CORE FEATURES

Retail POS

Serve customers quickly

- Expedite retail transactions with streamlined screens
- Onboard new hires quickly with the modern, intuitive interface
- Set up rewards and loyalty programs to encourage repeat business

Contractor Sales

Manage complex, multi-job projects

- Track the entire project from one place with a customizable dashboard
- Link all related transactions for the job, including order/quote entry, contract pricing, and purchasing all the way to picking, dispatch, and invoicing

Inventory Control

Improve inventory accuracy

- Reduce confusion and mistakes with real-time information
- Track inventory at any level across one, some, or all branches
- Maintain accurate records as you grow by seamlessly adding new branches or businesses

Purchasing

Optimize profitability and efficiency

- Handle complex structures, including repricing, special buys, supplier rebates, and contract pricing
- Make smarter buys with predictive purchasing and branch transfers
- Tie special orders directly to sales orders for better tracking

Accounting & Reporting

Make smart decisions with better information

- Ensure accurate financial data with fully integrated, direct posting (A/R, A/P, G/L)
- Handle financials for even the most complex multi-branch/multi-company organizations with user-friendly tools
- Find answers with point-and-click drill-down tools and reports
- Get a birds-eye view of your business with the management dashboard
- Manage dispatch and delivery with drag-and-drop

EDI & Catalog Integrations

Connect directly to your buying group

- Ensure you have up-to-date product and pricing information
- Simplify product changes or the addition of new products
- Ensure promptness by automating transactions
- Save time and avoid human error from manual data entry
- Reduce paper usage by switching to digital transactions

Integrations & APIs

Connect to the tools your business needs

- Streamline operations by integrating with essential business tools
- Ensure data accuracy and consistency across all departments
- Continue to innovate by easily integrating with new solutions that come on the market
