WINDOW SERIES — SLIDING WINDOWS

Aluminum sliding window design is a perfect solution to save the outdoor and indoor space. This is patent product and has been tested under Sai Global's labs. Sliding windows have energy rating accredited by Wers, AWA.

FEATURES

* Characteristics of compact structure
* Good performance in water resistance, heat & sound insulation
* Flyscreen slide way is designed inside and outside to fit window frame
* Design with fin or without fin for different construction structures

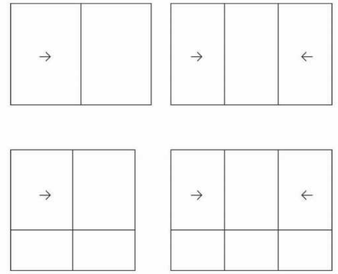

DESCRIPTION

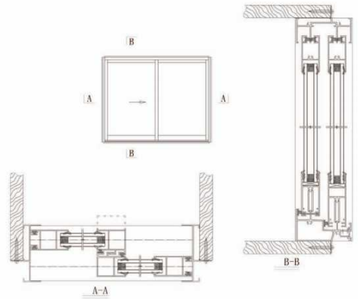

* Profile:Aluminium : FL80 / FL100 ;
  Thermal break aluminium : FLGR80 / FLGR100;
  PVC : 80 / 88 series
* Safety Glass: Double glazed 5-9-5mm ; 5-12-5mm ; 6-12-6mm； 8-9-8mm etc
  ·Single glazed 4/5/6/8/10/12mm etc
  ·Laminated:6.38mm,8.76mm,10.38mm, 10.76mm,12.38mm,12.76mm etc
  ·Low-E,tinted/coated/obscure
* Glass seal: Rubber, silicone, weather proof sealant
* Flyscreen: Fiber glass , crimesafe, aluminum grill with fiber glass
* Hardware: China Brand, Doric, Lockwood, German brand

WINDOW SERIES — AWNING WINDOWS

Awning window is a type of window design that allows the window sash to swing outward rather than inward or up and down. This is self-developed and has been tested under Sai Global's labs. Awning windows have perfect energy rating accredited by Wers AWA.

FEATURES

Excellent performance in water resistance, heat & sound insulation， energy efficient
Characteristics of compact structure, strong structure with angle connector
* Match with winder or handle
Easy-to-clean fixed flyscreens
* Design with fin or without fin for different construction structures
*
*

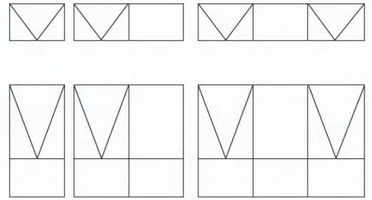

DESCRIPTION

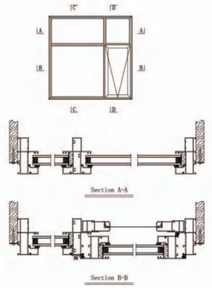

Profile: Aluminum : FL50 / FL80 / FL100 / FL150,
Thermal break aluminium : FLGR65 / FLGR85 / FLGR100 ;
Pvc: 65 / 70 / 76 / 88 series
* Safety Glass: Double glazed
5-12-5mm,6-12-6mm， 12-15-12mm, 6-18-6-18-5mm etc
·Single glazed 4/5/6/8/10/12mm etc
* ·Laminated:6.38mm,8.76mm,10.38mm,10.76mm, 12.38mm,12.76mm etc
·Low-E,tinted/frosted/obscure
·Glass seal: Rubber, silicone, weather proofsealant
·Flyscreen: Fiber glass, soft and thin steel mesh.
·Hardware: China Brand, Doric, Lockwood, German brand

WINDOW SERIES — CASEMENT AND TILT & TURN WINDOWS

Casement / tilt & turn window is a type of window design that allows the window sash to swing outward or inward. This is self-developed and has been tested under Sai Global's、 NAMI 、 CSA labs. Casement / tilt & turn windows have perfect energy rating accredited by Wers AWA 、 NFRC 、 Energy Stare .

