ABOUT US

Sauder Building Products is a trusted name in the building materials industry, offering solutions through three distinct divisions: Sauder Cabinetry, specializing in affordable cabinetry for multi-family and residential projects; Sauder Closets, delivering innovative and customizable closet systems; and Sauder Supply, providing high-quality components for cabinetry manufacturers.

Sauder Building Products has been making furniture in Archbold, Ohio for over 85 years. Sauder is a third-generation, family-owned company that was founded on the principles of stewardship and servanthood. Three generations later, the company continues to honor these values with environmentally responsible processes that endeavor to preserve the future of our world. With some of the most technologically advanced equipment in the world, their facility features nearly 4 million square feet of manufacturing space, 1.2 million square feet of warehouse space and employs about 2,000 workers.

WHAT'S NEW FROM SAUDER BUILDING PRODUCTS AT IBS 2025

ARCHBOLD, OH, (February 25, 2025) — Sauder Building Products, a leader in cabinetry, closet systems and component manufacturing, is set to make a bold statement at the International Builders' Show (IBS) 2025 in Las Vegas this February. With an expanded 60' x 20' booth, Sauder will showcase innovative products from its three divisions — Sauder Cabinetry, Sauder Closets, and Sauder Supply — offering attendees a comprehensive look at its latest solutions for home and multifamily projects.

Sauder Cabinetry: Expanding the Evolve Line

Building on the success of the Evolve line of cabinetry, which debuted at IBS 2024, Sauder Cabinetry introduces Evolve Shaker Doors. This addition brings a fresh twist to the timeless Shaker style, combining classic design with modern craftsmanship. Visitors can also explore Dovetail Drawers, engineered for enhanced durability and a touch of luxury in multifamily and custom home applications. And finally from Sauder Cabinetry, brand new hanging vanities that blend form and function to redefine storage.
