With precise cutting blade, two ends of per piece of product will be flat. They won't be sinuate.

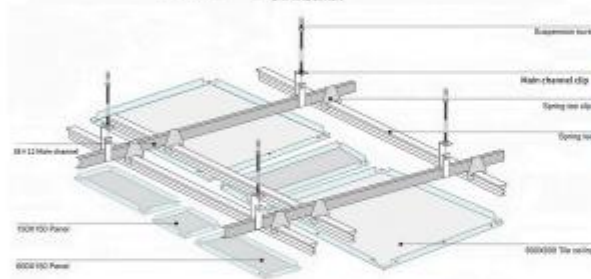

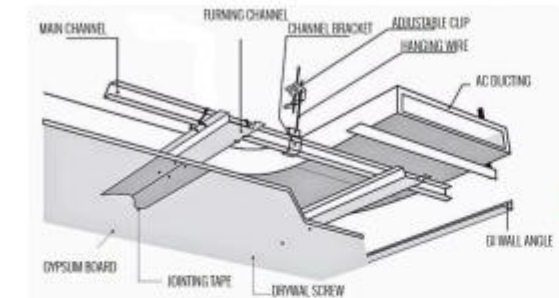

Warehouse Corner

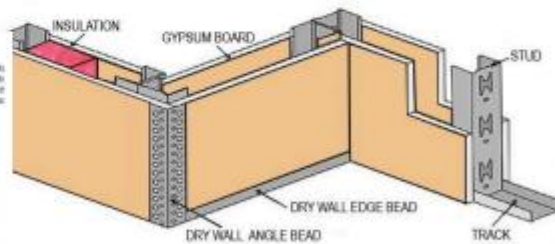

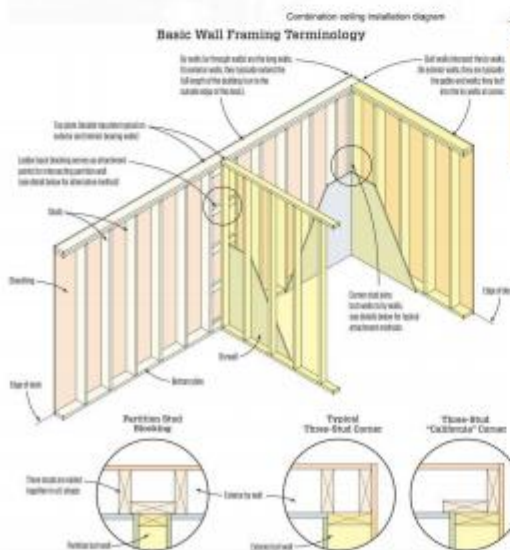

Our plant is around 2,000 square meters, it is enable to place over 40 containers cargo.

Metal Ceiling System Installation and Drywall Partition System Installation

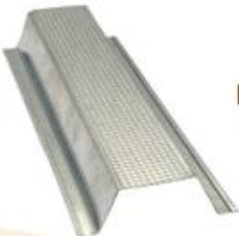

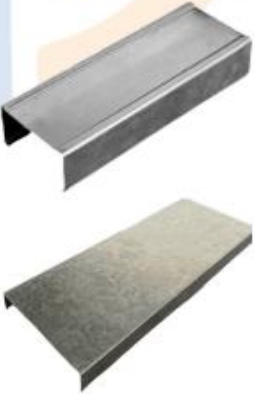

Metal ceiling systems can meet the latest seismic, acoustic, hygiene and fire requirements.

Drywall partition system is widely used in offices and residential building for its easiness of installation. Compared with bulky brick wall, it can greatly reduce the weight of building.