FEATURES

* 45° assembly with designed aluminum angle connector inserted
* Design with fin or without fin for different construction structure, more options of installation method
* Custom size and configuration, smart blind is optional
* 0 Air infiltration

DESCRIPTION

* Profile: Aluminum : FL50 / FL80 / FL100 / FL150,
Thermal break aluminium : FLGR65 / FLGR85 / FLGR100 ;
Pvc: 65 / 70 / 76 / 88 series
Aluminum-wood composite：SM78 / SM88
*Safety Glass:
·Double glazed 5-12-5mm,6-12-6mm, 12-15-12mm, 6-18-6-18-5mm etc
·Single glazed 4/5/6/8/10/12mm etc
·Laminated:6.38mm,8.76mm,10.38mm,10.76mm, 12.38mm,12.76mm etc
·Low-E,tinted/frosted/obscure
·Glass seal: Rubber, silicone, weather proofsealant
·Flyscreen: Fiber glass, soft and thin steel mesh.
·Hardware: China Brand, Doric, Lockwood, German brand

DOOR SERIES — BI-FOLD DOORS & WINDOWS

Aluminum bi-fold doors are an efficient way of dividing rooms and separating hallways without wasting space. This is self-developed door has been tested under Sai Global's labs. Bi-fold doors have energy rating accredited by Wers AWA.

FEATURES

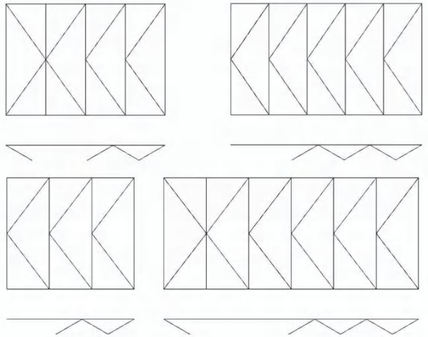

* Smart and delicate appearance
* Low bottom frame: 20mm/38mm height
* Various opening style
* Flexible pushing and pulling
* Characteristics of compact structure
* Good performance in water resistance, heat & sound insulation

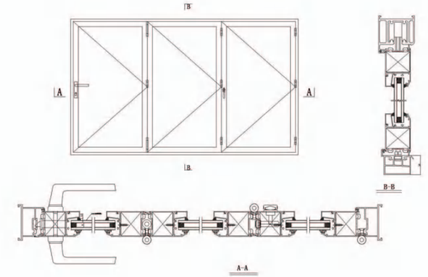

DESCRIPTION

*Profile: Aluminum : FL70 / FL76 / FL100, Thermal break aluminium : FLGR70 / FLGR80 ;
*Safety Glass:
·Double glazed 5-9(or 12 or 18)-5mm etc
·Low-E,tinted/frosted/obscure
*Glass seal: Rubber, silicone, weather proof sealant
*Hardware: China Brand, Doric, Lockwood, German brand

Doors & Windows

COMMERCIAL SERIES — FL150 & FL200 SLIDING DOORS

FL150 & FL200 series sliding door of four tracks is perfect product for commercial projects. It is a new patent door developed by Feilong, stronger than residential series, structure includes subsill and subhead. Can be 2 , 3 , 4 , 6 & 8 panels,etc,with flexible opening methods.

FEATURES

*Characteristics of compact structure
*Excellent performance in water resistance, heat & sound insulation
*Large panel to provide better view
*Flat bottom frame design, can be flush with the floor
*Allow flyscreens and security screens
*Allow acoustic seal for better performance

DESCRIPTION

*Profile: Powder coating aluminium, Colors are optional
*Safety Glass: Double glazed 6-12-6mm, 8.76-12-6mm, 10.38-12-6mm
- •Single glazed: 5mm/6mm/8mm/10mm
- •Laminated: 6.38mm,8.76mm,10.38mm,10.76mm,12.38mm,12.78mm etc
- •Low-E,tinted/frosted/obscure

*Glass seal: Rubber, silicone, weather proof sealant
*Flyscreen: Fiber glass, crimsafe like, aluminum grill with fiber glass
*Hardware: China Brand, Doric, Lockwood
