

EXPERTS IN SUN PROTECTION SYSTEMS

We endeavour to create products that add value to everyday life and contribute to people's well-being both at home and in the workplace. In every design and manufacturing process, we commit to merging innovation, functionality, and aesthetics to anticipate the ever-evolving needs of our customers.

**SPECIALISTS
IN QUALITY SUN
PROTECTION
SYSTEMS**

LLAZA®

We are a brand dedicated to the design, manufacturing, and commercialization of quality sun protection systems and accessories. That's why we manufacture awnings and pergolas that protect facades, terraces, and gardens with the highest quality standards.

We believe in managing solar energy according to the needs of each project to make a life with greater comfort and safety possible.

Since its creation in 1964, the LLAZA brand has been marketing its products in more than 60 countries.

The experience gained over more than 60 years designing and manufacturing awning systems provides LLAZA with high levels of specialization, rigor, and knowledge of the different markets in which our products are installed.

This long history and consolidated internationalization demonstrate LLAZA's leadership in the solar protection sector. Leadership that is manifested in three main lines:

- INNOVATION
- QUALITY
- MARKET DEVELOPMENT

LLAZA[®]

WE BUILD OUR FUTURE BASED ON OUR VALUES

We believe in actions that day by day lead us to strive for excellence as a work habit. This way of doing things reflects the personality of a human team that constitutes the key value of our company.

• VISION

A family business with a very clear vision: To be the technological industrial reference worldwide for sun protection projects.

• MISSION

To integrate with our customers and suppliers an efficient business model that provides sustainable solutions that bring comfort to people, save energy, and protect our planet.

• VALUES

Creativity, Teamwork, Innovation, Sustainability, and Excellence. These values are the basis of our culture and guide every aspect of our business.

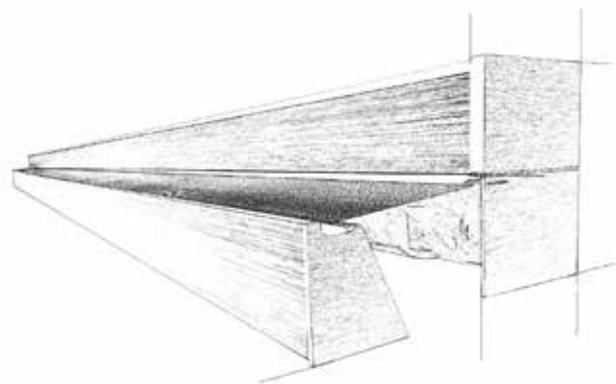

PRODUCTS THAT INSPIRE BOTH INSIDE AND OUT

We are passionate about creating proposals that seamlessly integrate into their surroundings, providing solar protection tailored to the individual preferences of the consumer. The constant pursuit of excellence in design, efficient functionality, and unwavering commitment to quality are the cornerstones that guide our development process, encompassing a wide variety of innovative solutions aimed at meeting the needs of those who enjoy our awnings and outdoor living products.

At LLAZA, we not only recognize the importance of this responsibility, but we also dedicate ourselves diligently to providing a close, trustworthy, and professional service. We strive to support our customers by offering them highly reliable products that satisfy both in their inner essence and external appearance, backed by compliance with strict European regulations.

RESEARCH, DEVELOPMENT, AND INNOVATION (R&D&I)

Our innovative spirit, combined with extensive experience, has generated a broad accumulated knowledge that translates into the possession of numerous patents and utility models registered under the LLAZA brand.

- **LLAZA ENGINEERING SERVICE**

This B2B-oriented service offers the opportunity to collaborate with the technical team of LLAZA WORLD, S.A. in the development of high-value-added projects.

- **CUTTING-EDGE TECHNOLOGY**

The technical division of LLAZA employs state-of-the-art equipment for the creation of new products and the rapid elaboration of prototypes. These technologies include 3D simulation, stereolithography, finite element resistance analysis, among others.

WE DEVELOP

INNOVATIVE PROJECTS

THAT PROVIDE BETTER

SOLUTIONS TO THE SECTOR

The LLAZA WORLD technological center in Alcover embodies our dedication to sun protection.

With cutting-edge equipment and complete vertical integration of operations, it stands as a hallmark of collaboration with our suppliers.

