

Each stage of construction brings different risks –

HERE'S HOW TO COVER THEM ALL.

Maverick helps you put the right protection in place at each stage – from the first day of construction and well beyond the home's sale.

Builder's Risk

Warranty + HomeCare

General Liability

Builder's Risk Coverage

Maverick's Builder's Risk is built to fit real construction timelines – flexible, practical, and designed to protect your profit.

- **Cancel when your project is complete** and we may return any unused premium back to you.
- **12- or 18-month policies available.** If a project may run long, choose 18 months upfront and skip the hassle of securing an extension later.
- **Flexible extensions.** Extend coverage in bulk if your project runs long – not a full 12-month term like many competitors require.

General Liability Coverage

Maverick's General Liability is built for builders – protecting your business and your team.

- Many General Liability policies quietly exclude subcontractor work on your behalf – is your GL built for builders?
- Designed to align with a Maverick structural warranty to keep you covered well beyond closing.

Warranty

Maverick's warranty protects your work after closing and helps prevent the post-sale claims and lawsuits that can hit long after construction is complete.

- **Insurance-backed warranty** so you're not left handling major structural defects out of pocket years after closing.
- Sets clear workmanship standards that **reduce callbacks, confusion, and claims.**
- **Prevents costly disputes** by replacing implied warranty obligations with a clear, written express warranty.

HomeCare

Maverick's HomeCare is a first-year homeowner support service that takes warranty communication off your plate – and protects your reputation by keeping homeowners supported after closing.

- We validate covered issues, educate homeowners, and **give you back the time to focus on your next build.**
- With our concierge tiers, you can **step away from warranty administration** completely.

**Protect your builds.
Protect your business.
Protect your profits.**

Coverage may vary by carrier, policy, state, and market conditions. Always review your specific policy documents and consult with your Maverick licensed insurance agent to confirm what is included. Please note that warranty is a contract, NOT an insurance policy.
