COMPANY PROFILE

Haining Mingyuan Decorative Materials Co., Ltd.

Having been deeply engaged in the decoration materials field for over a decade and is a professional enterprise integrating R&D, production, sales and service.

Relying on advanced professional production equipment and green manufacturing concepts, the company has established a strict quality and environmental protection management system. From the selection of eco-friendly raw materials, energy-saving and efficient production processes, to finished product inspection and green packaging, we strive for excellence throughout the entire process. While ensuring the outstanding quality of our products, we actively practice sustainable development.

With its independent import and export rights, Mingyuan products sell well in many global markets such as Europe, America, Southeast Asia and South America. We always adhere to the concept of innovative design, strict quality standards and green environmental protection responsibility, and are committed to providing customers with high-quality decorative material solutions that are aesthetically pleasing, practical, environmentally friendly and healthy.

FROM MINGYUAN TO FANMAO

Mingyuan has been deeply engaged in new materials, with technology innovation as its core. Its subsidiary Fanmao leverages its R&D and production capabilities, controlling the entire process, balancing practicality and aesthetics, and delivering high-quality products with excellent reputations.

FACTORY INTRODUCTION

From raw material control to intelligent production, the entire process is strictly managed to ensure that the products have both practical performance and aesthetic value. With efficient production capacity and customized services, we have provided high-quality building materials solutions for multiple scenarios such as residential, commercial, and public Spaces. We are committed to empowering green home decoration with technology and promoting the sustainable development of building materials.
