ULTRA HZ WINE PEGS | MATTE BLACK

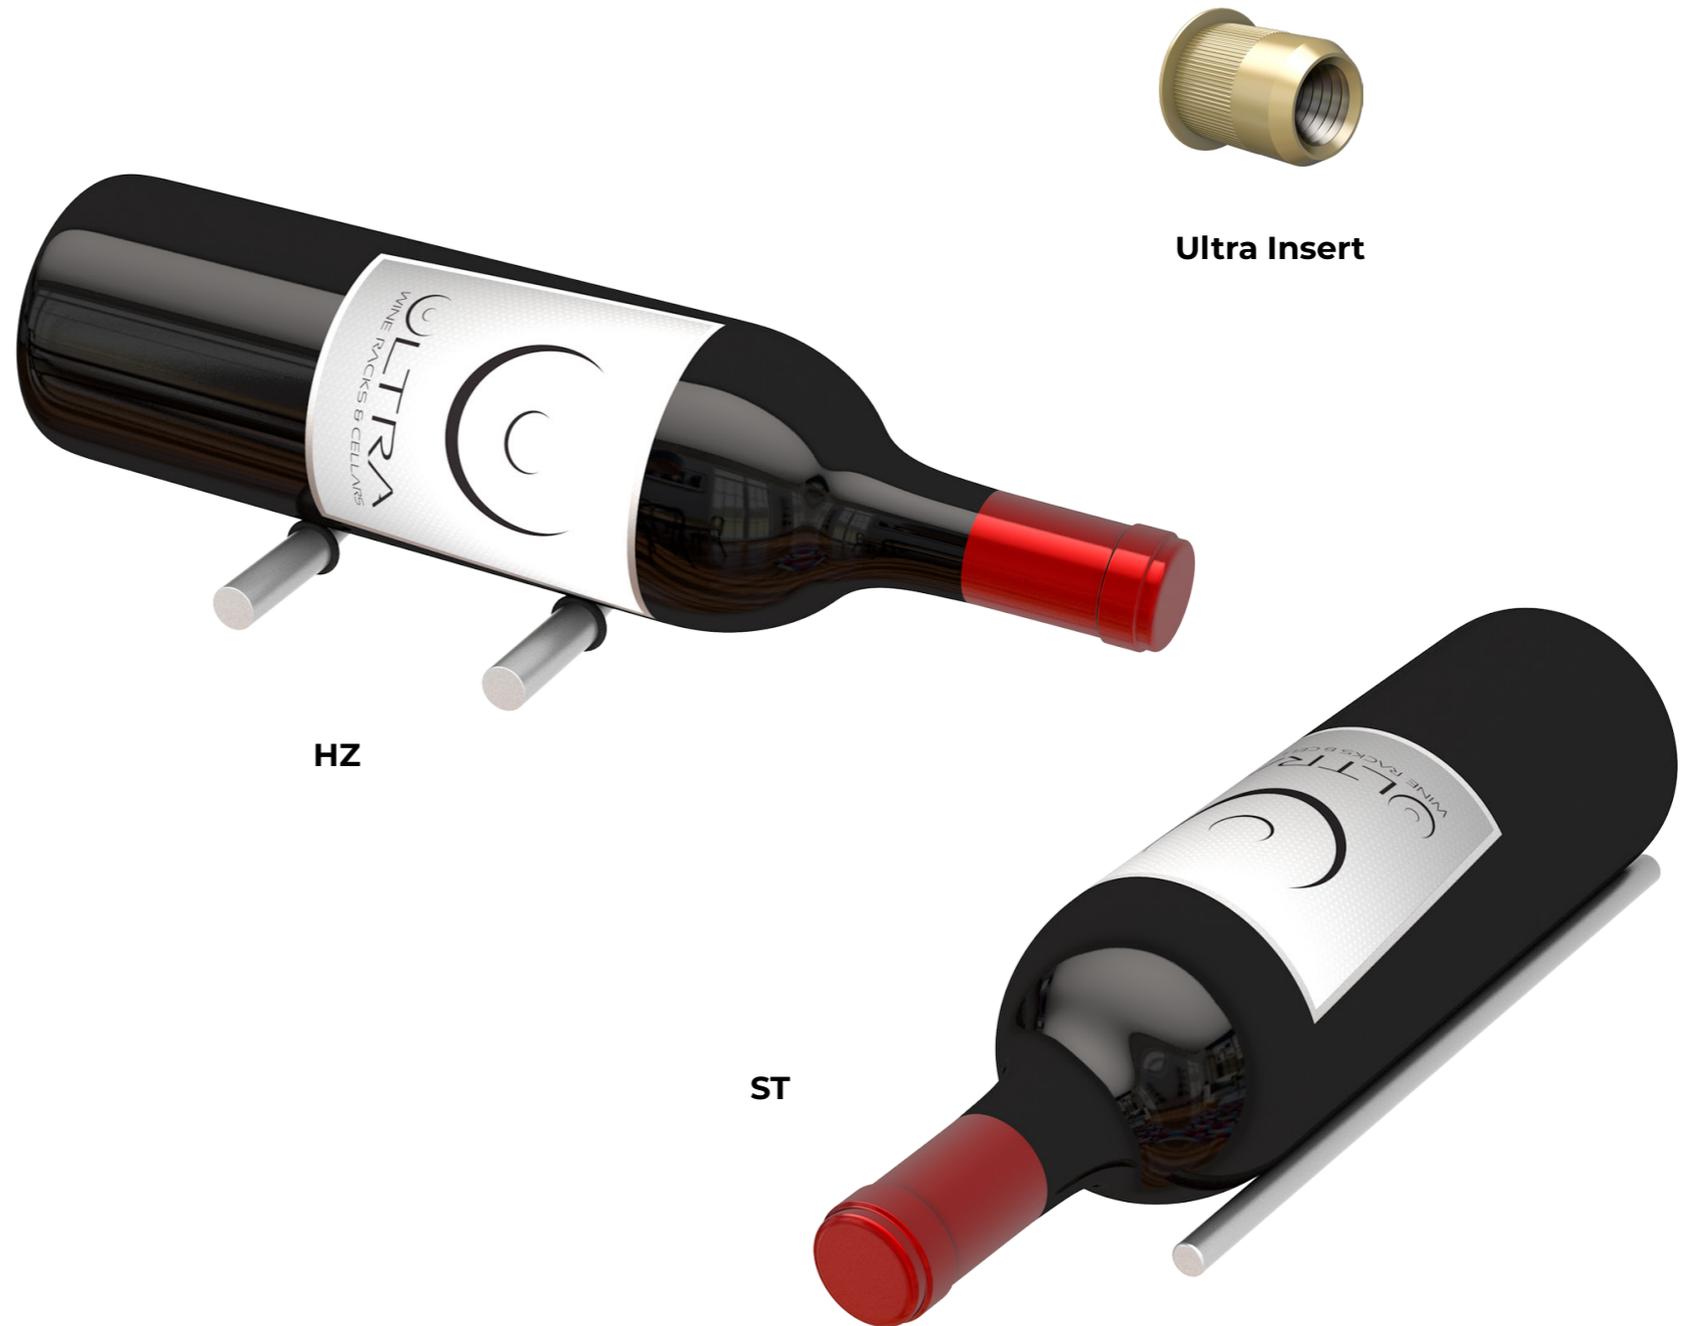

ULTRA

WINE PEGS

These metal wine rack pegs hold bottles in a horizontal, label-out configuration (HZ) or in a straight, cork-out configuration (ST). HZ allows you to see the labels of your bottles without picking up, handling, or disturbing your valuable collection. ST wine rack pegs hold bottles in a cork-out configuration, allowing you to store a greater number of bottles in a confined area.

If you plan on installing the wine pegs into a wooden panel, we highly recommend the use of our Ultra Insert to install the pegs. Therefore, if you plan on installing the wine pegs without the Ultra Insert, you must be able to access the back of the panels to screw them on.

*CAD blocks available

ST and HZ Wine PEGs are available in Matte Black and Brushed Aluminum, and HZ PEGs are available in three depth configurations – Single, Double, and Triple Deep.

ULTRA

FLOOR-TO-CEILING

These metal wall wine racks are perfect for displaying your wine collection and preserving the walls of your cellar. These are useful for cellars that incorporate stone, marble, or reclaimed wood as a material for their walls.

Whether you are looking to maximize the storage of your wine collection or want to create an aesthetic room divider in your home or restaurant, Floor-to-Ceiling wine racks are sure to fit your needs.

FUSION

The Fusion Wine Wall was created to shorten installation times, and reduce the costs typically associated with large custom wine wall panels. We offer two styles: Label-Out (HZ) & Cork-Out (ST) Wine Walls. The Fusion ST Cork Out Wine Wall will maximize your storage capacity, while our Fusion Label Out (HZ) Wine Wall showcases your labels.

The minimalist design profile and sturdy metal construction compliments modern wine cellar design and modern architecture. For easy access, maximized storage space, and infinite design possibilities, Ultra Wine Walls are a perfect fit for your wine cellar.
