RVMP flex | **SECURITY** ™

PROTECT WHAT MATTERS

RVMP Flex Security™ is where the future of artificial intelligence ("AI") technology meets unparalleled vigilance to safeguard your assets. It is founded on the robust infrastructure of RV Mobile Power, LLC (RVMP®), the industry-leading supplier of innovative power solutions for the recreational vehicle industry. Flex Security™ collaborates with a diverse range of partners across the United States, from small enterprises to major OEM manufacturers, applying its expertise in design, engineering, manufacturing, development, and service to deliver products equipped with the highest-quality technology and equipment.

At Flex Security™, we push the boundaries of technology to drive innovation. Built in the United States, our products are designed to last, crafted from the finest raw materials available. With competitive pricing, we take pride in making products for Americans, by Americans, in the Heartland. Committed to exceeding safety standards, Flex Security™ stands with you in creating a safer America—preventing crime before it happens.

STOP CRIME
BEFORE IT HAPPENS.™

At RVMP Flex Security™, the mission is to **stop crime before it happens**. Rigorously testing all products in high-crime areas where security challenges are heightened by frequent incidents of trespassing and criminal activity. By deploying advanced mobile security solutions, Flex Security™ has successfully deterred threats and reduced security risks. The technology in all Flex Security™ products deliver real-time surveillance, preventing incidents before they escalate. These tests prove that proactive security measures can effectively transform high-risk areas into safer, more secure environments—demonstrating unwavering commitment to crime prevention and protection.

NONSTOP POWER.
NONSTOP STREAMING.

24/7/365

Flex Security™ is redefining mobile surveillance with a fleet of advanced security trailers built to operate in any environment:

- **ALPHA™** lays the foundation for robust security with customizable configurations and built-in Flex Power® 2800i backup generation, ensuring uninterrupted performance.
- **ALPHA APEX™** raises the stakes with LiDAR technology, delivering ultra-precise monitoring and seamless communication.
- **ALPHA SIGHT™** integrates thermal with integrated AI cameras for real-time tracking and superior situation awareness, providing up to 90% target accuracy.
- **ALPHA FLIGHT™** extends coverage with an autonomous drone for rapid response and aerial visibility beyond ground-based systems.
- **BRAVO™** is the compact off-grid security solution, guaranteeing reliable surveillance.

Every unit comes equipped with the proprietary **Continuous Video Recording** (CVR) - an onboard AI processor that ensures seamless live streaming, video backup, and cloud connectivity. Integrated with **Flex Security Intelligence**, the cloud-based security software provides AI-enhanced surveillance, playback, and compatibility with existing Video Management System (VMS) and backup solutions.
Wherever security is needed, **Flex Security™** delivers precision, adaptability, and unwavering reliability.

ALWAYS ON GUARD.
SECURITY TAILORED TO YOU.

ALPHA™

Cameras	**3**
Batteries	**600Ah**
Solar Panels	**880W** Four (4) RVMP Solar® 220W Bifacial solar panels
Generator	**RVMP Flex Power™ 2800i** with two standard LP tanks.
Data Plan	**5G** WiFi capable
Warranty	**3-Year**
Shore Power	**Available**
Lights	**2 Flood 6 Strobe**

The foundation of Flex Security's mobile surveillance lineup, **ALPHA™** is the most efficient and cost-efficient security solution, offering a starting point for expansion. Designed for customization, the ALPHA™ provides essential security features with adaptable power, connectivity, and camera configuration.

ALPHA**APEX**™

Cameras	1-3
Batteries	600Ah
Solar Panels	880W Bifacial solar panels
Generator	RVMP Flex Power™ 2800i with two standard LP tanks.
Data Plan	5G WiFi capable
Warranty	3-Year
Shore Power	Available
Lights	2 Flood 6 Strobe

For those who demand the highest level of surveillance precision, **ALPHA APEX™** elevates security with advanced optics and intelligent tracking. Featuring a **Bosch PTZ camera**, **Bosch horn**, and **Quanergy LiDAR** technology, this powerhouse is engineered for maximum situational awareness with unparalleled visibility and control.

ALPHA **SIGHT**™

Cameras	**3**
Batteries	**600Ah**
Solar Panels	**880W** Bifacial solar panels
Generator	**RVMP Flex Power™ 2800i** with two standard LP tanks.
Data Plan	**5G** WiFi capable
Warranty	**3-Year**
Shore Power	**Available**
Lights	**2 Flood** **6 Strobe**

When visibility matters most, **ALPHA SIGHT™** delivers unmatched thermal intelligence powered by **SightLogix** with a **PTZ camera** for real-time tracking and enhanced threat detection. Designed for high-risk environments where low light and concealed threats pose challenges, **ALPHA SIGHT™** provides monitoring in demanding conditions.

