

## UPeak Elevator Launches EasyRise, the Direct Drive Home Elevator, at International Builders' Show

UPeak Elevator Ltd., a company built upon three decades of commercial elevator expertise, today unveiled the EasyRise Home Elevator at the International Builders' Show. EasyRise is the first home elevator powered by a direct electric drive, engineered to bring uncompromising commercial-grade performance and reliability into residential settings.

The founding team behind UPeak has managed elevator projects for complex large-scale developments, including metro systems and high-rise towers. This DNA of rigorous engineering is now channeled into the residential market with EasyRise, which integrates the strengths of traditional screw, hydraulic, and traction systems while eliminating their common drawbacks.

### **Key advantages of the EasyRise Home Elevator include:**

- **Whisper-Quiet Operation:** Advanced quiet-drive technology ensures near-silent performance.
- **Eco-Friendly & Efficient:** An oil-free, direct-drive motor eliminates contamination risks and reduces energy consumption.
- **Space-Saving & Flexible Installation:** The pit-free design allows for seamless integration into both new constructions and existing homes.
- **AI Smart Maintenance:** An intelligent system enables remote monitoring, preemptive fault alerts, and smart maintenance scheduling.
- **Cost-Effectiveness:** Streamlined design and installation deliver top-tier safety and quality at a more accessible price point.

“The residential elevator market has long been defined by compromise,” said [发言人姓名, 例如: John Doe, CEO of UPeak Elevator]. “With EasyRise, we are redefining that standard. We’ve applied our decades of experience to create a product that requires no trade-offs in noise, space, or peace of mind, making it the ideal choice for builders and homeowners alike.”

EasyRise is designed for modern living, offering a sophisticated mobility solution for luxury new builds, aging-in-place renovations, and whole-home accessibility.
