

Experience Life. *Outside.*

Luxury Louvered Roofs and Pergolas

Experience the luxury of an outdoor space meticulously custom designed for your environment. An Outdoor Elements louvered roof or pergola dramatically transforms the feeling of your home or business.

Expand Your Living Space into a Stunning Backyard

Daytime

Imagine a serene shelter in your own backyard with all the comforts you would find indoors, from lighting and heating to cooling and shade.

Expand Your Living Space into a Stunning Backyard

Nighttime

An Outdoor Elements luxury louvered roof expands the possibilities for relaxing and entertaining outside, day or night, with a highly customized style that's all your own.

Designed and Manufactured in the USA

American innovation, tenacity and opportunity inspires everything we do. At Outdoor Elements we are not only committed to manufacturing here in the USA, we require all our supporting manufacturers to do the same.

Our components such as extruded aluminum, motors, electronics, machine fittings and powder coating materials, create the strongest most durable louvered system on the market.

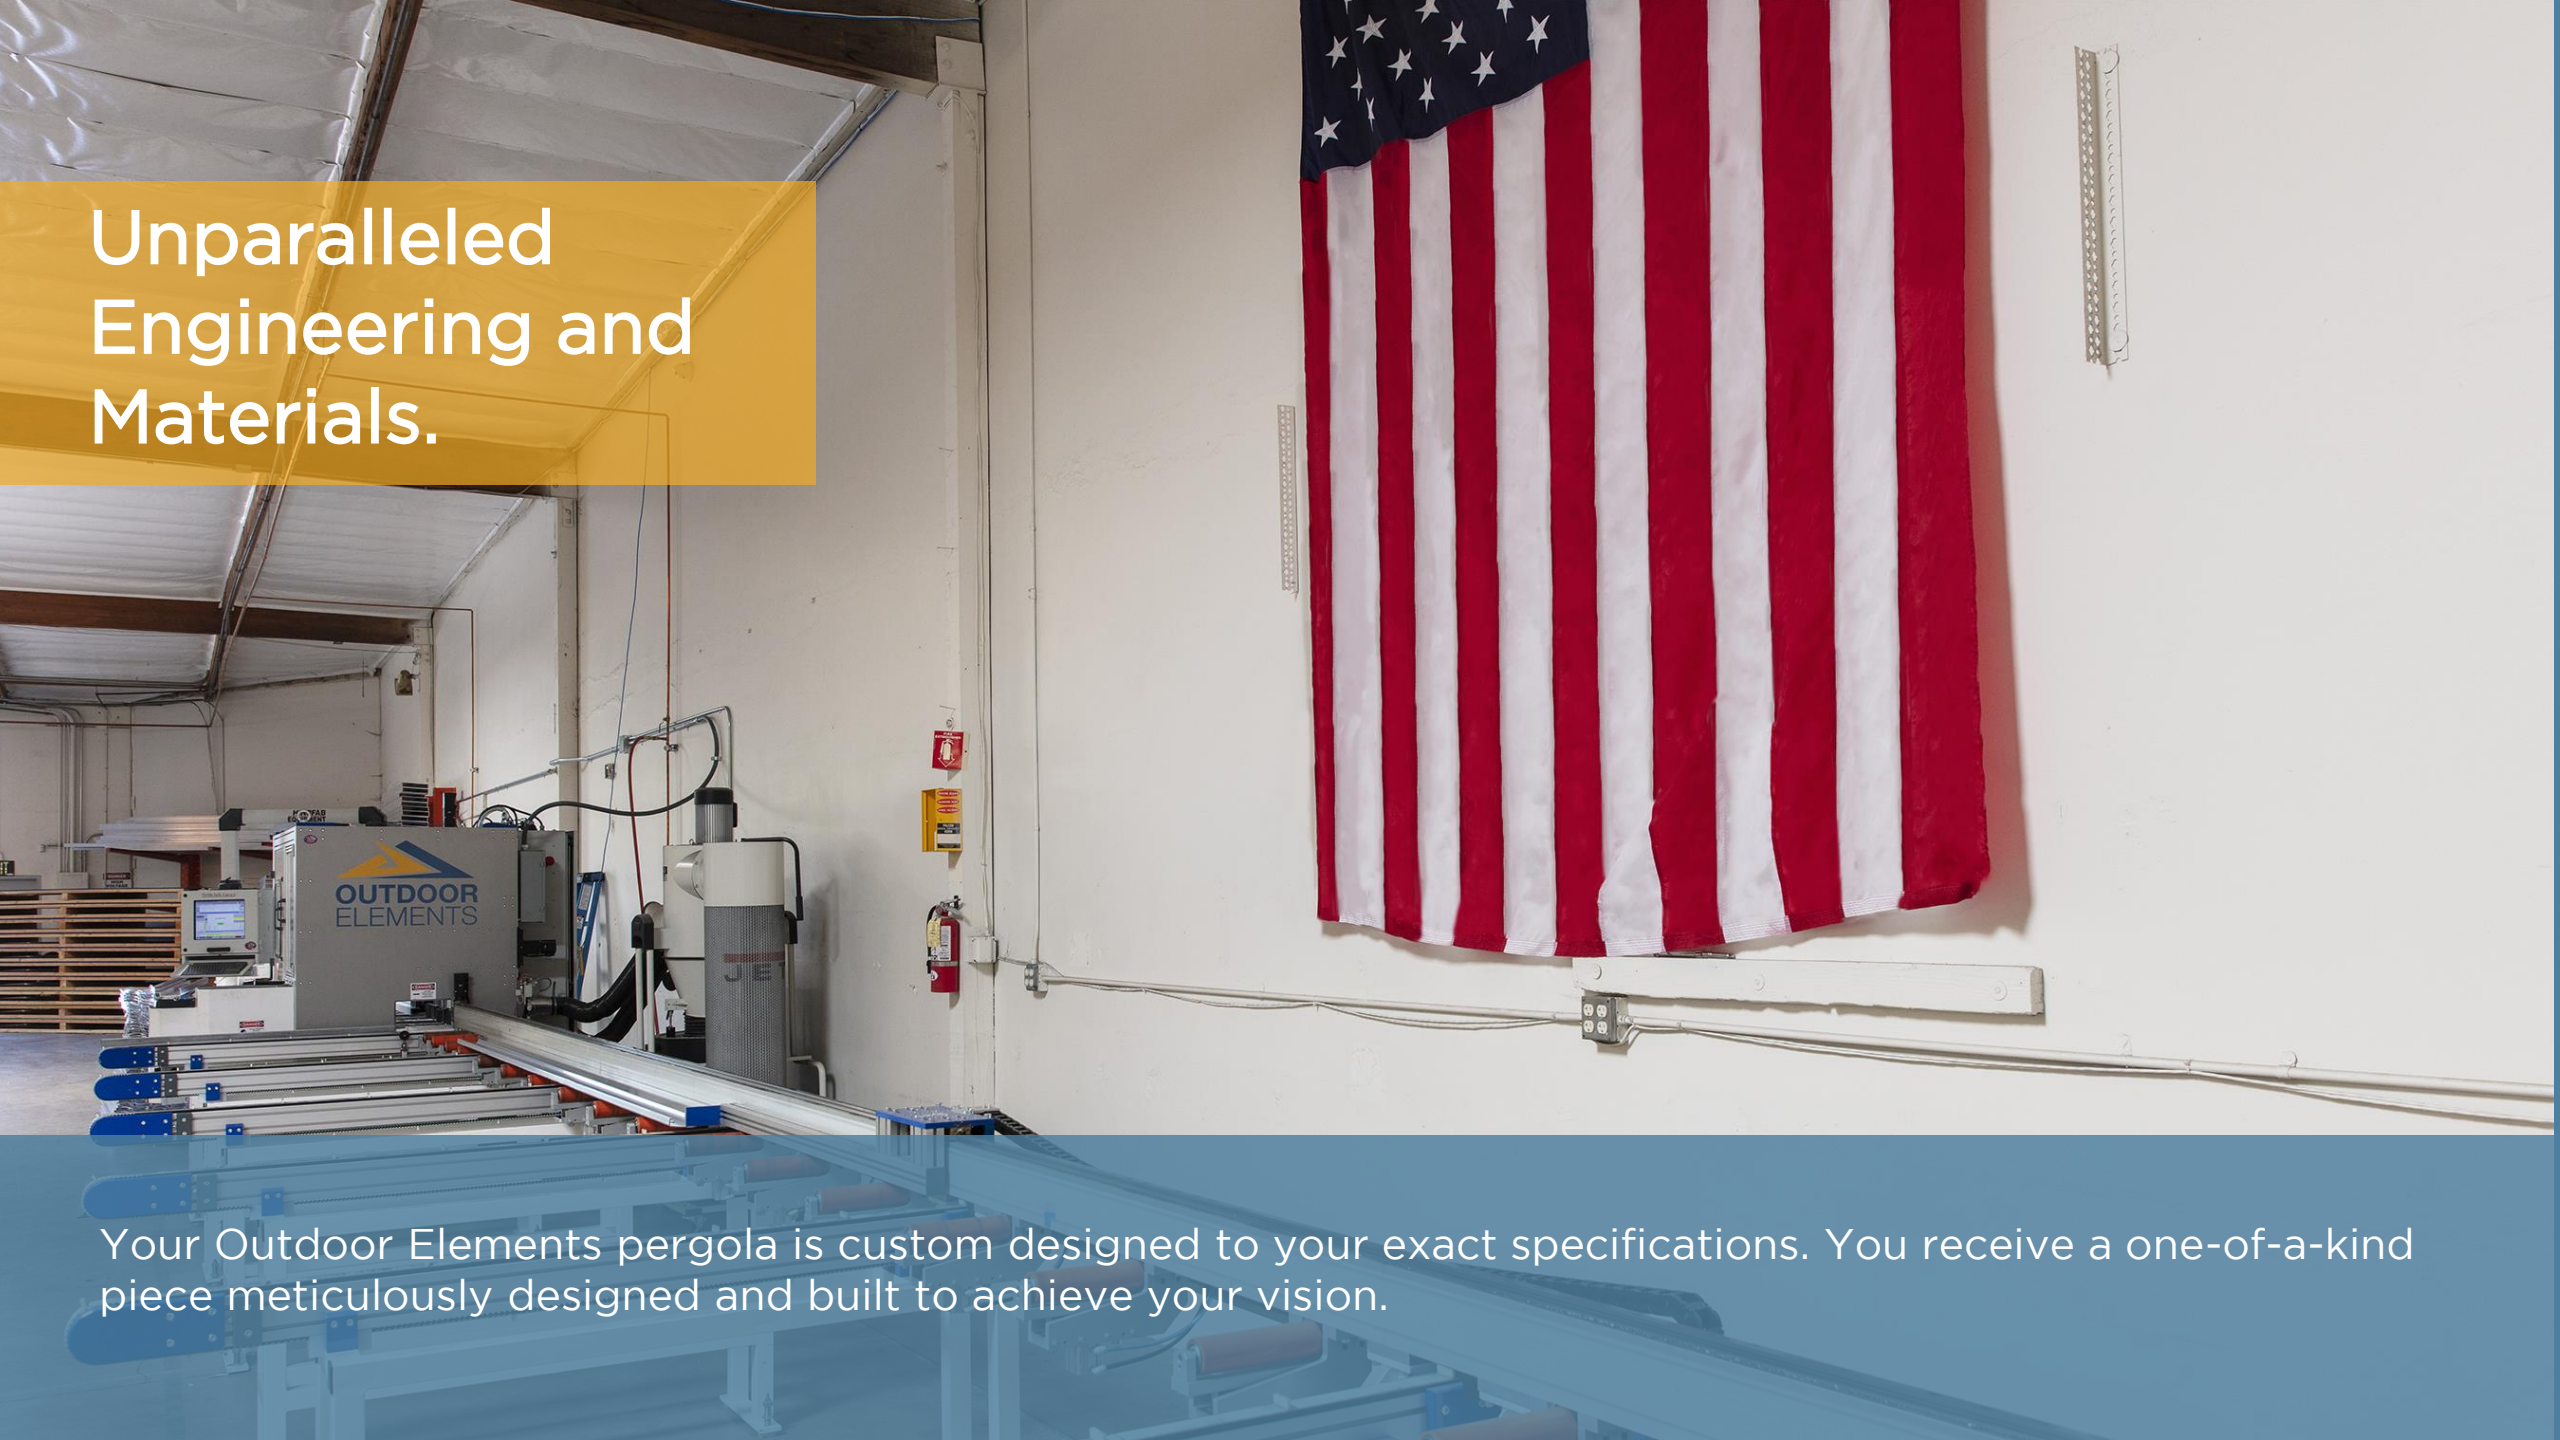

Meticulous
Engineering with
American Made
Materials.

We've engineered our systems with thicker materials than other manufacturers to allow for a greater span (up to 22') with durable strength.

Powder Coated
with a Superior
Exterior Grade
Coating.

All aluminum components are built with an electronics process that applies a powder coating material to fill the entire surface and then baked at 400 degrees. This creates a much higher level of quality and endurance.

A large American flag is mounted on a white wall in a workshop. The flag is positioned vertically, with the stars in the upper left corner. To the left of the flag, there are some electrical outlets and a fire extinguisher on the wall. In the background, there is a large industrial machine with the 'OUTDOOR ELEMENTS' logo, which appears to be a CNC router or a similar manufacturing tool. The machine is processing a long, thin piece of material, possibly a pergola beam. The workshop has a high ceiling with exposed pipes and a concrete floor.

Unparalleled
Engineering and
Materials.

