

### **Product Features**

ECO- ECONOMIC FRIENDLY EFFICIENCY

EXCEPTIONAL AESTHETIC FUNCTIONALITY VERSATILITY

Low Installation Cost
Lower Maintenance Cost
Excellent workability

Water Resistance

Corrosion Resistance

Tailored Design
Customizable Size
Made-to-Order Design

## Test Results / Non-combustibility Test (Tested by Korea Test & Research Institute)

#### SHINWOONG-USA

Direct transfer printing technology (semipermanent product)

No toxic gas emitted in case of fire

Eco-friendly product with no toxic substances

Registered PCT patents in South Korea

#### Company A and B

Adhesives are used to attach the design to the board

Toxic gases are generated during a fire, increasing the risk to human life

Detection of various harmful substances

Over time, the design film detaches from the board

TEST ITEM	SHINWOONG_USA	Company A	Company B	Unit
Volatile Organic Compounds	0 (none)	0.30	0.31	g/L
Radon Emissions (7 days)	16.5	198	168	Bg/m3
Tensile Strength	7.0	4.0	5.0	Мра
Density	1.3	0.7	0.8	Gm/L
Percussion	5.7	2.0	3.0	Ki/m2
Non-Combustibility	Complete Non-Combustible	Semi-Non- Combustible	Semi-Non- Combustible	К

### **Pattern Collection**

The patterns below are samples, with more styles and custom designs available upon request

### **Versatile Safety Board Applications**

Perfect for commercial, residential, and public facilities, we offer versatile solutions for interior and exterior wall design

# SHIN WOONG Safety Board

"Our mission is to create safer, healthier living environments where people are free from concerns about safety and well-being —empowered by our innovative, environmentally conscious building solutions."
