ENDUREED® IS INTERNATIONALLY RECOGNIZED
AND TRUSTED BY NOTABLE CUSTOMERS

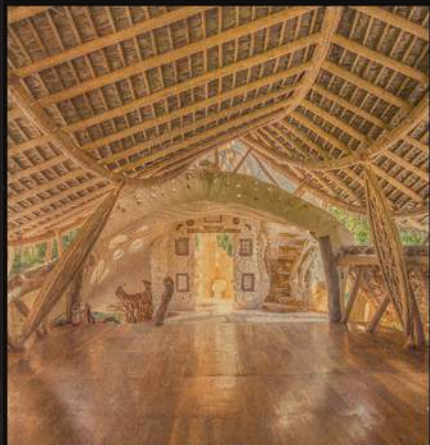

SIMPLE, AFFORDABLE PALM THATCH

Elevate any project with VIVA® engineered palm thatch, designed to showcase the beauty of natural palm leaves. Easy to install and available in two unique styles and colors, it combines elegance and durability for versatile use, from backyard tiki huts to luxury resorts. Often imitated but never matched, VIVA® is built for lasting strength, withstanding UV rays, fire, and harsh weather for unparalleled performance over time. Backed by a 20-year guarantee, VIVA® makes it easy to bring tropical beauty to any space.

THE PREMIUM COLLECTION™

The unmatched quality and refinement in this product collection are the result of decades of collaboration with some of the world's most creative minds. Designed to evoke the textures and charm of faraway destinations, this highly customizable product suite remains the global gold standard for engineered thatch roofing.

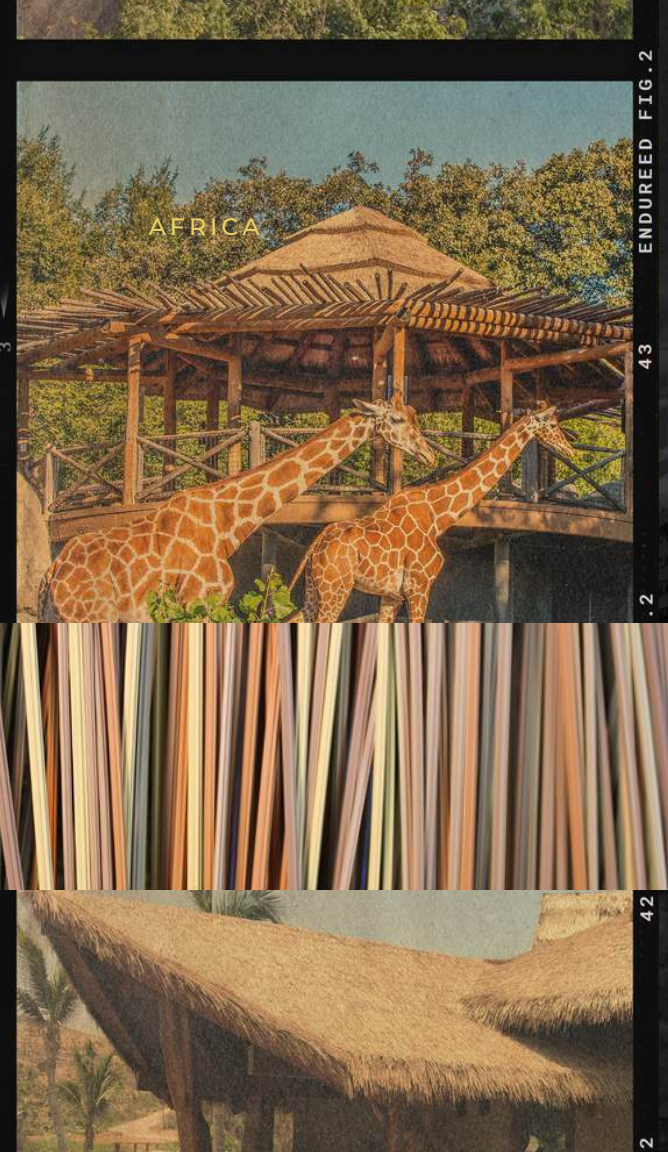

ENGINEERED THATCH
ROOFING SPECIALISTS

CAPETOWN

This loosely trimmed, coarsely textured reed replicates the beautiful appearance of African yellow grass thatch. A unique color blend mimics the rust, gray and yellow hues of the native grass, capturing the authentic style of South African thatching.

KILIMANJARO

Capture the breathtaking beauty of Tanzania and create your own African-inspired thatch roof. With a coarse reed texture and stunning color blend, Kilimanjaro is the ideal material for recreating a traditional weathered African Cape reed roof.

PACIFIC ISLANDS

Inspired by the exquisite allure of traditional Hawaiian Pili grass, Kona replicates traditional island-style thatching. Crafted with a unique blend of wide leaves and smaller grass reeds, This thoughtfully constructed material creates a beautifully textured, thick, and tropical look.

SOMERSET

The original, first-of-its-kind design, and a timeless favorite, this charming thatch beautifully echoes the historic style found across Europe. With a closely tapered shingle and a slightly weathered color palette, it mirrors the traditional, hand-trimmed European thatching, offering both authenticity and enduring appeal.

BALI

Designed to mimic the stunning beauty of Alang-Alang grass thatching, this uniquely crafted product combines varied reed sizes and vibrant colors. Designed for a traditional Balinese look, it is often installed with thick, bold hips corner designs and flowing eaves for a truly captivating roofline.

DOMINICA

Created to capture the beauty of natural palm leaf thatching, Dominica is inspired by traditional rustic Caribbean roofs. With varied hues of soft brown and olive-green, this long-time favorite brings the authentic tropical charm of palm leaf thatching to life.
