Wayne Dalton Introduces Modern Metallic Finish Options to the All-New Classic Steel Model 8350

New finishes offer homeowners sleek, modern garage door designs with lasting performance

November 20, 2024 - Wayne Dalton, a leading manufacturer of residential and commercial dock & door solutions, has launched three new metallic finish options for its Classic Steel Collection with the new Model 8350. Available in Black Frost, Silver and Bronze, these Modern Metallic finishes provide homeowners with expanded design possibilities and a durable, attractive solution that enhances the overall look of contemporary homes.

"The new Modern Metallic finishes are a game-changer for homeowners looking to boost their curb appeal and resale value with a unique yet upscale look," said Chris Williams, Wayne Dalton® Product Manager. "This new sleek offering not only looks stunning but also provides homeowners with the unbeatable durability and low maintenance of steel – giving customers even more ways to customize their garage doors to suit their aesthetic and functional needs."

The new metallic finishes, with their smooth, non-textured surfaces, exude high-end quality. They are designed for durability and low maintenance and feature a robust paint formulation that helps prevent scratches.

Homeowners can further personalize Model 8350 by choosing from various window styles, including Clear Long, Clear Short, Narrow and Double Narrow windows. Additionally,

the Modern Metallic finishes are available with wind load options, ensuring they meet stringent safety and durability standards for homes in areas prone to severe weather conditions.