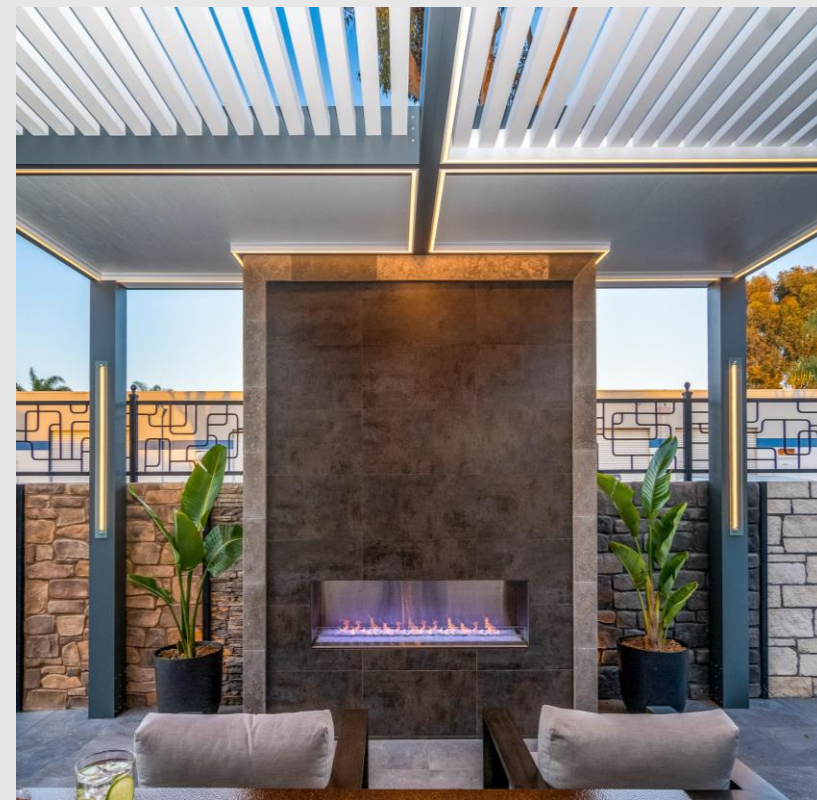

Your Outdoor Elements pergola is custom designed to your exact specifications. You receive a one-of-a-kind piece meticulously designed and built to achieve your vision.

Count on Our Decades of Experience

The Outdoor Elements team has excelled for decades in architecture, design, and building. Our pergolas are meticulously designed for precision installation.

