SMART STORAGE FOR LEFTOVER PAINT

StopLossBags.com

ABOUT US

Tired of tossing out perfectly good paint because it's gone bad in the can? Every painter and woodworker knows the frustration: metal cans are great for getting paint home, but they're not designed for long-term storing or pouring. That's where StopLossBags® come in. Think of them as the painter's answer to boxed wine.

PRODUCTS

▶ Steward®

Designed to hold and store your leftover paints. A favorite of homeowners and builders alike.

▶ Original StopLossBag®

Loved for over a decade, the original StopLossBag® is perfect for thinner woodworking finishes

▶ Sampler - 6 oz

Great for storing just a bit of leftovers, or for when you want to share finish with friends.

▶ Accessories

Everything extra you may need for your system: Funnels, extra caps and Filler Clips

KEY COMPONENTS

Premium Materials

Unique and durable three-layer design creates an impenetrable barrier, keeping oxygen out and solvents in.

Proprietary Design

Patented design features smooth, rounded shoulders to eliminate trapped air and dual nozzles for lighting-fast fills.

Industry Pioneers

Backed by unrivaled experience and a proven global presence since 2014, StopLossBags® deliver reliable success where people value their paint.