This is the basis of a value chain that provides competitive solutions with the highest quality standards.

- Durometers
- Profile projector
- Microscope
- Colorimeter
- Gauges
- Wind resistance control for classification according to UNE EN 13561

LLAZA[®]

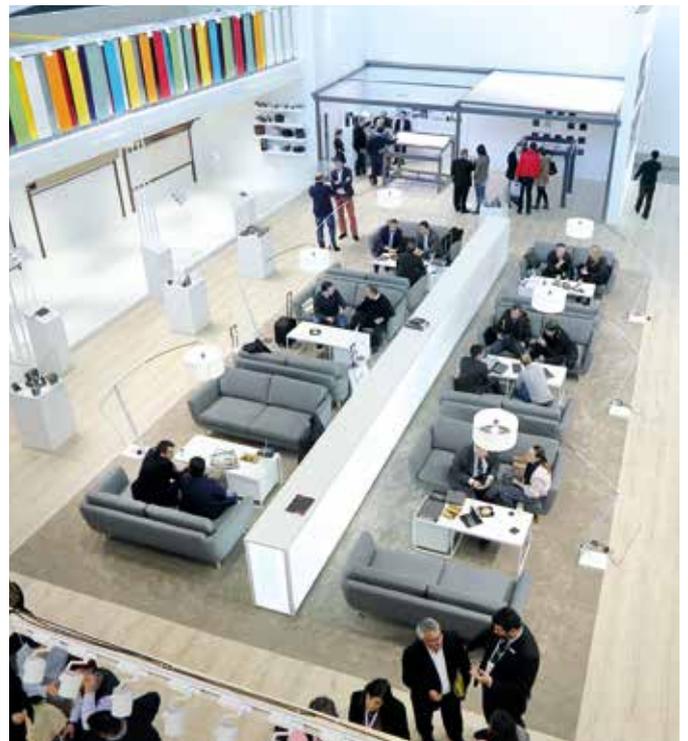

EXPERIENCE AND INTERNATIONALITY

With six decades dedicated to the design and production of awning systems, LLAZA has accumulated a wealth of expertise and precision, serving over sixty countries worldwide.

Our steadfast commitment to international standards of excellence has firmly positioned our brand as a global leader in the industry.

LLAZA consolidates this international presence by participating in the main events in the sector and expanding a distribution chain based on trust between the companies that make it up.

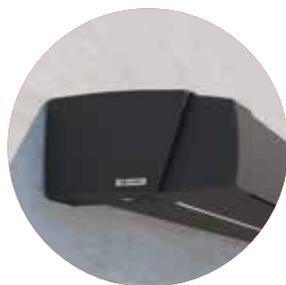

SPECIALISTS IN RETRACTABLE ARMS AND CASSETTE AWNING SYSTEMS

Within the wide product portfolio, we are highly specialized in the development and manufacture of retractable arms and cassette awning systems. The industry has positioned us as global leaders in these highly technologically advanced products.

Looking to the future, we anticipate trends by researching new materials, drives, finishes, etc.

HABITAT LLAZA

The art of outdoor living

Currently, LLAZA products are marketed in more than 60 countries on five continents. This global expansion has driven us to provide cutting-edge solutions for outdoor spaces, characterized by innovative design and unparalleled comfort. As a result, we've introduced the HABITAT LLAZA brand, which encompasses a wide range of outdoor living products.

This range consists of a careful selection of louvered pergolas, retractable pergolas, perimeter enclosures, and roof systems.

The diversity of HABITAT LLAZA proposals guarantees the ideal protection for every need.

We design, build, and create all kinds of solutions in aluminium and glass for gardens, terraces, patios, and balconies.

LLAZA[®]

CUSTOMER-CENTRIC APPROACH

The companies in our client portfolio are a great asset acquired day by day by earning their trust. Therefore, we continuously strive to provide them with the best service by:

- Ensuring an excellent service rate.
- Precise handling of goods with fully computerized warehouses that guarantee the application of FIFO service discipline.
- Implementing improvements rapidly thanks to our ERP.
- Exercising exhaustive control and monitoring of the highest quality levels.
- Providing tools that allow them to stand out and make a difference from their competitors.
