BUSINESS HEARTBEAT™ MONITORING REPORTS

This integrated reports package empowers contractors with real-time visibility into critical Key Performance Indicators.

ESTIMATES/BUDGETING

Create estimates and budgets efficiently using historical data HBS already knows.

TAKEOFF TOOL FOR ACCURATE ESTIMATION

Supports construction professionals in calculating material needs and project costs with precision.

AUTOMATED DAILY CHECKLIST

Automated daily checklists keep users focused per their responsibilities.

USER ROLES

Custom user roles control what each user can do and their responsibilities.

LEAD TIMES

Built-in custom product lead-times ensures material is ordered on-time.

MODELS + VARIATIONS

Automate project starts with manageable custom models using exclusive model variations.

SCHEDULING

Easily manage your smart project schedule which intelligently updates user checklists.

BID REQUESTS

Quickly request and approve bids from new and existing trade partners.

CHANGE ORDERS

Estimate and manage change orders with easy contract price transparency.

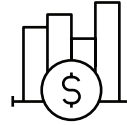

ADVANCED CRM + CUSTOMER PORTAL

Enhances customer + design team collaboration with interior buildout selection tools and streamlined communication.

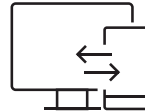

WARRANTY

Manage warranty claims and create work orders in an isolated warranty module.

REAL-TIME REPORTING

A growing library of reports that can be shared and exported in various popular formats.

COMMUNICATION

User comments and automated system notifications keep your team up-to-date 24/7.

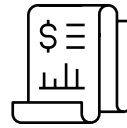

MOBILE APP

Access to documents and maintainable checklists available on almost any connected device.

PURCHASING

Online billing items and P.O. approval process controls scope of work and price-creep.

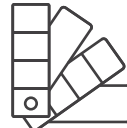

ACCOUNTING

Efficient integration with QuickBooks® both online and desktop.

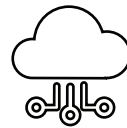

VENDOR PORTAL

Improve communication and accountability with integrated tools for your trade partners.

PROJECT OPTIONS

Add options to projects from your custom library vastly reducing omissions and mistakes.

CLOUD-BASED

Built natively in the Microsoft® cloud for best-in-class security and scalability world-wide.

ONBOARDING

Your personal onboarding specialist will remotely help get your company set up, trained and comfortable (onsite also available).

FREE SUPPORT

Your HBS support team is trained to proactively offer suggestions, as well as react to any concerns.
