Inside the Experience

Key Features

- **Adaptive Base:** Grand foundation engineered to anchor any terrain, slope, or landscape.
- **Resilient Shell:** Over 60 m² of double glazed glass, engineered to endure every extreme.
- **Natural Light:** Panoramic double glazed facade flooding the interior with natural light
- **Rapid Setup:** Precision engineered modular assembly, built for speed, minimal impact.

Diamond

Bold architectural structure defined by generous volume and crystalline precision, featuring over 60 m² (650 sq ft) of double-glazed glass that floods the interior with light and opens panoramic views to the surrounding landscape. Shaped by Zome-derived ribs and angles, it balances strength, elegance where the boundary between inside and outside dissolves.

Material used: Sustainably sourced FSC Certified wood, recycled materials, aluminum, high performance glass

Placement options: Beach, mountain, backyard, rooftop, desert, coastal area
