

CANTILEVER PERGOLAS

Cantilever Pergolas by Outdoor Elements Let the Sun Shine In

At Outdoor Elements®, we design and manufacture American-made cantilever patio covers that bring together minimalist form and enduring performance. Our Two-Post and Four-Post systems offer a refined solution for expansive shade with fewer vertical supports. This is ideal for homeowners and commercial properties in need of open, modern outdoor spaces.

Crafted from high-grade extruded aluminum and engineered to resist wind, rust, and corrosion, these patio covers combine lasting durability with innovative elegance, tailored for outdoor living in moderate climates.

Two Distinct Cantilever Designs

Experience shade without visual clutter. Our cantilever systems are a study in purposeful design:

Two-Post Cantilever Covers

Embrace a modern, minimalist aesthetic with maximum open space. Extending up to 20 wide and 12 out, with two rear-mounted posts or a wall connection, this two-post cover relies on dual rear posts or a flat wall mount, allowing unobstructed views and versatility for patios, decks, and dining areas.

Four-Post Cantilever Covers

Offering enhanced structural support and elevated aesthetics, this system spans up to 24 wide and 20 out. This model is ideal for expansive yards, poolside retreats, and commercial venues.

Luxury Patio Covers Built for Performance, Styled For You.

Every cantilever patio cover from Outdoor Elements is built with high-grade extruded aluminum and stainless steel fasteners to withstand wind speeds up to 130 mph and resist rust and corrosion.

Customization options include:

- Choice of louvered, solid, or lattice roof types
- 10 standard powder-coat colors and custom finishes
- Enhancements like integrated LED lighting, corbels, cornice, post wraps, privacy slats, fans, and heaters
- Whether you're designing a residential retreat or a hospitality destination, we offer the flexibility to tailor every cover to your vision.