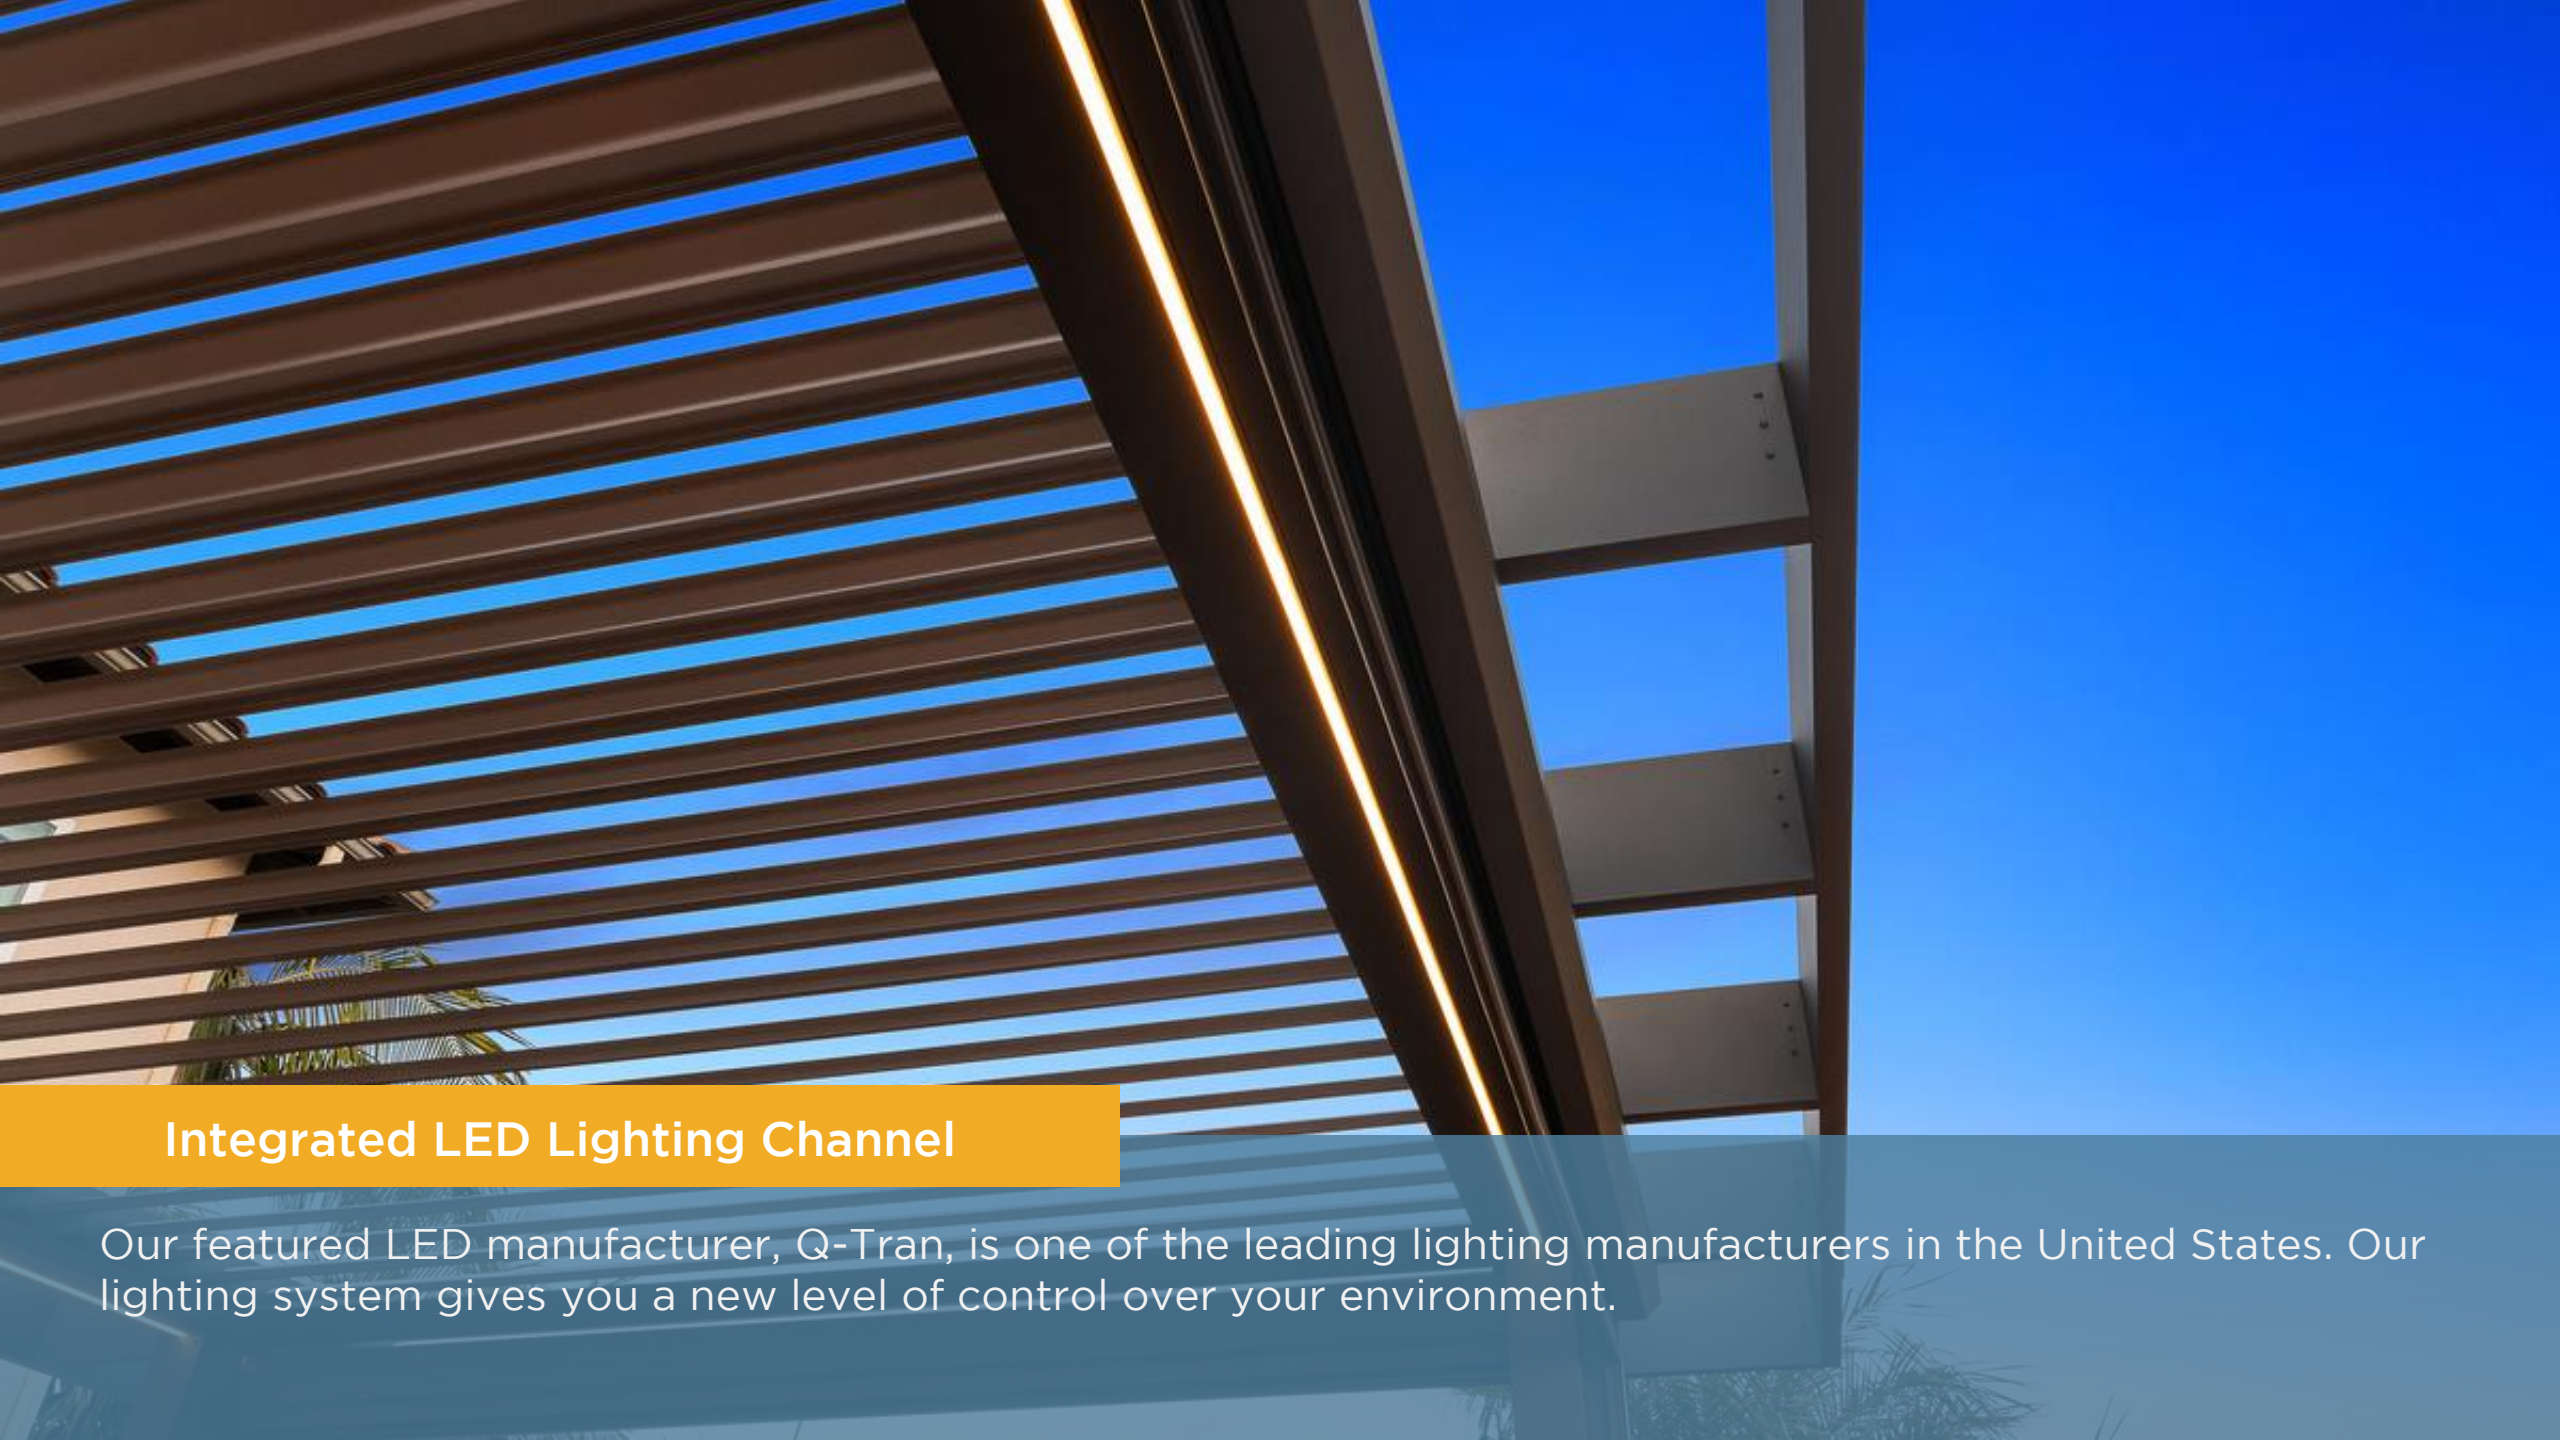

We can provide you with AutoCAD, Revit, 3D or detailed renderings to help you visualize your louvered roof, integrated with your home or business design and outdoor living space.

Innovative LED Lighting

Our patented LED lighting design for louvered roofs and pergolas is a breakthrough in the industry with one of the most unique integrated lighting systems ever designed.

Integrated LED Lighting Channel

Our featured LED manufacturer, Q-Tran, is one of the leading lighting manufacturers in the United States. Our lighting system gives you a new level of control over your environment.

LED Post Lighting: 2' and 4' available

Choose from a variety of lighting options to enhance your ambience. Our LED lighting creates a comfortable environment and can transform your outdoor space from daytime to night.

