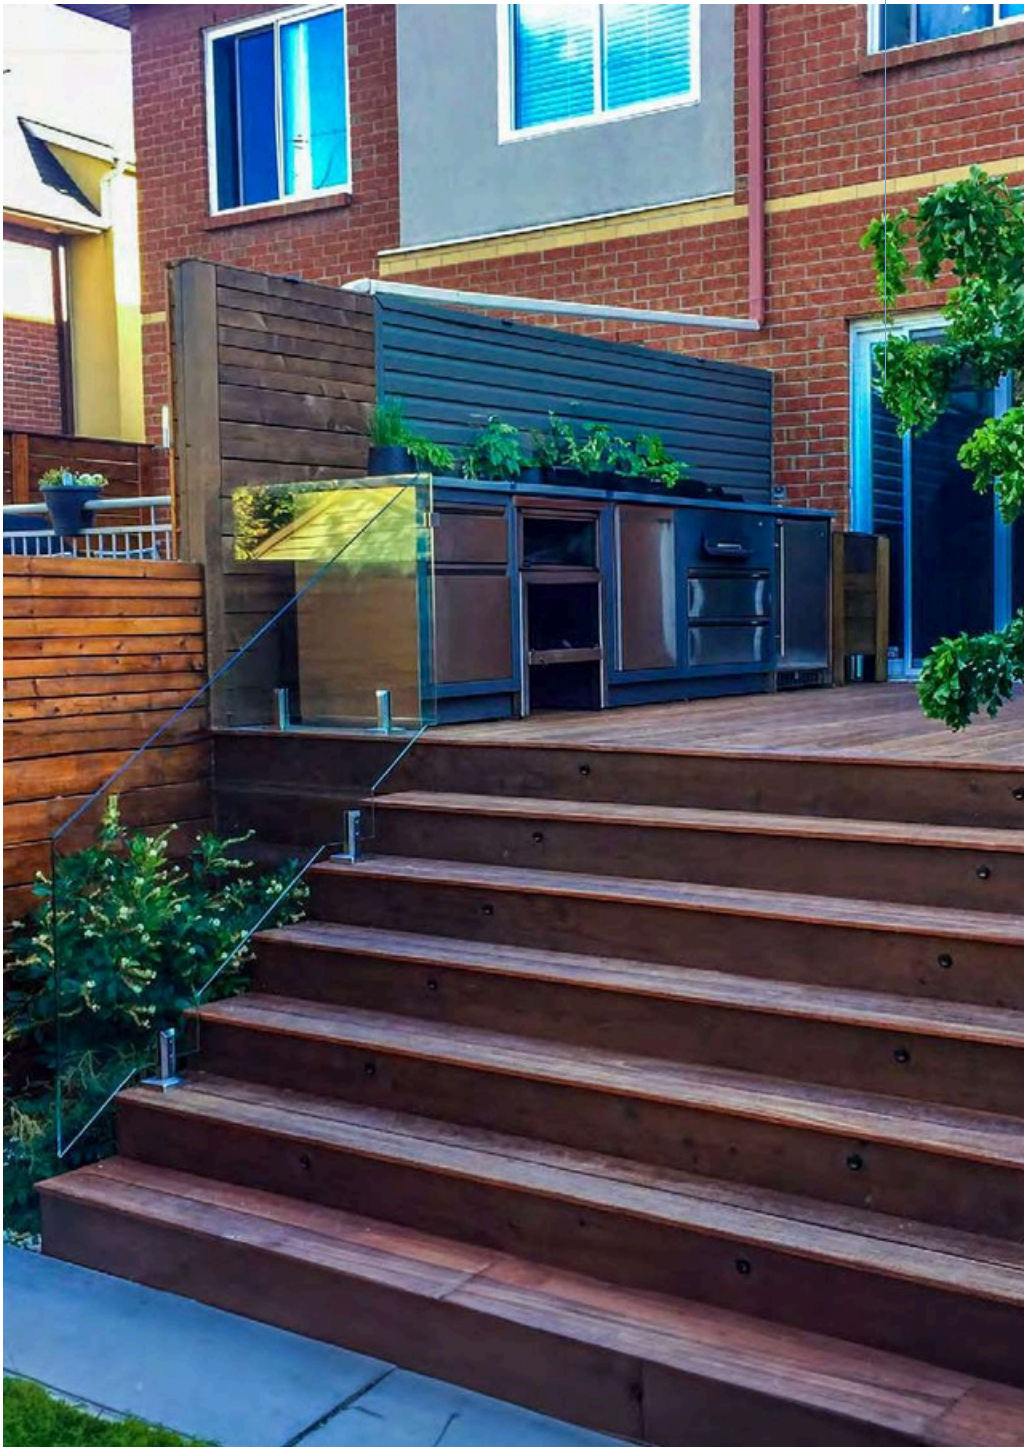

sku

FL-SS (stainless)

FL-BL (black)

The floor lock is designed to securely hold a glass gate, providing a flawless mechanism and a seamless look that complements the gate's aesthetic. Its primary purpose is to prevent the door from closing automatically, offering an essential solution for double-door setups where controlled access and stability are crucial. Enjoy the perfect combination of form and function with this practical and stylish accessory.
