REAL SLATE, REAL SIMPLE

REAL SLATE

READYSLATE® is the first pre-assembled real slate roofing system. It has been developed and patented by **CUPA GROUP**, a company which has been synonymous with the finest real slate solutions since 1892.

Backed by a legacy of craftsmanship unmatched in the industry, **CUPA GROUP** is at the forefront of roofing innovation. An environmentally-conscious, carbon neutral company with unparalleled expertise in the art of slate extraction and processing.

Readyslate redefines the possibilities of real slate roofing, marrying time-honored craftsmanship with modern technology.

**from ROCK
»to ROOF**

Slate is a rock crafted by nature over millions of years and finds its best expression in Spain, where we have our own quarries. Readyslate represents a harmonious fusion of nature's timeless beauty and cutting-edge innovation.

Each slate is meticulously split by hand, a testament to the expertise and dedication of our artisans. It is this artisanal touch that embodies every piece with a unique character, making each roof a masterpiece of natural artistry.

Readyslate has been specially designed to meet modern roofing requirements while showcasing the inherent elegance of real slate, allowing homeowners and professionals around the world to experience its allure firsthand.

INNOVATIVE SYSTEM

Roofing contractors who are unfamiliar with traditionally installed slate are often apprehensive to install the product due to the labor-intensive nature and specialized skill required for installation. With Readyslate, these concerns become a thing of the past.

So, how does Readyslate make real slate roofing, real simple?

Lightweight

At **under 6 lbs per SF**, it allows real slate to be installed on homes constructed to standard residential framing standards. Why settle for plastic alternatives when you can have the real thing?.

Easy to install

Panelized to combine both simplicity and efficiency, empowering contractors to master the art of the slate roof.

Durability

With the **highest impact rating available (Class 4)**, it pairs strength with the unparalleled endurance of natural slate.

Non-fading

Spanish slate is known throughout the industry for its **non-fading qualities**. Its enduring hue never fades, ensuring lasting beauty for generations.

Timeless beauty

Each piece of slate has unique character and beauty that has defied the many attempts at replication. This makes each roof truly '**one of a kind**'.

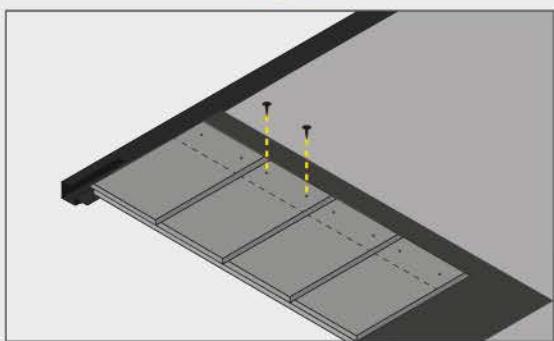

Increases home value

Selecting real slate for your home not only **extends the lifespan of your roof** but also **elevates its curb appeal**, and adds to the property value

REAL SIMPLE

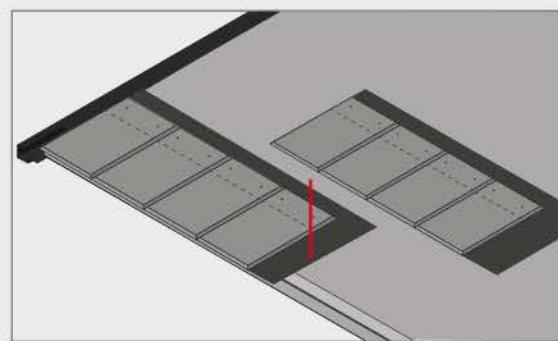

Readyslate eliminates many of the difficulties associated with traditionally installed slate by greatly simplifying the structural requirements and speeding up the installation time by up to 300%. Forget about complex procedures, specialty tools and additional structural requirements, **Readyslate works with standard framing, tools, and accessories.**

1

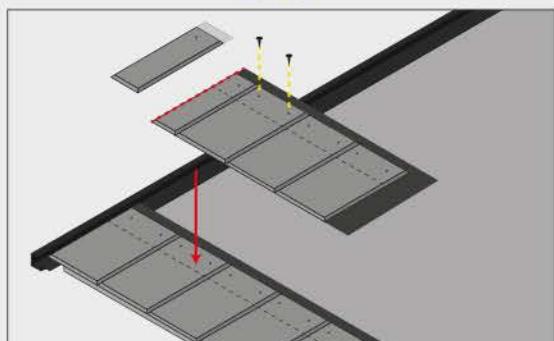

READYSLATE® is easily installed with nails. All individual slate tiles are predrilled to simplify the installation process.

2

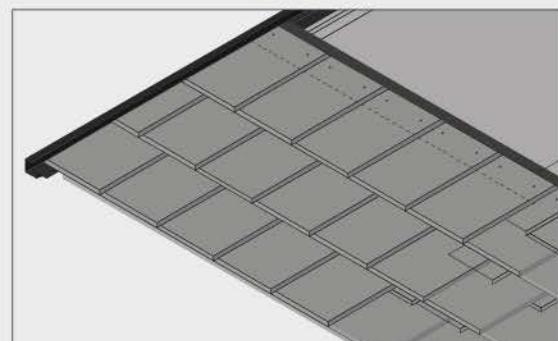

READYSLATE® modular design makes laying slate tiles a breeze. Aligning modules is even easier; just cover the spare area on the waterproof sheet.

3

READYSLATE® slate tiles are marked with an overlapping line to ensure all modules are easily and correctly laid.

4

Easily adapt modules to any roof element to complete your own waterproof, resistant and eco-friendly natural slate roof.

ROOFING COVERAGE

3.23 sqft/panel

12.92 sqft/box

NAILING SCHEDULE

3.75 nails/sqft

60 nails/box

10 gauge, 1.5" copper or stainless steel nails

Valleys, ridge, hips: READYSLATE® can be combined with most of flashings and waterproofing solutions.

**Please consult our step-by-step installation instructions for more information.*

TESTIMONIAL

Nestled just steps from the tranquil shores of the lake, this stunning home blends timeless charm with modern luxury. Recently updated with **READYSLATE®**, the residence exudes elegance and durability, perfectly complementing its natural surroundings. This lakeside retreat is the perfect blend of beauty, comfort, and refined craftsmanship.

This decision not only added to the unique stature of their one-of-a-kind home but ensures that the roof will endure for years to come.

READYSLATE'S DIFFERENTIATION FROM OTHER
PRODUCTS IS THE CHARACTER IT ADDS TO THE HOME.
YOU CANNOT GET THAT ANYWHERE ELSE.
IT IS SO OBVIOUS THAT IT'S NATURAL
