

Let's show the world what we can do

together.

Building a Better World for All of Us®

Engineers | Architects | Planners | Scientists

WHAT WE DO

Day by day. Project by project.

Together with clients, SEH is simplifying the world's complex challenges by improving mobility, designing better places, engineering clean water, and renewing infrastructure. It's how we're Building a Better World for All of Us®.

Better Places

Designing places, parks, and buildings that bring the world together.

Better buildings, better parks, better developments. At SEH, we're planning and designing sustainable places that improve work, business, life, and the world.

Featured services:

- Architecture and Building Design*
- Land Development*
- Landscape Architecture*
- Lighting*
- Mechanical/Electrical*
- Planning and Urban Design*
- Structural*

Clean Water

Engineering solutions for the world's most vital resource.

From drinking water to wastewater to water resources, SEH experts help preserve this resource by renewing, reusing, storing, and distributing water at every stage of its lifecycle.

Featured services:

- Drinking Water*
- Stormwater Engineering*
- Wastewater Engineering*
- Water Resources*

Infrastructure Renewal

Improving the infrastructure that makes everyday life possible.

Renewing, replacing, and managing infrastructure assets help communities. Designing and maintaining public utilities, repairing water mains, and telecommunications design and operation are just some of the projects that keep our world operating.

Featured services:

- Construction Administration*
- Land Survey Services*
- Flood Risk Mitigation*
- Site Development*
- Trenchless Technology*
- Utility Design*

Mobility

Transportation solutions that keep people and goods moving safely and efficiently.

Project by project, from complex interchanges and roundabouts to rural highways and airports – it's important to keep people and goods moving safely and efficiently.

Featured services:

- Airport Planning and Design*
- Construction Services*
- Environmental Services*
- Highway Design*
- Land Survey*
- Rail Design Services*
- Traffic Engineering*
- Transportation Planning*

How we work

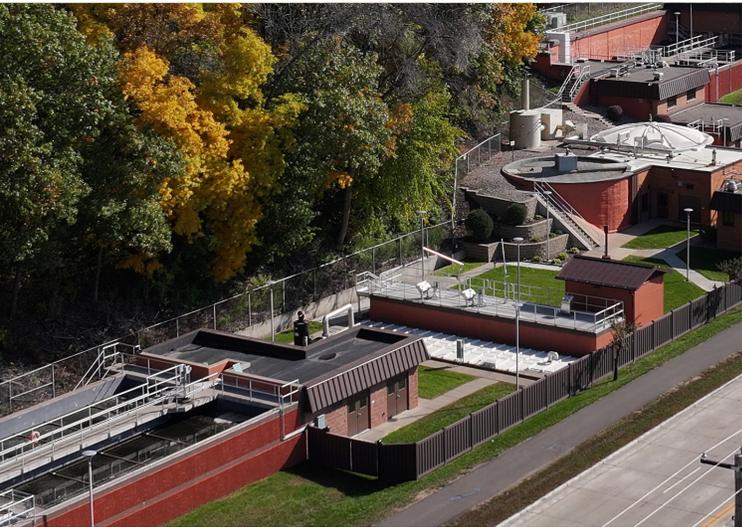

It starts with teamwork and communication. From there, the right partnerships are born. Through engaging stakeholders, cost management, and resource appropriation, we work together with you to make good things happen.

Solutions from start to finish

At SEH, our integrated teams of engineers, architects, planners, and scientists facilitate projects large and small – from funding through planning, design, and construction.

Your single source for success

Whether you're a governmental organization, a public enterprise, or a private company, SEH is your single source for success. We collaborate across disciplines to deliver groundbreaking projects.

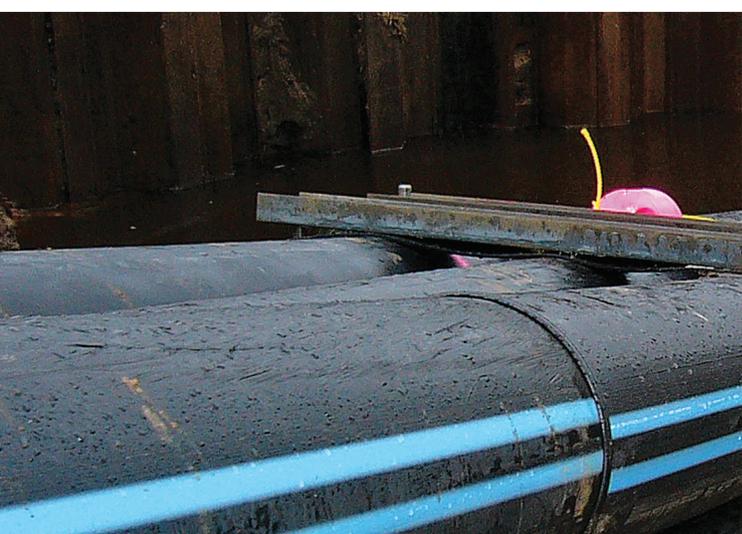

A responsive teammate

Every project takes a team. At SEH, we partner with other companies in a variety of ways. Whether in a leading role or as a subconsultant, we're there.

Projects delivered your way

From traditional design-bid-build to design-build to other project delivery methods, at SEH, our design and construction teams can help you manage speed of delivery, budget, and risk.

“Whether it’s designing more efficient flood management systems or improving water quality, the impact we can make is tangible and meaningful.”

Riley Mondloch, PE, CFM (IN, MN, NV, KY, TN, WI)
Water Resources Engineer

“For us, it all starts with relationships. We’re partners with our clients. We trust each other. It’s those bonds that carry successful projects forward.”

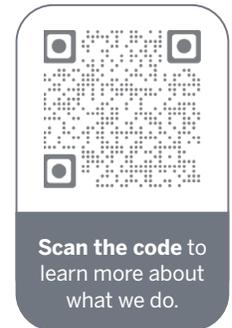

Lindsey Roberts McKenzie, PE (MN, ND, NE, SD)
Principal / Project Manager

Clients

- Commercial/Industrial
- Food and Beverage
- Manufacturing
- Mining
- Oil and Gas
- Counties
- Developers
- Federal Agencies
- Municipalities
- Regional Agencies
- State Agencies
- Tribal Nations

Expertise

- Better Places
- Clean Water
- Infrastructure Renewal
- Mobility

About us

We’re engineers, architects, planners, and scientists. Our 900-plus employee-owners share a common purpose: Building a Better World for All of Us®. SEH started as a one-person operation in 1927. Since, it has become a nationally recognized architectural and engineering company.

Culture

At SEH, it all starts with our clients. It starts with a smile. With respect. With an understanding. And it shows in the work that we do. In the relationships we create and keep. It shows in the solutions we design for our clients. SEH is 100 % employee-owned. When you shake the hand of an SEH employee-owner, you connect with someone who holds themselves accountable and is personally vested in the success of your project.

Where we work

Headquartered in St. Paul, Minnesota, with offices across country, you’ll find our clients and evidence of our work in nearly every US state and many Canadian provinces.
