STONE HARBOR HARDWARE CHALLENGES ATTENDEES TO BEAT THE CLOCK AT THE 2026 INTERNATIONAL BUILDERS' SHOW

Appleton, Wis. – February 12, 2026 – Designers, builders and other industry professionals can elevate their Design & Construction Week experience with Stone Harbor Hardware's "Beat the Clock" challenge at the 2026 International Builders' Show. From February 17 -19, IBS and KBIS attendees will have the opportunity to show off their installation skills.

Builders, designers and other attendees must unbox and install a pocket door lock, racing the clock to see how fast they can complete the installation. The participants' times will be displayed, adding a competitive edge to the game.

"Our 'Beat the Clock' challenge is designed to give people a chance to see how easy it is to install Stone Harbor products," said Beth Basch, marketing director for Stone Harbor Hardware. "We're encouraging industry professionals to show off their skills while discovering how Stone Harbor can deliver the products they need for their projects."

The fastest installer each day will receive a hardware package of their choice, valued at \$500 MSRP.

Visitors to Stone Harbor's booth (#W4791) will also have the opportunity to explore Stone Harbor's extensive product line, including cabinet hardware, door locks, door and home hardware, sliding barn door hardware, and bath accessories, including the upcoming Orleans bath hardware collection.

Established in 2010, Stone Harbor Hardware LLC manufactures and distributes quality builders, bath, cabinet, door and closet hardware. For more information about the company, please visit www.stoneharborhardware.com.
