

# Company Overview

AFD Home is a U.S.-based design, manufacturing, and project-management partner specializing in large-scale builder, developer, hospitality, and architectural projects. With more than 35 years of experience, AFD Home collaborates closely with builders, architects, and designers to deliver integrated design solutions that enhance residential, commercial, and destination environments.

Our work includes Large Entry Gates and Fencing, marble and stone architectural elements, sculptural features, decorative installations, and curated art programs engineered for scale, durability, and visual impact. AFD Home is recognized for managing complex project scopes that require coordination across international production, logistics, and multi-phase build schedules.
