

The top reasons why National/Regional Home builders, architects and Sub-Contractors are specifying and installing the DBX Dryer Vent Boxes

- Provides a clean, professional and finished look with or without the optional snap on trim ring
- DBX Dryer Vent Boxes are designed to be used for up OR down venting with the same box
- The DBX trim ring eliminates the need to frame around the dryer vent boxes with baseboard
- DBX Dryer Vent Boxes come in a white powder coated finish
- Optional caulking prior to paint
- Reduces construction costs and back end delays on drywall and paint repair
- Up to 2 hour Fire Rated Models for 2x4 & 2x6 framing
- The DBX Dryer Vent Boxes have been tested by UL and QAI Laboratories

DRYER VENT BOXES

DBX DRYER VENT BOXES

The DBX Dryer Vent Boxes provide a simple solution for laundry rooms, offering storage for dryer hoses and allowing dryers to sit flush against the wall. They reduce bends and kinks in the exhaust hose, improving airflow, boosting efficiency, lowering energy costs, and minimizing lint buildup, a known fire hazard.

DBX1017FR

METAL DRYER VENT BOX

The DBX1017FR metal dryer box is a 22 gauge steel powder coated white fire rated dryer box. It is 10" wide by 17" tall. It comes in two sizes 4" (for a 2x4 wall) and 6" (for a 2x6 wall) It has an optional snap on trim ring and can be used for up OR down venting. Designed and tested to meet hour equal F&T fire rating requirement for through penetration fire rated system.

The DBX1000M-4, DBXMB1424 and DBX1017FR (2x4 & 2x6) both meet up to a 2 hour firewall requirement.