Recessed LED Lighting

Experience the luxury of an outdoor space meticulously custom designed for your environment. An Outdoor Elements louvered roof dramatically transforms the feeling of your home of business.

RGB Lighting: RED

You can light your entire outdoor space with our state-of-the-art fully integrated LED channel or change to "party" mode and add shimmer to your space with ambient green, blue, or red illumination.

RGB Lighting: GREEN

Our 24-volt lighting is also energy efficient. Versatility, style, and innovative engineering - our lighting has it all.

RGB Lighting: BLUE

Entertaining outdoors enhances the enjoyment of beautiful natural surroundings. Whichever mood you're in, your space with an Outdoor Elements luxury louvered roof can be a peaceful private retreat or a dynamic party center perfect for grilling and cocktails under glamorous lighting.

Control Your Environment with Heating and Cooling Elements

The Outdoor Elements experience allows you to entertain or relax in your outdoor living space any time of year. In cooler months, or when a chill sets in after sunset, our professionally designed and installed heaters keep your space cozy and comfortable.

When temperatures get warm, you'll welcome cooling systems carefully designed to allow your enjoyment of outdoor living in any weather.

Bromic Heater

Their Smart-Heat™ range outdoor heaters offer superior heating performance. Bromic heaters feature an integrated heater beam and are recessed and vented.

Bronic Heater

The Bronic Tungsten Smart-Heat™ Electric heater series offers high- performance radiant heating to outdoor and semi-enclosed spaces with a durable, industrial design style.