ALPHA **SIGHTMAX**™

Cameras	**5**
Batteries	**600Ah**
Solar Panels	**880W** Bifacial solar panels
Generator	**RVMP Flex Power™ 2800i** with two standard LP tanks.
Data Plan	**5G** WiFi capable
Warranty	**3-Year**
Shore Power	**Available**
Lights	**2 Flood 6 Strobe**

ALPHA SIGHT MAX™ delivers advanced thermal intelligence through SightLogix technology, paired with a PTZ camera for real-time tracking and heightened threat detection. Purpose-built for high-risk environments where low light and hidden dangers create challenges, **ALPHA SIGHT MAX™** ensures reliable monitoring in the most demanding conditions.

ALPHA **FLIGHT**™

Cameras	**4**
Batteries	**600Ah**
Solar Panels	**880W** Bifacial solar panels
Generator	**RVMP Flex Power™ 2800i** with two standard LP tanks.
Data Plan	**5G** WiFi capable
Warranty	**3-Year**
Drone	**Available**
Lights	**2 Flood 6 Strobe**

ALPHA FLIGHT™ takes mobile surveillance to the next level with an integrated autonomous drone. Delivering rapid response and expanded visibility, it provides adaptable power, connectivity, and camera options to cover areas beyond the reach of ground-based systems.

ALPHA **DRONE**

Max Transmission Distance	**600m** (.4mi) radius
Drone Dimensions	**11" x 11" x 8.25"**
Hive Dimensions	**34" x 31.5" x 31.5"**
Recharge Time Ratio	**1:2**
Cruise Speed	**14.5 km/h or 4 m/s**
Takeoff Speed	**≤ 5s**
Coverage/Time	**4 acres / 30s**

Powerful on its own, partnered with Sunflower Labs®, **Alpha Drone** is a flexible drone-in-a-box solution that integrates with our existing cameras and sensors. Together, they deliver a seamless, autonomous security system that extends your visibility, enhances real-time response, and reduces manual monitoring.

BRAVO™

Cameras	**2**
Batteries	**600Ah**
Solar Panels	**880W** Bifacial solar panels
Data Plan	**5G** WiFi capable
Warranty	**3-Year**
Shore Power	**Available**
Lights	**2 Flood 6 Strobe**

For those with limited space, the **BRAVO™** offers a **compact** yet powerful solution. It delivers the same advanced technology and capabilities as the ALPHA™ but features **additional battery** for extended operation, all in a portable design. With versatile camera options and robust security features, BRAVO™ ensures high-quality monitoring for flexible surveillance needs.

BRAVO**MAX**™

Cameras	3
Batteries	800Ah
Solar Panels	880W Bifacial solar panels
Data Plan	5G WiFi capable
Warranty	3-Year
Shore Power	Available
Lights	2 Flood 6 Strobe

For deployments that demand endurance, the **BRAVO MAX™** delivers extended power in a portable form. Building on the proven BRAVO™ platform, it adds additional cameras for increased protection. With versatile and robust security features, BRAVO MAX™ ensures reliable, high-quality monitoring wherever flexible surveillance is required.

FLEX SECURITY
INTELLIGENCE

Flex Security Intelligence is an advanced remote monitoring platform that enables **real-time security management** from anywhere. Its cloud-based interface offers **powerful surveillance tools**, including live camera feeds, Continuous Video Recording (CVR) status monitoring, easy access to recordings, and Remote Management Services (RMS) of all Flex Security™ products. With **event-based automation**, the Flex Security Intelligence system enables flood lights and horns for immediate response and communication to threats.

Intelligent search capabilities allow users to quickly locate specific events, while facial recognition and license plate identification enhances security by identifying individuals and vehicles in real time. The platform also supports **direct PTZ camera control**, enabling users to adjust views and focus on key areas with precision.

Whether managing a single site or a multi-location network, Flex Security Intelligence **connects you directly to local authorities** and delivers intuitive, proactive security management with full operational control and ease.

CUSTOMIZED FOR YOUR NEEDS

EDIT YOUR CONFIGURATION

ADD MORE FEATURES

REMOVE WHAT YOU DON'T NEED

With **Flex Security™**, you have the freedom to fully customize your security trailer to match your specific needs. Whether you need to **adjust the number of cameras** for optimal coverage, **enhance connectivity options** for seamless remote monitoring, or **scale power and data capabilities**, Flex Security™ provides complete flexibility to configure your system. Additional features, such as **advanced radar or LiDAR systems** and specialized add-ons, can be integrated to further enhance functionality.

This level of customization ensures that your security trailer is perfectly suited to your site(s) and operational requirements, giving you **full control** over every aspect of your mobile security solution.

DEDICATED TO YOUR SATISFACTION

Flex Security™ is committed to delivering exceptional customer service, with a dedicated team available 24/7 to assist with any needs. Whether you're **troubleshooting a technical issue, setting up your system, or requiring immediate support**, our experts are just a call or message away. With in-depth knowledge of our products and services, they provide **fast, efficient, and effective solutions** to keep your security systems operating at peak performance. You can rely on **Flex Security™** for prompt assistance and peace of mind, knowing expert help is always available when you need it.