Bronic Portable Heater

Bronic Heating is unique in being the only company to design, engineer and manufacture gas, electric and portable outdoor heating products.

Infratech Heater

Infratech heaters have long been a favorite option among the architects, interior designers and engineers working on today's most sought-after commercial and residential properties.

Infratech Heater with Decorative Screen

Infratech's decorative screen heaters bring unique style to your outdoor living space.

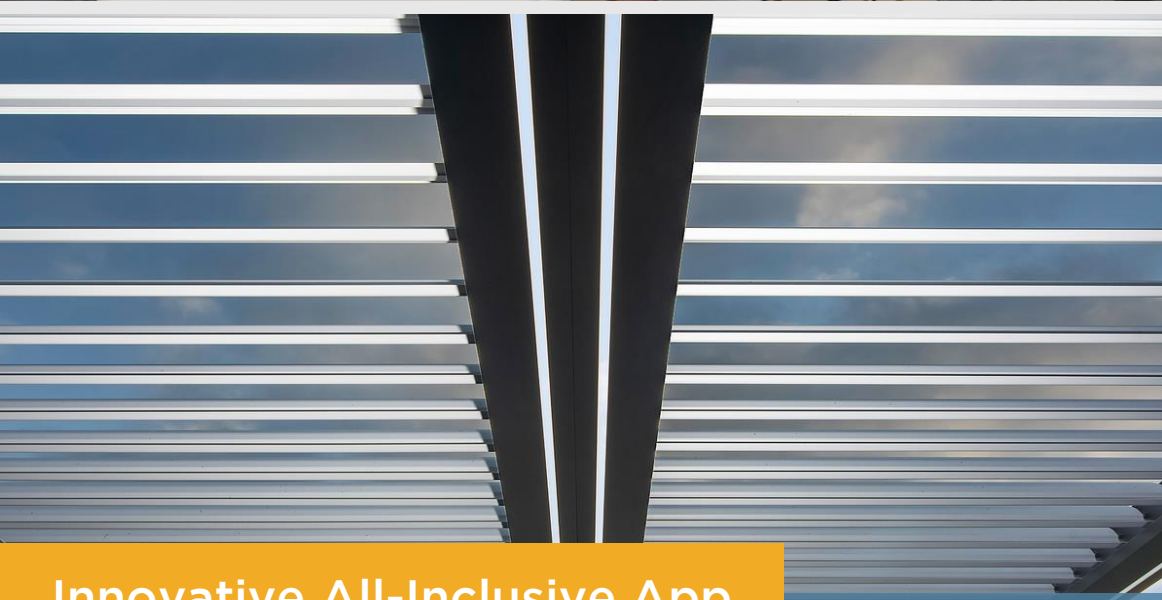

Designer Fans

Our sleek fans, inspired by the golden age of flying, are meticulously integrated with your louvered roof. When temperatures warm, your fan offers a stylish cool breeze. Our designer fans are available in a variety of colors, designed to fit any space, including Graphite Weathered Grey, White or Black Distressed Koa.

Automated Screens

Outdoor Elements motorized screens are controlled with a Somfy smart control. Screens provide privacy, shade and ventilation with elegant and seamless style and function that elevates the architectural style of your space.

Innovative All-Inclusive App

Our all-in-one innovative app controls Louvers, Patented Integrated LED Lighting, Recessed LED Lights, Post Lights and LED Colors RGB. It also schedules the louvers and the lighting.

RAIN SENSOR

WIND SENSOR

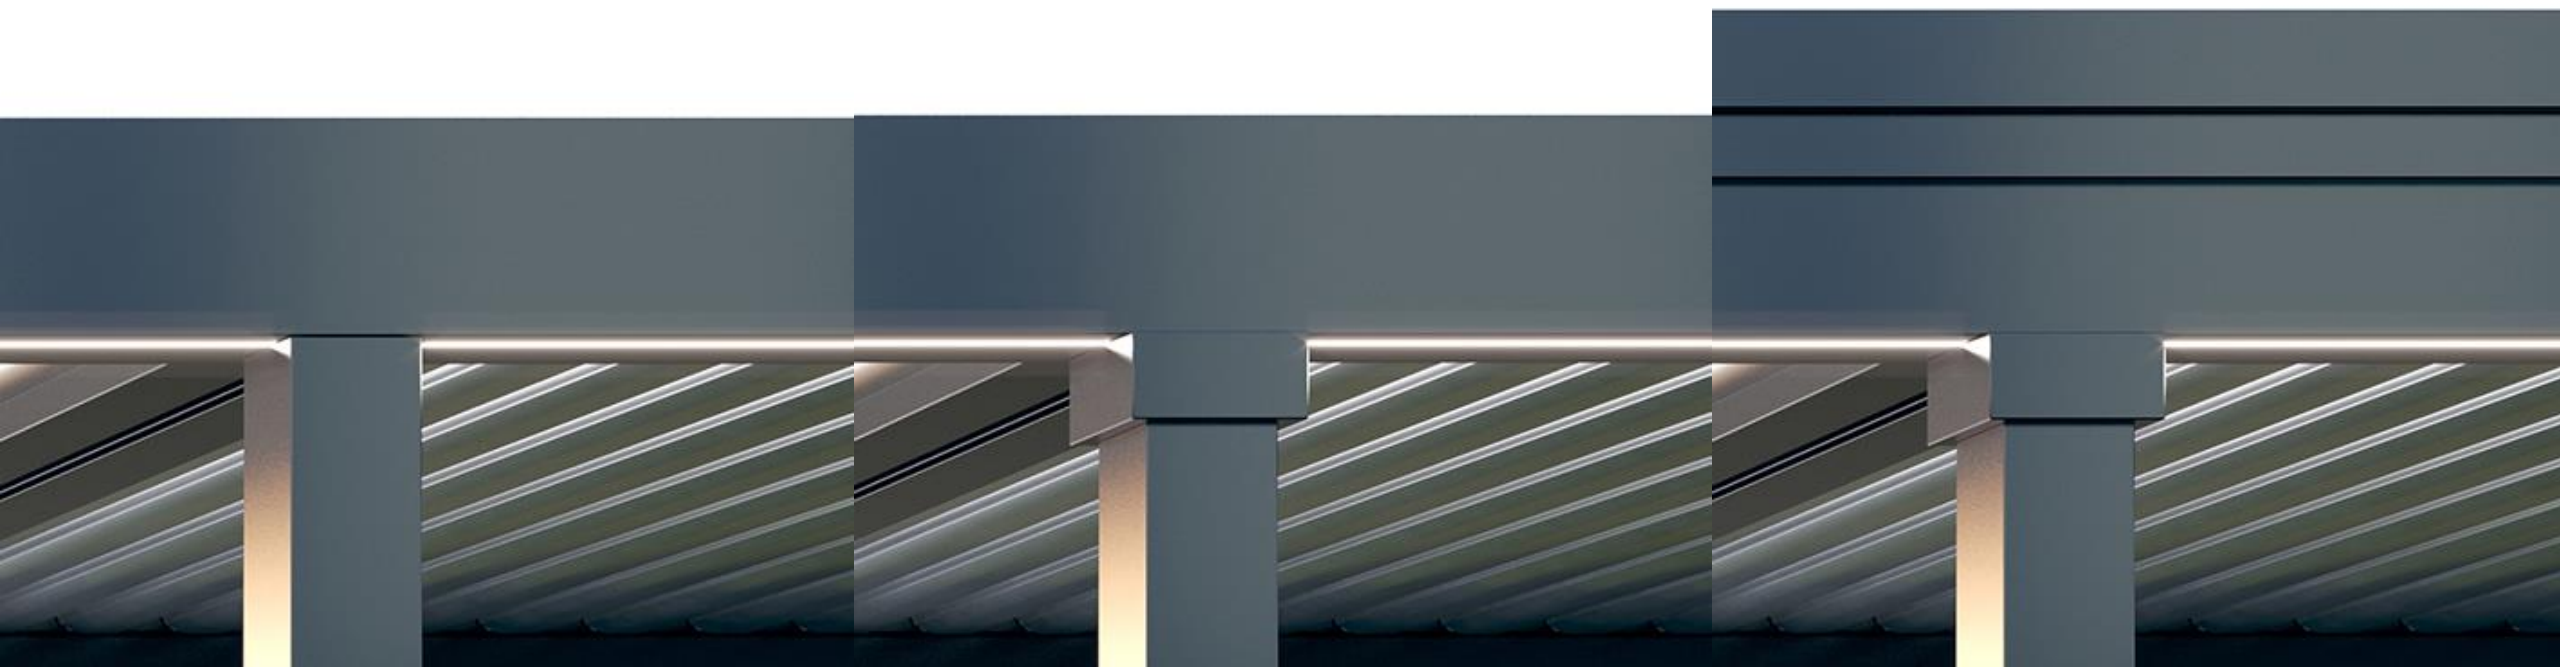

State-of-the-art Sensors and Controls

On demand sun or shade and protection from rain puts you in control of your environment. Rain and wind sensors automatically respond to weather for worry-free, effortless protection of furniture or belongings in your outdoor space.

Corbel Options

Our corbel options can help integrate your lifestyle with the architecture of your outdoor living space or commercial space. Whether your style is contemporary, traditional or transitional, Outdoor Elements has various designs to enhance your outdoor aesthetic.

TRADITIONAL

Classic Colors

From classic shades to custom colors, express your personality in any hue that speaks to you. These neutral classic colors are timeless and can easily be incorporated into any existing or new space.

Designer Colors

We've formulated an exceptional number of thoughtfully created designer colors for you to choose from, along with an array of materials and finishes. You can mix and match the louvers and frame to easily express your personality and match your style.

Sea Coast Package

If you're installing your louvered roof system within three miles of a coastline, consider protecting your investment with Outdoor Elements Sea Coast Package. We first apply a manufacturer's integrated primer to all aluminum components and bake at 400 degrees. We then apply our Super Duty Powder Coast Material and bake for a second time to lock in and cure the material.
